Table of Contents

Multi-agent Systems

A Logic Programming Language for Multi-agent Systems 1
S. Costantini, A. Tocchio

A Proof-System for the Safe Execution of Tasks in Multi-agent Systems ... 14
A. Ciampolini, E. Lamma, P. Mello, P. Torroni

An Argumentation Framework for Merging Conflicting Knowledge Bases .. 27
L. Amgoud, S. Parsons

Multi-agent Logics of Dynamic Belief and Knowledge 38
R.A. Schmidt, D. Tishkovsky

Evolution and Changes

Evolving Logic Programs 50
J.J. Alferes, A. Brogi, J.A. Leite, L.M. Pereira

A Compilation of Updates plus Preferences 62
J.J. Alferes, P. Dell'Acqua, L.M. Pereira

Description Logic and Semantic Web

Towards Service Description Logic 74
P.A. Bonatti

P-$\mathcal{SHOQ}$(D): A Probabilistic Extension of $\mathcal{SHOQ}$(D)
for Probabilistic Ontologies in the Semantic Web 86
R. Giugno, T. Lukasiewicz

A Temporal Description Logic for Reasoning over Conceptual Schemas
and Queries 98
A. Artale, E. Franconi, F. Wolter, M. Zakharyaschev

Complexity Issues

Polynomial-Length Planning Spans the Polynomial Hierarchy 111
H. Turner

Complexity of Multi-agent Systems Behavior 125
M. Dekhtyar, A. Dikovsky, M. Valiev

Complexity and Algorithms for the Matching of Bag and Set Terms 137
G. Greco, E. Zumpano

Probabilistic Logic

Non-commutativity and Expressive Deductive Logic Databases 149
S. Krajči, R. Lencses, J. Medina, M. Ojeda-Aciego, A. Valverde, P. Vojtáš

Using Institutions for the Study of Qualitative and Quantitative Conditional Logics 161
C. Beierle, G. Kern-Isberner

Planning

Theoretical and Empirical Aspects of a Planner in a Multi-agent Environment 173
J. Dix, H. Munoz-Avila, D. Nau, L. Zhang

Answer Set Planning under Action Costs 186
T. Eiter, W. Faber, N. Leone, G. Pfeifer, A. Polleres

Modal Logic and Causal Reasoning

On Fibring Semantics for BDI Logics 198
G. Governatori, V. Padmanabhan, A. Sattar

A Modal Formulation of McCain and Turner's Theory of Causal Reasoning 211
G. White

Second-Order Quantifier Elimination in Modal Contexts 223
A. Szalas

Theory

Interpolation Theorem for Nonmonotonic Reasoning Systems 233
E. Amir

Minimal Answer Computation and SOL 245
K. Iwanuma, K. Inoue

Decidability of Interval Temporal Logics over Split-Frames via Granularity 259
A. Montanari, G. Sciavicco, N. Vitacolonna

Reasoning under Uncertainty

Uncertainty and Partial Non-uniform Assumptions in Parametric Deductive Databases 271
Y. Loyer, U. Straccia

A Qualitative Reasoning with Nuanced Information 283
M. El-Sayed, D. Pacholczyk

Satisfiability

Dependent and Independent Variables in Propositional Satisfiability 296
E. Giunchiglia, M. Maratea, A. Tacchella

A DPLL-Based Calculus for Ground Satisfiability Modulo Theories 308
C. Tinelli

Paraconsistent Reasoning

Paraconsistent Reasoning via Quantified Boolean Formulas, I:
Axiomatising Signed Systems 320
P. Besnard, T. Schaub, H. Tompits, S. Woltran

Three-Valued Logics for Inconsistency Handling 332
S. Konieczny, P. Marquis

Paraconsistent Logic Programs 345
J. Alcântara, C.V. Damásio, L.M. Pereira

Actions and Causation

Interpolation Properties of Action Logic:
Lazy-Formalization to the Frame Problem 357
D. Zhang, N. Foo

Reasoning about Actions in Prioritized Default Theory 369
T.C. Son, E. Pontelli

Towards a Conditional Logic of Actions and Causation 382
L. Giordano, C. Schwind

Logics for Agents

Axiomatising Nash-Consistent Coalition Logic 394
H.H. Hansen, M. Pauly

Representing Possibilities in Relation to Constraints and Agents 407
R.J. Wallace

An Abductive Logic Programming Architecture for Negotiating Agents . . . 419
F. Sadri, F. Toni, P. Torroni

Semantics

Preferred Answer Sets for Ordered Logic Programs 432
D. Van Nieuwenborgh, D. Vermeir

Implementing Ordered Disjunction Using Answer Set Solvers for Normal Programs 444
G. Brewka, I. Niemelä, T. Syrjänen

An Infinite-Valued Semantics for Logic Programs with Negation 456
P. Rondogiannis, W.W. Wadge

Optimization Issues in Answer Set Semantics

More on `noMoRe` 468
T. Linke, C. Anger, K. Konczak

Answer Set Programming by Ant Colony Optimization 481
P. Nicolas, F. Saubion, I. Stéphan

Testing the Equivalence of Logic Programs under Stable Model Semantics 493
T. Janhunen, E. Oikarinen

System Session

Argumentative Reasoning with ABEL 505
R. Haenni

COBA: A Consistency-Based Belief Revision System 509
J.P. Delgrande, A. Hunter, T. Schaub

Constraint Lingo: A Program for Solving Logic Puzzles and Other Tabular Constraint Problems 513
R. Finkel, V.W. Marek, M. Truszczyński

$\mathcal{LDL}$–$\mathcal{M}_{ine}$: Integrating Data Mining with Intelligent Query Answering . . . 517
F. Giannotti, G. Manco

`NoMoRe`: Non-monotonic Reasoning with Logic Programs 521
C. Anger, K. Konczak, T. Linke

Process Miner – A Tool for Mining Process Schemes from Event-Based Data 525
G. Schimm

SMILES: A Multi-purpose Learning System 529
V. Estruch, C. Ferri, J. Hernández, M.J. Ramírez

The *aspps* System 533
D. East, M. Truszczyński

The `DLV` System 537
N. Leone, G. Pfeifer, W. Faber, F. Calimeri, T. Dell'Armi, T. Eiter, G. Gottlob, G. Ianni, G. Ielpa, C. Koch, S. Perri, A. Polleres

The DLV$^{\mathcal{K}}$ Planning System: Progress Report 541
T. Eiter, W. Faber, N. Leone, G. Pfeifer, A. Polleres

Z-log: Applying System-Z 545
M. Minock, H. Kraus

Invited Talks

Hypergraph Transversal Computation and Related Problems in Logic and AI 549
T. Eiter, G. Gottlob

Alternation 565
M.Y. Vardi

The USA-Advisor: A Case Study in Answer Set Programming 566
M. Gelfond

Tutorials 569
