

CONTENTS

Preface	v
Contributors	xiii

I. COPPER IN MAMMALS

- 1 Biochemistry and Molecular Biology of Copper in Mammals 3
Maria C. Linder

II. COPPER PROTEINS

- 2 Biochemistry of the Wilson's Disease Protein 35
Svetlana Lutsenko, Ruslan Tsivkovskii, Matthew J. Cooper, Brian C. MacArthur, and Hans-Peter Bächinger
- 3 Biologically Relevant Properties of Copper-Containing Proteins Analyzed by Means of Semiquantitative and Quantitative Theoretical Descriptors 53
Francesca De Rienzo, R. Razif Gabdoulline, Rebecca C. Wade, and M. Cristina Menziani
- 4 Molecular Modeling and Dynamics of Copper Proteins 81
Mattia Falconi and Alessandro Desideri
- 5 The Prion Protein and Copper: *What Is the Connection?* 103
Lesley R. Brown and David A. Harris
- 6 Prion Protein: *A Synaptic Cuproprotein* 115
David R. Brown
- 7 Cytochrome-*c* Oxidase 131
Shinya Yoshikawa
- 8 The Fet3 Protein: *A Multicopper Ferroxidase Essential to Iron Metabolism in Yeast* 153
Daniel J. Kosman
- 9 Interaction of Copper-Binding Proteins from *Enterococcus hirae* ... 177
Paul A. Cobine, Christopher E. Jones, Wasantha A. Wickramasinghe, Marc Solioz, and Charles T. Dameron

III. COPPER TRANSPORT

- 10 Copper Uptake in Eukaryotic Cells 189
Lisbeth Birk Møller and Nina Horn
- 11 The Role of PINA in Copper Transport, Circadian Rhythms, and Wilson's Disease 201
Jimo Borjigin, Xing Sun, and Michael M. Wang
- 12 The Identification of Motifs Involved in the Intracellular Trafficking of the Menkes Disease Protein 209
Michael J. Francis and Anthony P. Monaco

- 13 Intracellular Copper Transport and ATP7B, the Wilson's Disease Protein 227
Kunihiko Terada and Toshihiro Sugiyama
- 14 A Multicopper Oxidase-Based Iron-Transport System in Yeast 235
Jerry Kaplan

IV. MOLECULAR PATHOGENESIS OF DISEASES OF COPPER METABOLISM

- 15 Molecular Basis of Diseases of Copper Homeostasis 249
Julian F. B. Mercer, David Kramer, and James Camakaris
- 16 Disturbances of Copper Homeostasis and Brain Function 277
Giuseppe Rotilio, Maria Rosa Ciriolo, Maria Teresa Carri, and Luisa Rossi
- 17 Role of Copper and Other Transition Metal Ions in the Pathogenesis of Parkinson's Disease, Prion Diseases, Familial Amyotrophic Lateral Sclerosis and Alzheimer's Disease 297
Gerd Multhaup, Hermann H. Dieter, Konrad Beyreuther, and Thomas A. Bayer
- 18 Molecular Genetics and Clinical Aspects of Menkes Disease and Occipital Horn Syndrome 319
Hiroko Kodama
- 19 The Meaning of Alternative Transcripts of the Menkes Disease Gene 333
Edward D. Harris, Manchi C. M. Reddy, and Sudeep Majumdar
- 20 Expression Profiling in Menkes Disease 343
Zeynep Tümer, Nina Horn, and Lars Riff Jensen
- 21 Regulation by Copper of the Expression of Human Bis, a New Gene Involved in the Cellular Stress Response to Metals 357
Maria Gabriella Pagliuca, Rosa Lerose, and Arturo Leone
- 22 Non-Indian Childhood Cirrhosis: *Using a Founder Population to Identify the Underlying Genetic Defect* 369
Cisca Wijmenga

V. COPPER TOXICITY AND THERAPEUTICS

- 23 Biological Effects of Chronic Copper Exposure 385
Magdalena Araya, Mauricio González, Manuel Olivares, and Ricardo Uauy
- 24 Copper Toxicity to Tight Junctions in the Human Intestinal Caco-2 Cell Line 397
Simonetta Ferruzza, Yula Sambuy, Andrea Onetti-Muda, Fabio Nobili, and Maria Laura Scarino

- 25 Cellular Responses to Copper in Aquatic Organisms: *Importance of Oxidative Stress and Alteration of Signal Transduction* 417
Aldo Viarengo, Bruno Burlando, and Claudia Bolognesi
- 26 Selective Removal of Copper Accumulating in the Form Bound to Metallothionein by Tetrathiomolybdate 433
Kazuo T. Suzuki and Yasumitsu Ogra
- 27 Control of Copper in Wilson's Disease and Diseases of Neovascularization, such as Cancer 443
George J. Brewer
- 28 Copper-Rich Metallothionein Polymers During the Development of Fulminant Hepatitis in LEC Rats: *Effect of D-Penicillamine* 461
Dominik Klein, Josef Lichtmannegger, and Karl H. Summer

VI. COPPER METABOLISM AND HOMEOSTASIS

- 29 Sensory Protein Modification: *A New Feature in Copper Balancing* 475
Zhiwu Zhu, Jose Heredia, and Ryan Teves
- 30 Comparative Analysis of Copper and Iron Metabolism in Photosynthetic Eukaryotes vs Yeast and Mammals 481
Sharon La Fontaine, Jeanette Quinn, and Sabeeha Merchant
- 31 Copper and the Morphological Development of *Streptomyces* 503
Erik Vijgenboom and Bart Keijser
- 32 Molecular Hardware of Copper Homeostasis in *Enterococcus hirae* 527
Reinhard Wimmer, Charles T. Dameron, and Marc Solioz
- 33 Copper Homeostasis in Plants 543
Helena Mira, Vicente Sancenón, and Lola Peñarrubia
- 34 The Role of Copper Ions in Regulating Methane Monooxygenases in Methanotrophs 559
J. Colin Murrell, Graham Stafford, and Ian R. McDonald
- 35 Regulatory Responses to Copper Ions in Fungi 571
Simon Labbé, Jude Beaudoin, Daniel R. Bellemare, and Benoit Pelletier

Index 589

Handbook of Copper Pharmacology and Toxicology

Massaro, E.J. (Ed.)

2002, XVI, 608 p. 114 illus., Hardcover

ISBN: 978-0-89603-943-8

A product of Humana Press
