Failure Detection vs Group Membership in Fault-Tolerant Distributed Systems: Hidden Trade-Offs.....	1
<i>André Schiper</i>	
Probability and Timing: Challenges for Secure Programming.....	16
<i>David Sands</i>	

Selected Papers

Security Analysis of a Probabilistic Non-repudiation Protocol.....	17
<i>Alessandro Aldini and Roberto Gorrieri</i>	
The Mean Value of the Maximum.....	37
<i>Henrik Bohnenkamp and Boudewijn Haverkort</i>	
Reduction and Refinement Strategies for Probabilistic Analysis.....	57
<i>Pedro R. D'Argenio, Bertrand Jeannet, Henrik E. Jensen, and Kim G. Larsen</i>	
Action Refinement for Probabilistic Processes with True Concurrency Models.....	77
<i>Harald Fecher, Mila Majster-Cederbaum, and Jinzhao Wu</i>	
Probabilistic Unfoldings and Partial Order Fairness in Petri Nets.....	95
<i>Stefan Haar</i>	
Possibilistic and Probabilistic Abstraction-Based Model Checking.....	115
<i>Michael Huth</i>	
Out-of-Core Solution of Large Linear Systems of Equations Arising from Stochastic Modelling.....	135
<i>Marta Kwiatkowska and Rashid Mehmood</i>	
Model Checking CSL until Formulae with Random Time Bounds.....	152
<i>Marta Kwiatkowska, Gethin Norman, and António Pacheco</i>	
Probabilistic Model Checking of the IEEE 802.11 Wireless Local Area Network Protocol.....	169
<i>Marta Kwiatkowska, Gethin Norman, and Jeremy Sproston</i>	
Deriving Symbolic Representations from Stochastic Process Algebras.....	188
<i>Matthias Kuntz and Markus Siegle</i>
