Preface	vii
Contributors	xv

I. INTRODUCTION: *PHYSIOLOGY AND PHARMACOLOGY OF GLUTAMATE*

Philip H. Sheridan, Forrest F. Weight, and Barbara H. Herman

Section Editors

1	Molecular Pharmacology and Physiology of Glutamate Receptors	3
	<i>Karin Borges and Raymond Dingledine</i>	
2	Pharmacology of Glutamate Receptors	23
	<i>Jeffrey M. Witkin, Rafal Kaminski, and Michael A. Rogawski</i>	
3	Glutamate and Neurotoxicity	51
	<i>B. Joy Snider and Dennis W. Choi</i>	
4	Maturational Regulation of Glutamate Receptors and Their Role in Neuroplasticity	63
	<i>Russell M. Sanchez and Frances E. Jensen</i>	
5	Role of the NMDA Receptor in Neuronal Apoptosis and HIV-Associated Dementia	71
	<i>Marcus Kaul and Stuart A. Lipton</i>	

II. GLUTAMATE: *STIMULANT DRUGS OF ABUSE (COCAINE, AMPHETAMINE, METHAMPHETAMINE)*

Jerry Frankenheim and Barbara H. Herman, Section Editors

6	Role of Glutamate and Nitric Oxide in the Acquisition and Expression of Cocaine-Induced Conditioned Increases in Locomotor Activity	83
	<i>Agu Pert, Robert M. Post, and Susan R. B. Weiss</i>	
7	Interactions of Dopamine, Glutamate, and GABA Systems in Mediating Amphetamine- and Cocaine-Induced Stereotypy and Behavioral Sensitization	107
	<i>Ralph Karler, David K. Thai, and Larry D. Calder</i>	
8	Addiction and Glutamate-Dependent Plasticity	127
	<i>Marina E. Wolf</i>	
9	Glutamate and Dopamine Interactions in the Motive Circuit: <i>Implications for Craving</i>	143
	<i>David A. Baker, Jennifer L. Cornish, and Peter W. Kalivas</i>	
10	Glutamate Cascade from Metabotropic Glutamate Receptors to Gene Expression in Striatal Neurons: <i>Implications for Psychostimulant Dependence and Medication</i>	157
	<i>John Q. Wang, Limin Mao, and Yuen-Sum Lau</i>	

11	Glutamate Neurotransmission in the Course of Cocaine Addiction	171
	Luigi Pulvirenti	
12	Glutamate and the Self-Administration of Psychomotor-Stimulant Drugs	183
	Paul Vezina and Nobuyoshi Suto	
13	Roles of Glutamate, Nitric Oxide, Oxidative Stress, and Apoptosis in the Neurotoxicity of Methamphetamine	201
	Jean Lud Cadet	
14	Methamphetamine Toxicity: <i>Roles for Glutamate, Oxidative Processes, and Metabolic Stress</i>	211
	Kristan B. Burrows and Bryan K. Yamamoto	
15	Nitric Oxide-Dependent Processes in the Action of Psychostimulants	229
	Yossef Itzhak, Julio L. Martin, and Syed F. Ali	
16	Effects of Novel NMDA/Glycine-Site Antagonists on the Blockade of Cocaine-Induced Behavioral Toxicity in Mice	243
	Rae R. Matsumoto and Buddy Pouw	
17	Clinical Studies Using NMDA Receptor Antagonists in Cocaine and Opioid Dependence	261
	Adam Bisaga and Marian W. Fischman	
18	The Role of mGluR5 in the Effects of Cocaine: <i>Implications for Medication Development</i>	271
	Mark P. Epping-Jordan	

III. GLUTAMATE AND OPIATE DRUGS (HEROIN) OF ABUSE

Barbara H. Herman and Jerry Frankenheim, Section Editors

19	Role of the Glutamatergic System in Opioid Tolerance and Dependence: <i>Effects of NMDA Receptor Antagonists</i>	281
	Jianren Mao	
20	The Role of NMDA Receptors in Opiate Tolerance, Sensitization, and Physical Dependence: <i>A Review of the Research, A Cellular Model, and Implications for the Treatment of Pain and Addiction</i>	295
	Keith A. Trujillo	
21	Modification of Conditioned Reward by N-Methyl-D-aspartate Receptor Antagonists	323
	Piotr Popik	
22	Morphine Withdrawal as a State of Glutamate Hyperactivity: <i>The Effects of Glutamate Receptor Subtype Ligands on Morphine Withdrawal Symptoms</i>	329
	Kurt Rasmussen	

IV. GLUTAMATE AND ALCOHOL ABUSE AND ALCOHOLISM

Forrest F. Weight and Raye Z. Litten, Section Editors

23	Alcohol Actions on Glutamate Receptors	343
	<i>Robert W. Peoples</i>	
24	Glutamate and Alcohol-Induced Neurotoxicity	357
	<i>Fulton T. Crews, Joseph G. Rudolph, and L. Judson Chandler</i>	
25	Role of Glutamate in Alcohol Withdrawal Kindling	375
	<i>Howard C. Becker and Nicole Redmond</i>	
26	Alcohol and Glutamate Neurotransmission in Humans: Implications for Reward, Dependence, and Treatment	389
	<i>John H. Krystal, Ismene L. Petrakis, D. Cyril D'Souza, Graeme Mason, and Louis Trevisan</i>	
27	Mechanism of Action of Acamprosate Focusing on the Glutamatergic System	399
	<i>W. Zieglgänsberger, G. Rammes, R. Spanagel, W. Danysz, and Ch. Parsons</i>	
28	The NMDA/Nitric Oxide Synthase Cascade in Opioid Analgesia and Tolerance	409
	<i>Gavril W. Pasternak and Yuri Kolesnikov</i>	
29	Overview of Clinical Studies for Acamprosate	417
	<i>Adriaan S. Potgieter</i>	
	Index	427
