

INDEX

*-satisfiable, 235

Anselm, ontological argument, 244

answer, 116

apartness relation, 63

argumentation form, 115

Aristotle, on predication, 209, 226,
250

attack, 116

automated theorem proving, 225

bar, 25

Barba, on supervaluation and modal-
ity, 233

Beeson, M., 7

Behmann, 48

being while lacking existence, 207

Bencivenga, on story semantics,
224

Bencivenga, on super valuation,
230

Beth model, 29

Beth, E. W., 22

bivalence, 220

Boolean algebra, 38

Brouwer, L. E. J., 2, 95

Brouwer, on partial functions, 208

Burge, on descriptions, 217

Burge, on fictional entitites, 215

Burge, on predication, 226

C-dialogues, 139

cancellation, 245

characterization, 251

choice sequences, 87

Church's Thesis, 51, 81

CL, 202

class abstracts, 217

classical description theory, 239

classical existence assumptions, 202

classical logic (CL), 202

classification, 251

closure under rules, 70

combinatory logic, 18

communication, 2

compactness, 229

complex predicate, 209, 245

complex predicate, and extension-
ality, 251

complex quantifiers, 279, 307, 313

comprehension axiom, 217

comprehensive quantifier, 207, 244,
252

conditional reading of free variables,
200

constant domain axiom, 35

constructible falsity, 288

contingent *a priori* truths, 208

continuum, 100

convention, 222, 230

creating subject, 97

Curry, H., 21

Curry-Howard isomorphism, 19,
22

D-dialogue, 118

Dalen, D. van, 25, 61, 63, 100

De Morgan's Law, 35

definability paradoxes, 87

defining axiom, 252

definite description(s), 278, 279,
294

definite descriptions(s), 264

definitions, 238, 251

degree-of-definedness, 268, 270

dense linear ordering, 65

- descriptions, 237
