Preface .....	v
Contributors .....	xi
PART I. ASSESSING RISK OF INFECTION AND SEVERITY OF DISEASE	
1 Vector Incrimination and Entomological Inoculation Rates <b>John C. Beier</b> .....	3
2 Epidemiological Measures of Risk of Malaria <b>J. Kevin Baird, Michael J. Bangs, Jason D. Maguire, and Mazie J. Barcus</b> .....	13
PART II. LABORATORY MODELS	
3 Maintenance of the <i>Plasmodium berghei</i> Life Cycle <b>Robert E. Sinden, Geoff A. Butcher, and A. L. Beetsma</b> .....	25
4 Mouse Models for Pre-Erythrocytic-Stage Malaria <b>Laurent Rénia, Elodie Belnoue, and Irène Landau</b> .....	41
5 Mouse Models for Erythrocytic-Stage Malaria <b>Latifu A. Sanni, Luis F. Fonseca, and Jean Langhorne</b> .....	57
6 Nonhuman Primate Models : I. Nonhuman Primate Host-Parasite Combinations <b>William E. Collins</b> .....	77
7 Nonhuman Primate Models : II. Infection of Saimiri and Aotus Monkeys with <i>Plasmodium vivax</i> <b>William E. Collins</b> .....	85
PART III. DIAGNOSIS AND TYPING	
8 Vector Analysis <b>John C. Beier</b> .....	95
9 Genotyping of <i>Plasmodium</i> spp.: Nested PCR <b>Georges Snounou</b> .....	103
10 Genotyping of <i>Plasmodium falciparum</i> : PCR-RFLP Analysis <b>Ingrid Felger and Hans-Peter Beck</b> .....	117
11 Microsatellite Analysis in <i>Plasmodium falciparum</i> <b>Xin-zhuan Su and Michael T. Ferdig</b> .....	131
12 Quantitation of Liver-Stage Parasites by Automated TaqMan® Real-Time PCR <b>Adam A. Witney, Robert M. Anthony, and Daniel J. Carucci</b> .....	137
13 Quantitation of Liver-Stage Parasites by Competitive RT-PCR <b>Kyle C. McKenna and Marcelo R. S. Briones</b> .....	141

## PART IV. MOLECULAR BIOLOGY TECHNIQUES

14	Extraction and Purification of <i>Plasmodium</i> Total RNA <b>Till Voss</b> .....	151
15	Extraction and Purification of <i>Plasmodium</i> Parasite DNA <b>Hans-Peter Beck</b> .....	159
16	Southern Blotting of Parasite DNA <b>Tobias Spielmann</b> .....	165
17	SDS-PAGE and Western Blotting of <i>Plasmodium falciparum</i> Proteins <b>Roland A. Cooper</b> .....	177
18	Nested PCR Analysis of <i>Plasmodium</i> Parasites <b>Georges Snounou and Balbir Singh</b> .....	189
19	RFLP Analysis <b>Hans-Peter Beck</b> .....	205
20	Analysis of Gene Expression by RT-PCR <b>Peter Preiser</b> .....	213
21	<i>In Situ</i> Detection of RNA in Blood- and Mosquito-Stage Malaria Parasites <b>Joanne Thompson</b> .....	225
22	Purification of Chromosomes from <i>Plasmodium falciparum</i> <b>Daniel J. Carucci, Paul Horrocks, and Malcolm J. Gardner</b> .....	235
23	Construction of Genomic Libraries from the DNA of <i>Plasmodium</i> Species <b>Leda M. Cummings, Dharmendar Rathore, and Thomas F. McCutchan</b> .....	241
24	Construction of a Gene Library with Mung Bean Nuclease-Treated Genomic DNA <b>Dharmendar Rathore and Thomas F. McCutchan</b> .....	253
25	Construction of <i>Plasmodium falciparum</i> $\lambda$ cDNA Libraries <b>David A. Fidock, Dharmendar Rathore, and Thomas F. McCutchan</b> .....	265
26	Production of Stage-Specific <i>Plasmodium falciparum</i> cDNA Libraries Using Subtractive Hybridization <b>David A. Fidock, Thanh V. Nguyen, Brenda T. Beerntsen, and Anthony A. James</b> .....	277
27	Construction and Screening of YAC Libraries <b>Cecilia P. Sanchez, Martin Preuss, and Michael Lanzer</b> .....	291
28	Episomal Transformation of <i>Plasmodium berghei</i> <b>Chris J. Janse and Andrew P. Waters</b> .....	305
29	Gene Targeting in <i>Plasmodium berghei</i> <b>Vandana Thathy and Robert Ménard</b> .....	317

