## Invited Papers

---

|   |     |
|---|-----|
| <b>Multiscale Scientific Computation: Review 2001</b> . . . . .   | 3   |
| <i>Achi Brandt</i>  |     |
| <b>Wavelet-Based Numerical Homogenization with Applications</b> . | 97  |
| <i>Björn Engquist, Olof Runborg</i>                               |     |
| <b>Beamlets and Multiscale Image Analysis</b> . . . . .           | 149 |
| <i>David L. Donoho, Xiaoming Huo</i>                              |     |
| <b>Generalized FEM for Homogenization Problems</b> . . . . .      | 197 |
| <i>Christoph Schwab, Ana-Maria Matache</i>                        |     |
| <b>Nonlinear Multiscale Transforms</b> . . . . .                  | 239 |
| <i>Jean-Luc Starck</i>  |     |

---

## Contributed Papers

---

|   |     |
|---|-----|
| <b>Application of Harten's Framework for Multiresolution: From Conservation Laws to Image Compression</b> . . . . .                             | 281 |
| <i>Francesc Arandiga, Guillaume Chiavassa, Rosa Donat</i>   |     |
| <b>A Two Level Finite Element Technique for Pressure Recovery from the Stream Function Formulation of the Navier-Stokes Equations</b> . . . . . | 297 |
| <i>Faisal Fairag</i>  |     |
| <b>The Role of Multiresolution in Mining Massive Image Datasets</b> . . . . .   | 307 |
| <i>Imola K. Fodor and Chandrika Kamath</i>  |     |
| <b>Dynamic Subgrid Modeling for Scalar Convection-Diffusion-Reaction Equations with Fractal Coefficients</b> . . . . .                          | 319 |
| <i>Johan Hoffman</i>  |     |
| <b>Multilevel Methods for Inverse Bioelectric Field Problems</b> . . . .  | 331 |
| <i>Chris R. Johnson, Marcus Mohr, Ulrich Rüde, Alexei Samsonov, Kris Zyp</i>  |     |

|  |     |
|--|-----|
| <b>Multiscale Eigenbasis Calculations: <math>N</math> Eigenfunctions in <math>O(N \log N)</math></b> | 347 |
| <i>Oren E. Livne, Achi Brandt</i>  |     |
| <b>Wavelet Galerkin BEM on Unstructured Meshes by Aggregation</b>                                    | 359 |
| <i>Gregor Schmidlin, Christoph Schwab</i>  |     |

---

## Appendix

---

|                               |     |
|-------------------------------|-----|
| <b>Collected Color Plates</b> | 379 |
|-------------------------------|-----|

Multiscale and Multiresolution Methods

Theory and Applications

Barth, T.J.; Chan, T.; Haimes, R. (Eds.)

2002, X, 394 p. 96 illus., 11 illus. in color., Softcover

ISBN: 978-3-540-42420-8
