## Contents

<b>1</b>	<b>American Mangroves</b>	<b>1</b>
1.1	Origin, Palaeogeography, Diversification and Distribution of the New World Mangroves	1
1.1.1	Origin and Palaeogeography	1
1.1.2	Mangrove Diversification in the Gulf-Caribbean Region	5
1.1.3	Modern Distribution of New World Mangrove Forests	5
1.1.4	Extension of Mangroves on the American Continent	6
1.2	Flora Composition and Distribution	11
1.2.1	True Mangrove Trees	12
1.2.2	Associated Flora	17
1.3	Mangrove Fauna	20
1.3.1	Introduction	20
1.3.2	Crabs	21
1.3.3	Mollusks	23
1.3.4	Fish	24
1.3.5	Insects	25
1.3.6	Birds	25
1.3.7	Reptiles	27
1.3.8	Mammals	27
1.3.9	Mangrove-Root Epibiontic Community	28
1.3.10	The Sediment Fauna	29
1.3.11	Mangroves and Fisheries	30
1.4	Mangrove Forest Structure and Development	31
1.4.1	Physiognomy of Mangrove Forests	31
1.4.2	Primary Production, Biomass Distribution and Allocation	35
1.5	The Physical Environment	37
1.5.1	Mangrove Soils	37
1.5.2	Hydrology	39
1.6	Environmental Impacts on Mangrove Ecosystems	41
1.6.1	Natural Impacts	41
1.6.2	Human Impacts	45
1.7	Mangrove Uses	52
1.8	Mangrove Management in the Neotropics	54
1.8.1	Mangroves and Man in Pre-Columbian and Colonial America	54
1.8.2	Management and Conservation of Mangrove Areas	58
1.9	Concluding Remarks	61

<b>2</b>	<b>Mangroves of Africa</b>	63
2.1	Introduction	63
2.2	Extent and Distribution of Mangroves	66
2.2.1	West Africa	66
2.2.2	East Africa	72
2.3	Physical Environment	77
2.3.1	West Africa	77
2.3.2	East Africa	83
2.4	Mangrove Vegetation	86
2.4.1	Flora Composition and Distribution (Mangrove and Associated Plants)	86
2.4.2	Mangrove Zonation	88
2.4.3	Productivity	90
2.4.4	Ecophysiology	93
2.5	Mangrove Associated Fauna	97
2.5.1	Invertebrates	97
2.5.2	Vertebrates	99
2.6	Uses of Mangroves	100
2.6.1	West Africa	100
2.6.2	East Africa	103
2.7	Natural Threats to Mangrove Ecosystems	107
2.7.1	West Africa	107
2.7.2	East Africa	108
2.8	Human Threats to Mangrove Ecosystems	109
2.8.1	West Africa	109
2.8.2	East Africa	109
2.9	Management of Mangroves: Restoration and Rehabilitation	112
2.9.1	West Africa	112
2.9.2	East Africa	115
2.10	Conclusion	118
	Dedication	120
<b>3</b>	<b>Indo-West Pacific Mangroves</b>	123
3.1	Introduction	123
3.2	The Mangrove Ecosystem: a Unique, Marginal and Fragile System	125
3.3	Arid Coastal Systems, Including Coastal Lagoons	129
3.4	Estuarine and Deltaic Mangrove Ecosystems	135
3.4.1	Mangroves of Bangladesh Sundarbans and Accretion Areas	142
3.4.2	South and Southeast Asia River Deltas	157
3.4.3	Mangroves of the Irrawaddy and Mekong River Deltas	158
3.5	Small Deltas and Coastal Mangrove Ecosystems	161
3.6	Oceanic Islands	174
3.6.1	Socotra	175
3.6.2	Seychelles	175
3.6.3	The Republic of Maldives	175
3.6.4	Mangroves from Other West Pacific Islands	185
3.6.5	Small Ocean Islands of the West Pacific	189
3.7	Systems Dominated by Socio-Economic Factors. Management and Phenology	195

3.8	Concluding Remarks .....	211
	Acknowledgements .....	215
<b>4</b>	<b>Mangrove Phenologies and the Factors Influencing Them in the Australasian Region .....</b>	<b>217</b>
4.1	Introduction .....	217
4.2	Definitions .....	218
4.3	Factors Affecting Mangrove Phenologies .....	218
4.3.1	Seasonal Annual Cycles and Species Differences .....	218
4.4	The Influence of Floral Phenologies on Genetic Variation .....	222
4.5	Year to Year Differences in Floral Development .....	224
4.6	Latitudinal Influences on Floral and Leafing Phenologies .....	226
4.6.1	“Continuous” Flowering in Equatorial Sites .....	227
4.7	Links between Floral and Leafing Phenologies in <i>Avicennia marina</i> .....	228
4.8	Predicting Floral Phenologies .....	229
4.8.1	Predictions Based on Observed Patterns in <i>Avicennia marina</i> .....	229
4.8.2	Using the Equation Model to Predict Floral Phenologies of <i>Avicennia marina</i> .....	230
4.8.3	Testing the Model in a Special Case – a Near Equatorial Site at Singapore .....	231
4.9	Conclusions .....	233
<b>5</b>	<b>Integrated and Adaptive Mangrove Management Framework – an Action Oriented Option for the New Millennium .....</b>	<b>235</b>
5.1	Introduction .....	235
5.2	Causes of Destruction and Wetland Loss .....	237
5.2.1	Property Rights – Use and Ownership Rights .....	237
5.2.2	Property Rights and Mangrove Ecosystems .....	238
5.2.3	Government Failures and Management Rights .....	239
5.3	Diversity in the Mangrove System – Spatial-Temporal Variation in Wetlands ..	241
5.4	National Mangrove Policies, Strategies and Plans .....	242
5.5	Economic Valuation .....	245
5.6	Uncertainty about Spatial-Temporal Interconnectedness .....	247
5.7	Land Use Zoning .....	248
5.8	Community Participation .....	249
5.9	Integrated Adaptive Mangrove Management Framework (IAMMF) .....	250
5.9.1	Reflective Stage .....	251
5.9.2	Policy Options Stage .....	252
5.9.3	Action Management and Management Instrument .....	254
5.10	Application of the Three-Tiered Process .....	255
5.11	Conclusions .....	255
	<b>References .....</b>	<b>257</b>
	<b>Subject Index .....</b>	<b>281</b>
	<b>Taxonomic Index .....</b>	<b>287</b>
