

# Contents

Foreword <i>B. Braunschweig</i>	VII
Preface <i>P.M. Wong, F. Aminzadeh and M. Nikraves</i>	XI
Intelligent Reservoir Characterization <i>P.M. Wong, F. Aminzadeh and M. Nikraves</i>	3
<b>Part 1. Seismic Characterization</b>	
Prediction of Reservoir Properties by Monte Carlo Simulation and Artificial Neural Network in the Exploration Stage <i>K. Nakayama and J. Hou</i>	15
Application of Neural Networks in Determining Petrophysical Properties from Seismic Survey <i>B. Widarsono, S. Munadi and F. Saptono</i>	35
Mapping the Gas Column in an Aquifer Gas Storage with Neural Network Techniques <i>H. Trappe, C. Hellmich, J. Knudsen and H. Baartman</i>	57
Interval and Fuzzy Kriging Techniques Applied to Geological and Geophysical Variables <i>A. Consonni, R. Iantosca and P. Ruffo</i>	73
Application of Self-Organizing Feature Maps to Reservoir Characterization <i>C.A. Link and J. Conaway</i>	105
<b>Part 2. Well Logging</b>	
Taking One Step Forward in Reservoir Characterization Using Artificial Neural Networks <i>S. Mohaghegh</i>	129
Inverting SP Logs Using Artificial Neural Networks and the Application in Reservoir Characterization <i>R. Ramberger and J. Skolnakorn</i>	161

Predicting Petrophysical Parameters in a Fuzzy Environment <i>J. Finol and X.D. Jing</i>	183
The Application of Fuzzy Logic and Genetic Algorithms to Reservoir Characterization and Modeling <i>S.J. Cuddy and P.W.J. Glover</i>	219
The Use of Soft Computing Techniques as Data Preprocessing and Postprocessing in Permeability Determination from Well Log Data <i>K.W. Wong, T.D. Gedeon and C.C. Fung</i>	243
A New Technique to Estimate the Hydrocarbon Saturation in Shaly Formations: A Field Example in the Bahariya Formation, Egypt <i>A.M. Dawood, A.A. Ibrahim and S. A. El-Tayeb</i>	273
 <b>Part 3. Numerical Geology</b>	
Automated Reconstruction of a Basin Thermal History with Integrated Paleothermometry and Genetic Algorithm <i>C.-S. Kim</i>	313
An Automatic Geophysical Inversion Procedure Using a Genetic Algorithm <i>F. Mansanné and M. Schoenauer</i>	331
Statistical Pattern Recognition and Geostatistical Data Integration <i>J. Caers and S. Srinivasan</i>	355
How to Improve Reservoir Characterization Models Using Intelligent Systems <i>R. Soto B., F. Torres, A. Arango, G. Cobaleda, S. Holditch and C. Wu</i>	387
Regional Upscaling: A New Method to Upscale Heterogeneous Reservoirs for a Range of Force Regimes <i>C. Coll, A. Muggeridge and X.D. Jing</i>	419
 <b>Part 4. Advanced Algorithms</b>	
New Uncertainty Measures for Predicted Geological Properties from Seismic Attribute Calibration <i>C.-S. Kim</i>	465
Rule Induction Algorithm for Application to Geological and Petrophysical Data <i>C.V. Deutsch, Y.L. Xie and A.S. Cullick</i>	481

Joint Lithologic Inversion	511
<i>L.-Y. Fu</i>	
Support Vector Machines for Classification and Mapping of Reservoir Data	531
<i>M. Kanevski, A. Pozdnukhov, S. Canu, M. Maignan, P.M. Wong and S.A.R. Shibli</i>	
Non-parametric Covariance Modeling Using Fast Fourier Transform	559
<i>T.-T. Yao</i>	
About the Editors	587
