

Table of Contents

INVITED TALKS

System Design and Testing Related Theory

Conformance Testing Techniques for Timed Systems 1
Hacène Fouchal

Counter-Constrained Finite State Machines:
A New Model for Component Protocols with Resource-Dependencies 20
Ralf Reussner

Distributed and Parallel Systems

Equivalence-Checking with Infinite-State Systems: Techniques
and Results 41
Antonín Kučera and Petr Jančár

Type Theory

On Functions and Types: A Tutorial 74
Fairouz Kamareddine

Multimedia, Databases, and Vision

Database Support for Multisource Multiresolution Scientific Data 94
Philip J. Rhodes, R. Daniel Bergeron, and Ted M. Sparr

Semantic Annotation and Indexing of News and Sports Videos 115
*Jürgen Assfalg, Marco Bertini, Carlo Colombo, Alberto Del Bimbo,
and Walter Nunziati*

Multimedia Presentations Databases 132
Maria Luisa Sapino

Interactive Indexing and Retrieval of Multimedia Content 135
*Marcel Worring, Andrew Bagdanov, Jan v. Gemert, Jan-Mark Geusebroek,
Hoang Minh, Guus Schreiber, Cees Snoek, Jeroen Vendrig, Jan Wielemaker,
and Arnold Smeulders*

A Model-Based Approach to Semantic-Based Retrieval
of Visual Information 149
Forouzan Golshani, Youngchoon Park, and Sethuraman Panchanathan

Soft Computing

Bipolarity in Possibilistic Logic and Fuzzy Rules 168
Didier Dubois and Henri Prade

PANEL SESSION

Data Management Challenges for GRID Computing 174
Keith G. Jeffery

CONTRIBUTED PAPERS

Hungarian Speech Synthesis Using a Phase Exact HNM Approach 181
Kornél Kovács, András Kocsor, and László Tóth

Modelling Resource Transitions in Constraint-Based Scheduling 186
Roman Barták

A Specification Framework for Real-Time Scheduling 195
K. Subramani

String Transformation for n -Dimensional Image Compression 208
Martin Kutrib and Jan-Thomas Löwe

Validation and Decomposition of Partially Occluded Images 218
Costas S. Iliopoulos and Manal Mohamed

Solving Conflicts of Agent Knowledge States in Multiagent Systems 231
Radosław Piotr Katarzyniak and Ngoc Thanh Nguyen

Specification and Verification of Secure Business Transaction Systems 240
Vangalur S. Alagar and Kasi Periyasamy

Agent-Oriented Model of Simulated Evolution 253
Marek Kisiel-Dorohinicki

The Reconstruction of Some 3D Convex Polyominoes
from Orthogonal Projections 262
Maciej Gębala

The Complexity of Probabilistic versus Quantum Finite Automata 273
Gatis Midrijānis

Do We Need Liveness? – Approximation of Liveness Properties
by Safety Properties 279
Ulrich Ultes-Nitsche

Author Index 289

SOFSEM 2002: Theory and Practice of Informatics
29th Conference on Current Trends in Theory and
Practice of Informatics, Milovy, Czech Republic,
November 22-29, 2002, Proceedings
Grosky, W.I.; Plasil, F. (Eds.)
2002, X, 294 p., Softcover
ISBN: 978-3-540-00145-4
