Nonlinear Stability Problems in Simple Radar Range Trackers	1
<i>E. H. Abed, R. E. Gover, A. J. Goldberg, S. I. Wolk</i>	
1 Introduction	1
2 Nonlinear Radar Range Tracker Models	3
3 Deterministic Stability of the Radar Range Tracking System	5
4 Stochastic Stability of the Radar Range Tracking System	10
5 Directions for Further Research	14
References	16
 Asymptotic Properties and Associated Control Problems of Discrete-Time Singularly Perturbed Markov Chains	19
<i>G. Badowski, G. Yin, Q. Zhang</i>	
1 Introduction	19
2 Formulation	21
3 Asymptotic Properties	23
4 Optimal Control	29
5 Further Remarks	32
References	32
 Feedback Designs in Information-Based Control	35
<i>J. Baillieul</i>	
1 Introduction	35
2 Digital Control of LTI Systems With Uniform Sampling Rate—the Data Rate Bound in the Scalar Case	37
3 The Case of Higher Order and Multivariable Systems	43
4 The Concept of <i>Attention</i> and Binary Control of Multivariable Systems	46
5 Conclusion	56
References	57
 Ergodic Control Bellman Equation with Neumann Boundary Conditions	59
<i>Alain Bensoussan, Jens Frehse</i>	
1 Abstract	59
2 Preliminaries	61
3 Main Result	64
