

TABLE OF CONTENTS

Introduction	1
A. Structural Changes and New Economy in the EU and the US	7
<i>Werner Röger</i>	
1. Introduction	7
2. Empirical Evidence on ICT in Europe and the US	8
2.1 ICT Investment and Growth	8
2.2 Technical Progress in the Production of ICT Goods and Services	12
3. Implications for Growth and Employment	18
3.1 Simulation Experiments	19
3.2 TFP Shock in the US and EU ICT Sector	21
4. Concluding Remarks	23
B. Information & Communication Technology and Growth: Some Neglected Dynamic Aspects in Open Digital Economies	29
<i>Paul J.J. Welfens</i>	
1. Introduction	29
2. The Basic Analytics of ICT	31
2.1 Spillover Effects from Computers Used in Households	37
2.2 Endogenous Growth in an Open Economy	41
2.3 Network Effects and the Macroeconomic Production Function	44
2.4 Impact of the Internet in a Model with Human Capital and Unemployment	46
3. Conclusions and Policy Implications	49

C. The New Economy in Spain: Situation and Prospects 53*Manuel Balmaseda, Carmen Hernansanz, Angel Melguizo and Miguel Sebastian*

1.	Introduction	53
2.	The New Economy: Macroeconomic Fundamentals	53
2.1	Impact on Production, Employment and Prices	55
2.2	Other Macroeconomic Impacts	57
2.3	Summary of Impacts and Boosting Factors	58
3.	The New Economy in Spain: Potential Macroeconomic Gains 2000-2010	60
3.1	Impact on Producer and Consumer Prices: a Static Analysis	61
3.1.1	Aggregate Impacts	62
3.1.2	Analysis of the Gains by Sector	64
3.2	Macroeconomic Impact in the Next Decade: a Dynamic Analysis	66
3.2.1	Impact of Higher Productivity	67
3.2.2	Greater Impact in Spain than in the United States	73
3.3	Conclusions: Spain and the "Virtuous Circle" of the New Economy	73
4.	Microeconomic Implications of the New Economy	74
4.1	Dissemination is a Key Requirement: "Network Externalities"	74
4.2	Lower Transaction Costs and More Horizontal Structures	75
4.3	More Competitive Markets	76
5.	The New Economy in Spain: the Starting Point	77
5.1	Strong Growth in Internet Access, but Penetration is Still Insufficient	77
5.2	E-commerce as Yet in its Infancy	79
5.3	Spain Lagging in Adaptation to the New Economy	79
5.4	How to Advance Towards the New Economy?	80

5.4.1 Low Internet Access Prices	81
5.4.2 A More Flexible Economy	81
5.4.3 Development of Venture Capital	82
5.4.4 Fostering Innovation	83
6. Conclusions	84
D. Telecommunication Dynamics and Internet Expansion	87
<i>Robert F. Pelzel</i>	
1. Introduction	87
2. Market Dynamics and Perspectives	88
3. Germany as an Internet Latecomer Country	90
4. Commercial Conditions of Internet Access	95
5. Conclusions and Implications	95
E. Telecommunications, Innovation and the Long-term Production Function: Theoretical Aspects and a Cointegration Analysis for West Germany 1960 – 1990	99
<i>Andre Jungmittag and Paul J.J. Welfens</i>	
1. Introduction	99
2. Telecommunications, Services and Productivity	102
3. Production Function, Technological Innovation and Telecommunication	106
4. Non-stationarity of Time Series and Cointegration	110
5. Empirical Results	114
6. Conclusions	122
F. Regional Policy in the New Economy	129
<i>David B. Audretsch and Charles F. Bonser</i>	
1. Introduction	129

2.	Innovation as the Source of Competitiveness	129
2.1	The New Technology and its Impact on Business Operations	130
2.2	Globalization and International Trade	133
2.3	The Death of Distance, Restructuring, and Seamless Production	135
3.	The Regional Response	137
3.1	The Clustering Impact of Knowledge Spillovers	140
3.2	The American Midwest: Decline and Rebirth	142
4.	Policy Conclusions	150

