

Table of Contents

From a Formal User Model to Design Rules	1
<i>Paul Curzon, Ann Blandford</i>	
A Coloured Petri Net Formalisation for a UML-Based Notation Applied to Cooperative System Modelling	16
<i>José Luis Garrido, Miguel Gea</i>	
Adaptive User Interface for Mobile Devices	29
<i>Nikola Mitrović, Eduardo Mena</i>	
Migratable User Interface Descriptions in Component-Based Development	44
<i>Kris Luyten, Chris Vandervelpen, Karin Coninx</i>	
Task Modelling in Multiple Contexts of Use	59
<i>Nathalie Souchon, Quentin Limbourg, Jean Vanderdonckt</i>	
Notational Support for the Design of Augmented Reality Systems	74
<i>Emmanuel Dubois, Paulo Pinheiro da Silva, Philip Gray</i>	
Tool-Supported Interpreter-Based User Interface Architecture for Ubiquitous Computing	89
<i>Lars Braubach, Alexander Pokahr, Daniel Moldt, Andreas Bartelt, Winfried Lamersdorf</i>	
Combining Compound Conceptual User Interface Components with Modelling Patterns – A Promising Direction for Model-Based Cross-Platform User Interface Development	104
<i>Erik G. Nilsson</i>	
Multiple User Interfaces: Towards a Task-Driven and Patterns-Oriented Design Model	118
<i>Ahmed Seffah, Peter Forbrig</i>	
Foundations of Cognitive Support: Toward Abstract Patterns of Usefulness	133
<i>Andrew Walenstein</i>	
User Interface Design Patterns for Interactive Modeling in Demography and Biostatistics	148
<i>Sergiy Boyko, Peter Forbrig, Anatoli Yashin</i>	
User Interface Conceptual Patterns	159
<i>Pedro J. Molina, Santiago Meliá, Oscar Pastor</i>	

Monitoring Human Faces from Multi-view Image Sequences	173
<i>Nailja Luth</i>	
Improving Mouse Navigation – A Walk through the “Hilly Screen Landscape”	185
<i>David Ahlström, Martin Hitz, Gerhard Leitner</i>	
Designing User Interaction for Face Tracking Applications	196
<i>David Chatting, Jeremy Thorne</i>	
Performance Evaluation as a Tool for Quantitative Assessment of Complexity of Interactive Systems	208
<i>Xavier Lacaze, Philippe Palanque, David Navarre, Rémi Bastide</i>	
Blending Descriptive and Numeric Analysis in Human Reliability Design	223
<i>Shamus P. Smith, Michael D. Harrison</i>	
Towards a Ubiquitous Semantics of Interaction: Phenomenology, Scenarios, and Traces	238
<i>Alan Dix</i>	
Architecture Considerations for Interoperable Multi-modal Assistant Systems	253
<i>Thomas Heider, Thomas Kirste</i>	
Author Index	269

Interactive Systems: Design, Specification, and
Verification

9th International Workshop, DSV-IS 2002, Rostock
Germany, June 12-14, 2002

Urban, B.; Vanderdonckt, J.; Limbourg, Q. (Eds.)

2002, X, 274 p., Softcover

ISBN: 978-3-540-00266-6
