

Table of Contents

Modeling Paraconsistent Reasoning by Classical Logic	1
<i>Ofer Arieli and Marc Denecker</i>	
Implementing Term Algebra Syntactic Unification in Free Modules over Certain Rings	15
<i>R.N. Banerjee and A. Bujosa</i>	
Analytic Tableaux and Database Repairs: Foundations	32
<i>Leopoldo Bertossi and Camilla Schwind</i>	
Controlled Query Evaluation for Known Policies by Combining Lying and Refusal	49
<i>Joachim Biskup and Piero Bonatti</i>	
A Logical Framework for Integrating Inconsistent Information in Multiple Databases	67
<i>Sandra de Amo, Walter A. Carnielli, and João Marcos</i>	
Functional Dependencies in Presence of Errors	85
<i>János Demetrovics, Gyula O.H. Katona, and Dezső Miklós</i>	
A Context Model for Constructing Membership Functions of Fuzzy Concepts Based on Modal Logic	93
<i>V.N. Huynh, Y. Nakamori, T.B. Ho, and G. Resconi</i>	
The Principle of Conditional Preservation in Belief Revision	105
<i>Gabriele Kern-Isberner</i>	
Query Rewriting with Symmetric Constraints	130
<i>Christoph Koch</i>	
A Privacy-Enhanced Microaggregation Method	148
<i>Yingjiu Li, Sencun Zhu, Lingyu Wang, and Sushil Jajodia</i>	
Towards a Tailored Theory of Consistency Enforcement in Databases	160
<i>Sebastian Link</i>	
Improving Supervised Learning by Feature Decomposition	178
<i>Oded Maimon and Lior Rokach</i>	
Extremal Theorems for Databases	197
<i>Krisztián Tichler</i>	
Relational Databases and Homogeneity in Logics with Counting	212
<i>José María Turull Torres</i>	

Uniqueness of Update Strategies for Database Views 230
Stephen J. Hegner

Knowledge Representation in Extended Pawlak’s Information Systems:
Algebraic Aspects 250
Jānis Cīrulis

Minimal Sample Databases for Global Cardinality Constraints 268
Konrad Engel and Sven Hartmann

Author Index 289

Foundations of Information and Knowledge Systems
Second International Symposium, FoIKS 2002 Salza
Castle, Germany, February 20-23, 2002 Proceedings
Eiter, Th.; Schewe, K.-D. (Eds.)
2002, X, 294 p., Softcover
ISBN: 978-3-540-43220-3