G. Organizational Change, New Information and Communication Technologies and the Demand for Labor in Services **161**

Martin Falk

1.	Introduction	161
2.	Empirical Labor Demand Model at the Firm Level	163
2.1	Determinants of Actual Employment Growth	163
2.2	Determinants of Expected Heterogeneous Employment Growth	165
2.2.1	Ordered Probit Model	165
2.2.2	Multivariate Probit Model with Endogenous Organizational Change	166
2.3	Hypotheses	168
3.	Data and Descriptive Statistics	169
3.1	Definition of Organizational Change and New ICT	170
3.2	Construction of the Estimation Sample and Item Non-response	172
3.3	Descriptive Statistics	174
4.	Empirical Results	180
4.1	Impact of OC on Actual Employment Growth	180
4.2	Impact of OC on Employment Expectations	183

<i>Table of Contents</i>	<i>IX</i>
4.2.1 Ordered Probit Results	183
4.2.2 Results from the Multivariate Probit Model	186
5. Conclusions	189
H. The Effect of Restructuring the Organization of Production on Economic Growth	193
<i>Martin A. Carree</i>	
1. Introduction	193
2. The Extent of Restructuring	196
3. Model and Hypotheses	200
4. Empirical Results	203
5. Comparing Industrial Structure in Germany and the United States	206
6. Summary	210
I. Financing New Economy Firms	217
<i>Matthias Bank</i>	
1. Introduction	217
2. How to Finance New Economy Firms	217
3. Some Facts about Financing New Economy Firms in Germany	221
4. Conclusion	222
J. Technology and Financial Markets	225
<i>Michael Heise</i>	
K. Electronic Banking and Prudential Supervision	229
<i>Magdalene Heid</i>	
1. Introduction: A Bank Supervisor's View on E-banking	229
2. Trends in European E-banking	231

3.	Risks Associated with E-banking and Their Supervisory Implications	236
3.1	Strategic Risk	237
3.2	Operational Risk	238
3.3	Legal Risk	240
3.4	Reputational Risk	241
3.5	Systemic Implications of E-banking	242
4.	E-banking in Germany: Prudential Supervisory Framework and Prospects	244
5.	International Initiatives to Address the Supervisory Challenges of E-banking	246
6.	Conclusions	248

L. Integrating Electronic Commerce Into the World Trading System: Issues and Challenges **253**

Harald Sander

1.	Introduction	253
2.	The Potential of E-Commerce	254
3.	Issues in Integrating E-Commerce Into the WTO	257
3.1	GATT versus GATS	257
3.2	Integrating E-Commerce Into GATS: Which Mode of Supply?	260
3.3	E-Commerce and Intellectual Property Rights	265
4.	E-Commerce and the World Trade System	266

M. Governing the Cyber Space **271**

Jörn Kleinert and Daniel Piazolo

1.	Introduction	271
2.	Establishing Minimum Standards for the Cyber Space	272

<i>Table of Contents</i>	<i>XI</i>
3. Policy Coordination for the Cyber Space	276
4. Competition Policies for the Cyber Space	281
5. Towards more International Coordination in Competition Policy	286
6. Conclusions	288

N. Growth and Change in the New Economy: Opportunities and Challenges **293**

Margaret M. Polski

1. Introduction	293
2. Fundamentals	294
2.1 Basic and Applied Research	295
2.2 Entrepreneurship and Innovation	296
2.3 Technology Infrastructure	297
2.4 Institutional Infrastructure	298
3. Processes	299
3.1 Restructuring Transactions	299
3.2 Restructuring Organizations	300
4. Barriers and Constraints	301
5. Policy Implications	302

O. Internet and the Environment **307**

Hartmut Stiller

1. Introduction	307
2. The Direct Environmental Impact of the Internet	308
3. E-Commerce	311
3.1 B2B	311
3.2 B2C	314
4. Example: Resource Intensity of B2C of Books	316

5. New Eco-friendly Marketing Strategies and Products	319
6. Conclusions	320

P. International Information and Communications Technology Markets and Infrastructures: Some Comparative Statistics	325
--	------------

Axel Pols

1. Introduction	325
2. International ICT Markets	326
3. International ICT Infrastructures	333
4. Summary	340
