Invited Talk 1

Descriptions in Software Development	1
<i>Michael Jackson</i>	

Metamodelling

A Metamodel for the Unified Modeling Language	2
<i>Andrey Naumenko and Alain Wegmann</i>	
Metamodeling Mathematics: A Precise and Visual Framework for Describing Semantics Domains of UML Models	18
<i>Dániel Varró and András Pataricza</i>	
A Radical Reduction of UML's Core Semantics	34
<i>Friedrich Steimann and Thomas Kühne</i>	

Applying the UML

Configuration Knowledge Representation Using UML/OCL	49
<i>Alexander Felfernig, Gerhard Friedrich, Dietmar Jannach, and Markus Zanker</i>	
Using UML for Information Modeling in Industrial Systems with Multiple Hierarchies	63
<i>Peter Fröhlich, Zaijun Hu, and Manfred Schoelzke</i>	
Adapting the UML to Business Modelling's Needs – Experiences in Situational Method Engineering	73
<i>Andreas Dietzsch</i>	

Digging into the Metamodel

Analysis of UML Stereotypes within the UML Metamodel	84
<i>Martin Gogolla and Brian Henderson-Sellers</i>	
Stereotypical Encounters of the Third Kind	100
<i>Colin Atkinson, Thomas Kühne, and Brian Henderson-Sellers</i>	
Digging into Use Case Relationships	115
<i>Gonzalo Génova, Juan Llorens, and Víctor Quintana</i>	

Experience with MDA

Practical Experiences in the Application of MDA 128
Miguel de Miguel, Jean Jourdan, and Serge Salicki

Executable Design Models
for a Pervasive Healthcare Middleware System 140
Jens Bæk Jørgensen and Søren Christensen

Generating Code from UML with Velocity Templates 150
Thorsten Sturm, Jesco von Voss, and Marko Boger

Invited Talk 2

Does Your Software Creak as It Runs? 162
Bran Selic

Real-Time & Formal Semantics

Integrating the Synchronous Paradigm into UML:
Application to Control-Dominated Systems 163
Charles André, Marie-Agnès Peraldi-Frati, and Jean-Paul Rigault

A UML Profile for Real-Time Constraints with the OCL 179
Stephan Flake and Wolfgang Mueller

HOL-OCL: Experiences, Consequences and Design Choices 196
Achim D. Brucker and Burkhard Wolff

Model Engineering 1

Consistency-Preserving Model Evolution through Transformations 212
Gregor Engels, Reiko Heckel, Jochen M. Küster, and Luuk Groenewegen

Transformations and Software Modeling Languages:
Automating Transformations in UML 227
Jon Whittle

A Relational Approach to Defining Transformations in a Metamodel 243
David Akehurst and Stuart Kent

Profiles

On Customizing the UML
for Modeling Performance-Oriented Applications 259
Sabri Pllana and Thomas Fahringer

Modelling QoS: Towards a UML Profile	275
<i>Jan Øyvind Agedal and Earl F. Ecklund, Jr.</i>	
Extending the UML for Multidimensional Modeling	290
<i>Sergio Luján-Mora, Juan Trujillo, and Il-Yeol Song</i>	

Model Engineering 2

A Metamodel for Package Extension with Renaming	305
<i>Tony Clark, Andy Evans, and Stuart Kent</i>	
Applying MDA Concepts to Develop a Domain CORBA Facility for E-learning	321
<i>Luis Anido, Manuel Caeiro, Judith Rodríguez, and Juan Santos</i>	
Rapid Development of Modular Dynamic Web Sites Using UML	336
<i>Tim Schattkowsky and Marc Lohmann</i>	

Invited Talk 3

Software, Heal Thyself!	351
<i>David Garlan</i>	

Methodology

The Specification of UML Collaborations as Interaction Components	352
<i>Eric Cariou and Antoine Beugnard</i>	
Measuring OO Design Metrics from UML	368
<i>Mei-Huei Tang and Mei-Hwa Chen</i>	
The Cow_Suite Approach to Planning and Deriving Test Suites in UML Projects	383
<i>Francesca Basanieri, Antonia Bertolino, and Eda Marchetti</i>	

Diagram Interchange & Security

Diagram Interchange for UML	398
<i>Marko Boger, Mario Jeckle, Stefan Mueller, and Jens Fransson</i>	
UMLsec: Extending UML for Secure Systems Development	412
<i>Jan Jürjens</i>	
SecureUML: A UML-Based Modeling Language for Model-Driven Security	426
<i>Torsten Lodderstedt, David Basin, and Jürgen Doser</i>	

Workshops and Tutorials

Workshops and Tutorials at the UML 2002 Conference442
Jon Whittle