## PART V. IMMUNOLOGICAL TECHNIQUES

30	Peptide Vaccination <b>Valentin Meraldi, Jackeline F. Romero, and Giampietro Corradin</b> .....	335
----	--	-----

31	DNA Vaccination <b>Richard C. Hedstrom and Denise L. Doolan</b> .....	347
32	Assessing Antigen-Specific CD8 <sup>+</sup> and CD4 <sup>+</sup> T-Cell Responses in Mice After Immunization with Recombinant Viruses <b>Moriya Tsuji</b> .....	361
33	Assessing CD4 <sup>+</sup> Helper T-Lymphocyte Responses by Lymphoproliferation <b>Isabella A. Quakyi and Jeffrey D. Ahlers</b> .....	369
34	Limiting Dilution Analysis of Antigen-Specific CD4 <sup>+</sup> T-Cell Responses in Mice <b>Elsa Seixas, Jean Langhorne, and Stuart Quin</b> .....	385
35	Cell Trafficking: <i>Malaria Blood-Stage Parasite-Specific CD4<sup>+</sup> T Cells After Adoptive Transfer into Mice</i> <b>Chakrit Hirunpetcharat and Michael F. Good</b> .....	401
36	Assessing Antigen-Specific Proliferation and Cytokine Responses Using Flow Cytometry <b>Catherine E. M. Allsopp and Jean Langhorne</b> .....	409
37	Cytokine Analysis by Intracellular Staining <b>Aftab A. Ansari and Ann E. Mayne</b> .....	423
38	Assessment of Antigen-Specific CTL- and CD8 <sup>+</sup> -Dependent IFN- $\gamma$ Responses in Mice <b>Katrin Peter, Régine Audran, Anilza Bonelo, Giampietro Corradin, and José Alejandro López</b> .....	437
39	Assessing Antigen-Specific CD8 <sup>+</sup> CTL Responses in Humans <b>Denise L. Doolan</b> .....	445
40	Human Antibody Subclass ELISA <b>Pierre Druilhe and Hasnaa Bouharoun-Tayoun</b> .....	457
41	Systemic Nitric Oxide Production in Human Malaria: <i>I. Analysis of NO Metabolites in Biological Fluids</i> <b>Nicholas M. Anstey, Craig S. Boutlis, and Jocelyn R. Saunders</b> .....	461
42	Systemic Nitric Oxide Production in Human Malaria: <i>II. Analysis of Mononuclear Cell Nitric Oxide Synthase Type 2 Antigen Expression</i> <b>Jocelyn R. Saunders, Mary A. Misukonis, J. Brice Weinberg, and Nicholas M. Anstey</b> .....	469
PART VI. CELL BIOLOGY TECHNIQUES		
43	In Vitro Culture of <i>Plasmodium</i> Parasites <b>James B. Jensen</b> .....	477
44	Automated Synchronization of <i>Plasmodium falciparum</i> Parasites by Culture in a Temperature-Cycling Incubator <b>J. David Haynes and J. Kathleen Moch</b> .....	489
45	Hepatic Portal Branch Inoculation <b>John B. Sacci, Jr.</b> .....	499

46	Hepatocyte Perfusion, Isolation, and Culture <b>John B. Sacci, Jr.</b> .....	503
47	Inhibition of Sporozoite Invasion: <i>The Double-Staining Assay</i> <b>Laurent Rénia, Ana Margarida Vigário, and Elodie Belnoue</b> .....	507
48	Inhibition of Liver-Stage Development Assay <b>John B. Sacci, Jr.</b> .....	517
49	T-Cell Mediated Inhibition of Liver-Stage Development Assay <b>Laurent Rénia, Elodie Belnoue, and Ana Margarida Vigário</b> .....	521
50	Antibody-Dependent Cellular Inhibition Assay <b>Pierre Druilhe and Hasnaa Bouharoun-Tayoun</b> .....	529
51	Erythrocytic Malaria Growth or Invasion Inhibition Assays with Emphasis on Suspension Culture GIA <b>J. David Haynes, J. Kathleen Moch, and Douglas S. Smoot</b> .....	535
52	Analysis of CSA-Binding Parasites and Antiadhesion Antibodies <b>Michal Fried and Patrick E. Duffy</b> .....	555
53	Analysis of the Adhesive Properties of <i>Plasmodium falciparum</i> -Infected Red Blood Cells Under Conditions of Flow <b>Brian M. Cooke, Ross L. Coppel, and Gerard B. Nash</b> .....	561
54	Preparation of Adhesive Targets for Flow-Based Cytoadhesion Assays <b>Brian M. Cooke, Ross L. Coppel, and Gerard B. Nash</b> .....	571
55	Triton X-114 Phase Partitioning for Antigen Characterization <b>Lina Wang and Ross L. Coppel</b> .....	581
56	Immunoprecipitation for Antigen Localization <b>John G. T. Menting and Ross L. Coppel</b> .....	587
PART VII. TESTING INTERVENTIONS FOR MALARIA CONTROL		
57	Field Trials <b>Pedro L. Alonso and John J. Aponte</b> .....	607
	Index .....	617
