

INDEX

A

altruism, 86–93
 and cooperation, 93–98
 and internal reasons, 90–92
 and noncompliance in a prisoners' dilemma, 96
 and noncompliance in a symmetric chicken game, 98
 and noncompliance in an asymmetric prisoners' dilemma, 96
 and second-order reasons, 92–93
 and the argument from introspection, 99
 and the efficiency objection, 99
 and transfers rate, 87
 and utilitarianism, 97–98
 as a cooperative virtue, 99–102
 as an independent reason, 102
 indifferent altruism, 95
 insufficient altruism, 94
 reciprocal altruism, 195–99
 reciprocal altruism and mimicry, 198–99
 reciprocal altruism and the repeated prisoners' dilemma, 196–97
 reciprocal altruism and the one-shot prisoners' dilemma, 197–98
 sacrificing altruism, 90
 soft altruism, 189
 sympathetic altruism, 89–90
asymmetry
 in equilibria, 22
 in strategies, 21, 34, 36
autonomous effects. *See* strategic intentions

C

chicken game, 31
 division game, 34
 war of attrition, 33
cobweb cycle, 27
collective action. *See* goods
commitment, 257
 and changing preferences, 245–46
 and emotions, 199
 and evolution, 199–205
 and the indeterminacy problem, 257
 external, 179
 internal, 179–81
compliance, 1
contractarianism, 10
conventionalism
 conformity, 10
 definition of, 9–10
 reductionism, 9
 scope of, 11–16
 spontaneous order, 11
conventions
 definition of, 24
 of coordination, 24
 of property, 30–35
 of reciprocity, 35–40, 35–40
cooperation
 unconditional, 123
cooperative virtues, 4
 and benefit, 176
 and justice, 151
 and restraint, 161
 evolutionary justification, 214–15
 fairness, 4
 rationality of, 263
 trust, 4
coordination, 24

impure, 20
in the crossroads game, 19

D

deviance
 and mistakes, 52–53
 and weakness of will, 53–54
 dilemma of rational deviance, 52
 rational deviance, 55

dynamic choice, 218
 and changing preferences, 245–46
 and consequentialism, 236–37
 and dynamic consistency, 231–33
 and feasibility, 230–31
 and normal/extensive form
 coincidence, 229–31
 and pragmatic arguments, 234–35
 and separability, 231–33
 dynamic consistency, 220
 incompatibility of conditions of
 dynamic choice, 222–25
 minimax regret chooser, 222
 myopia, 243
 normal-form/extensive-form
 coincidence, 219
 rejection of separability, 237–39
 resoluteness, 243
 separability, 220
 separability and personal identity,
 239–43
 simple reductionism, 219
 sophistication, 243

dynamic consistency (DC). *See* dynamic choice

E

epigenetic rules, 187–88

evolution
 and kin-selection, 192–94
 and reliability in the commitment
 model, 208–11
 and reputation in the commitment
 model, 211–13
 and signals, 214
 and the commitment model, 199–205
 and the unit of selection, 185–87
 as an indirect justification, 182
 conditions of, 183–85
 definition of, 183

fitness, 183, 185

group selection, 189–91

inclusive fitness, 192

kin-selection and recognition, 193–94

of reliable signals, 208–11

reciprocal altruism, 195–99

reciprocal altruism and mimicry,
 198–99

reciprocal altruism and the repeated
 prisoners' dilemma, 196–97

reciprocal altruism and the one-shot
 prisoners' dilemma, 197–98

Robert Frank on the evolution of
 cooperation, 199

signals and the commitment model,
 206–8

the commitment model as an
 evolutionary model, 213

evolutionary stable strategy (ESS), 22–24

exploitation
 and conventions, 149
 and free riding, 149
 and parasitism, 149
 and reciprocity, 152–53
 characterization, 146–48
 definition of, 147
 non-exploitation as a cooperative
 virtue, 150–51
 of trust, 148

F

free riding
 definition of, 145

G

goods
 collective, 13
 externalities, 14
 impossibility of exclusion, 12
 jointness of supply, 12
 public, 12

I

intentions
 and cooperative virtues, 253–55
 as plans, 249–53
 strategic, 249, 259–63
 the toxin puzzle, 259–60

interdependence, 11, 12, 16

K

kantianism

- and hypothetical consequences, 119
- and ideal rule-utilitarianism, 107–10
- and risk-aversion, 114
- and the argument from efficiency, 119
- and the argument from introspection, 119
- and universalization, 114–18
- as a cooperative virtue, 119–21
- as a rule of recognition, 106
- as an independent reason, 119
- everyday kantianism, 106–12

L

learning by experience, 25–30

N

normal/extensive form coincidence (NEC). *See* dynamic choice

norms, 1

- and coordination, 24
- and deviation, 17
- and learning, 17
- and recognition of deviant behavior, 17
- and regularity in behavior, 17
- and sanctions, 17, 56–65
- characteristics of social norms, 5, 16–18
- individual, 1
- of property, 30–35
- of reciprocity, 35–40
- private, 11, 28
- social, 1

P

parametric fallacy, 26

parasiting

- definition of, 146

plan

- conditions of admissibility, 218–22
- definition, 218

prisoner's dilemma

- and assurance, 266

- and temptation, 266
- prisoners' dilemma, 3–4, 35–40
 - and assurance, 256
 - and temptation, 256
- sequential, 257
- synchronous, 266
- property, 30

R

rationality

- and the redescription of outcomes, 226–28
- as consistency, 226
- defending simple reductionism, 228
- instrumental, 2
- justification of a theory of rationality, 270–71
- promisekeeping and the revised theory of rationality, 268–69

reasons

- distinction between outcome-oriented and process oriented reasons, 103
- internal, 91
- outcome oriented, 102
- process-oriented, 106

reciprocity

- and cooperation, 130–31
- and exploitation, 152–53
- and fairness, 126, 153
- and public goods, 131–34
- and rule of recognition, 126
- and trust, 137–40
- as a cooperative virtue, 134
- characterization of, 35–40
- principle of, 127–30

resentment, 5, 65–67

- and indignation, 69
- and moral force, 73
- and regard-seeking, 143–45
- as a secondary mechanism, 145
- characteristics of, 68
- mechanism of, 65

rules. *See* norms

S

salience, 40–44

- and confidence, 47
- and precedence, 42
- and simplicity, 43

conventionalist theory of, 49–50
 in payoffs, 44–48
 nature of, 48–51
 psychological theory of, 48–49
 sanctions
 and compliance, 5
 selection. *See* reciprocal altruism
 group, 6
 kin, 6
 separability (SEP). *See* dynamic choice
 simple reductionism (SR). *See* dynamic
 choice

T

tit-for-tat, 37–38
 with mistakes, 38–39
 toxin puzzle, 259–60
 Kavka on the toxin puzzle, 260–62
 trust
 and communication, 141
 and prediction, 135
 and reciprocity, 137–40
 and regard-seeking, 143–45
 and reliability, 135

and vulnerability, 135
 as a default assumption, 137
 characterization of, 134–37
 definition of, 137
 trustworthiness
 as a backward-looking reason, 137
 as a default mechanism, 140
 definition of, 137

V

virtues
 and benefit, 177–79
 and moral sense, 168
 and restraint, 165–66
 and second-order reasons, 162
 and spontaneity, 161
 and sympathy, 169
 Aristotle on the virtues, 160–62
 artificial virtues, 169
 as correctives, 172
 Foot on the virtues, 170–75
 Hume on the virtues, 166–70
 Kant on the virtues, 162–166
 natural virtues, 169
