

Table of Contents

<i>Computing with Words</i>	1
A new direction in AI: Toward a computational theory of perceptions	3
L.A. Zadeh	
Combining fuzzy and case-based reasoning to generate human-like music performances	21
J.L. Arcos, R. López de Mántaras	
A fuzzy-rough approach to the representation of linguistic hedges	33
M. De Cock, A.M. Radzikowska, E.E. Kerre	
Dealing with imprecise inputs in a fuzzy rule-based system using an implication-based rule model	43
L. Godo, S. Sandri	
Constructing rough mereological granules of classifying rules and classifying algorithms	57
L. Polkowski, A. Skowron	
Criticality in the network with imprecise activity times	71
S. Chanas, P. Zielinski	
Object-oriented implementation of a model for fuzzy temporal reasoning ...	85
S. Ribarić, B. Dalbelo-Bašić, D. Tomac	
A symbolic approach to syllogistic reasoning	99
M.Y. Khayata, D. Pacholczyk	
On algebraic foundations of information granulation	113
H. Thiele	
<i>Decision and Preferences</i>	127
On the issue of consistency in dynamical consensual aggregation	129
M. Fedrizzi, M. Fedrizzi, R.A. Marques Pereira	
A group decision support system based on linguistic multicriteria assessments	139
J. Kacprzyk, S. Zadrozny	

Integral representations and decision theory	153
Y. Narukawa, T. Murofushi, M. Sugeno	
Can qualitative utility criteria obey the sure thing principle?	167
H. Fargier, R. Sabbadin	
Pseudo-additive measures and the independence of events	179
D. Dubois, E. Pap, H. Prade	
On discrete preference structures	193
B. De Baets, J. Fodor	
Families of valued sets as media	205
A. Dukhovny, S. Ovchinnikov	
A general framework for ordering fuzzy sets.....	213
U. Bodenhofer	
<i>Learning, Classification and Clustering</i>	225
Pattern extraction method for text classification	227
H.S. Nguyen, H. Wang	
A comparison of rough set strategies for pre-term birth data.....	239
J.W. Grzymala-Busse, L.K. Goodwin, W.J. Grzymala-Busse, X. Zheng	
Toward the intelligent control of hierarchical clustering.....	253
R.R. Yager	
Combining both a fuzzy inductive learning and a fuzzy repertory grid method	267
J.L. Castro, J.J. Castro-Schez, J.M. Zurita	
An approach to computational microtexture perceptual detection with management of uncertainty	281
E. Montseny, P. Sobrevilla	
Bagging improves uncertainty representation in evidential pattern classification	295
J. François, Y. Grandvalet, T. Denoeux, J.M. Roger	
Non-Euclidean genetic FCM clustering algorithm	309
S. López, L. Magdalena, J.R. Velasco	

Different approaches to induce cooperation in fuzzy linguistic models under the COR methodology	321
J. Casillas, O. Cordón, F. Herrera	
<i>Retrieval of Information</i>	335
Evaluation of flexible queries: The quantified statement case	337
P. Bosc, L. Liétard, O. Pivert	
Intelligent filtering with genetic algorithms and fuzzy logic	351
M.J. Martín-Bautista, M.A. Vila, D. Sánchez, H.L. Larsen	
Using semantic and phonetic term similarity for spoken document retrieval and spoken query processing.....	363
F. Crestani	
Knowledge-based extrapolation of cases: A possibilistic approach	377
E. Hüllermeier, D. Dubois, H. Prade	
A methodology to improve object oriented database systems with fuzzy types.....	391
N. Marín, O. Pons, I.J. Blanco, M.A. Vila	

Technologies for Constructing Intelligent Systems 1
Tasks

Bouchon-Meunier, B.; Gutierrez-Rios, J.; Magdalena, L.;
Yager, R.R. (Eds.)

2002, IX, 404 p., Hardcover

ISBN: 978-3-7908-1454-5

A product of Physica-Verlag Heidelberg
