

Index

- Abandoned river channels, 162
- Ablation, 27, 31, 147, 215
- Above low, low tide (ALLT), 206, 207, 210, 212, 222, 224-227, 229-231, 233
- Abrasion, 145, 147, 174, 187, 192, 198
- Abrasion platforms, 174
- Aeolian, 3, 10, 64, 73, 77, 79, 81, 84, 141, 143, 152, 153, 156-158
- Aeolian deposits, 79, 81
- Aggradation, 73, 77-79, 81, 82, 84, 87, 93, 94, 99, 101, 102, 104, 106, 108, 110-112, 114, 157
- Aggradational sequences, 64
- Alaska, 43, 56, 57, 61, 103, 105, 117, 122, 139, 142, 145, 157, 160-162, 184, 185
- Albedo, 168, 173, 184, 222
- ALLT, *see* Above low, low tide
- Alluvial fan, 80
- Anemone Tealia sp, 206, 231, 233
- Antarctica, 142, 157
- Anthropogenic effects, 206, 231, 232
- Apex River, 217, 219
- Aquaclude, 182, 184
- Arctic deltas, 159, 160, 172
- Argentina, 142
- Attrition, 187
- Avalanche boulder tongues, 6
- Baffin Island, 132, 158, 207, 233-235
- Balanus balanoides, 207, 230
- Ballycatter, 218
- Bank collapse, 94, 112, 160
- Barnacles, 192
- Barriers, 63-65, 68, 70, 77, 78, 80-83, 86-88, 145
- Barrow, Alaska, 161
- Basal debris load, 16, 36
- Beach, 117, 145, 153, 155, 156, 158, 192, 206, 210, 217, 227, 230, 233
- Beaufort Sea, 145, 148, 149, 151, 161, 173, 184, 185
- Bedrock, 31, 35, 43, 43, 55, 58, 65, 73, 77, 79, 82, 83, 88, 104, 130, 136, 137, 146-148, 208, 229
- Bifurcations, 161
- Bio-erosion, 187-189, 197, 202
- Biokarst, 187, 203
- Biological zonation, 206-208, 212, 215, 229, 233
- Boreal, 2, 5, 138
- Bottom-fast ice, 160
- Bottomfast, 170, 172

- Boudinage, 22
Boulder pavements, 81, 150, 226, 227, 229, 232, 233
Boulder ridges, 224, 226, 227, 229, 232
Boulders, 35, 71, 73, 77, 79, 81 148, 150-152, 157, 192, 206, 208, 212, 219, 222, 226, 227, 229, 232-234
Bouldery flat, 227, 229
Brandung, 73
Breakup, 148, 149, 158, 160-163, 168-170, 172-174, 176, 180, 185 206, 207, 215, 218-220, 222, 226, 227, 229, 230, 232-234
Breakup flooding, 160, 162, 168, 170, 173, 180
British Columbia, 10, 88, 93, 94, 101, 102, 105, 106, 108-110, 112, 115, 117, 118, 142, 234
Brooks Range, 160, 161
Candles, 172
Carbonate, 59, 187, 189, 202, 204
Carolinian forest, 153
Caves, 145
Chile, 142
Chlorophyceae, 229
Circular eddies, 172
Cirque glaciers, 14, 15
Cirques, 6, 8, 36, 58
Cliffed shorelines, 227
Cliffs, 9, 73, 141, 145, 157
Climate change, 9, 44, 45, 60, 64, 65, 83, 84, 118, 138, 139, 145, 232
Climate warming, 136, 138, 232
Climatic sensitivity, 122
Coastal dunes, 141, 143, 152, 153
Coastal karsts, 186, 189, 190, 202
Coastal or littoral karren, 187
Coastal karst model, 186
Coastal profile, 194
Cold regions shorelines, 141, 144, 145, 152
Cold coastal, 2, 7, 141, 142, 145, 152, 153
Cold coastal dunes, 141, 152
Cold coasts, 142-145, 149, 157
Cold regions coasts, 141, 142
Cold coasts, 5
Colville River, 160, 161, 166, 167, 180, 182-185
Complete freeze over, 219
Conductive, 126
Constructional landforms, 10, 12, 27, 77-79, 85
Continuous/discontinuous transition, 137
Continuous permafrost, 122, 123, 132, 133, 137, 138, 160, 161, 167
Convective, 126

- Corrosion or water-layer weathering, 187
- Craters, 219, 222
- Crescentic sand waves, 217
- Current velocities, 213, 215, 229, 232
- Currents, 5, 145, 148, 149, 151, 206, 212, 215, 223, 226, 232, 233
- Cyrtodaria kurriana, 229-231
- Debris content of the ice cover, 141, 151
- Debuitressing, 87
- Deflationary features, 81
- Degree-day index, 132
- Deltas, 5, 77, 79, 85, 159-161, 172, 207
- Denivation forms, 141, 145, 152, 157
- Dense peat, 180
- Denudation, 187, 191, 192, 198, 199, 202
- Deposit feeders, 231
- Deposition, 12, 28, 31, 33-35, 39, 41, 44, 48, 59, 75, 77-79, 81, 86, 106, 149, 152, 157, 161, 170, 175, 193, 198, 226, 232, 234
- Diamicton, 12, 21-23, 26, 30-32, 36, 40
- Diffuse geographical transition, 137
- Discontinuous permafrost, 123, 124, 132-134, 136-138, 143
- Dissolution of soluble components, 187
- Dissolutional potholes, 191
- Distributaries, 77, 159, 161, 162, 167, 168, 170, 175, 184
- Distributary banks, 162
- Diversity, 7, 86, 206, 231-233, 235
- Diversity and evenness, 206, 231
- Drainage loci, 172
- Drumlins, 6, 41, 43
- Dump sites, 206, 231
- Dunes, 8, 79, 81, 141, 143, 145, 152, 153, 155, 157, 159, 160, 162, 165, 168, 169, 174, 182
- Eastern Foxe Basin, 150
- Eastern Hudson Bay, 152
- Ebb tides, 212, 215
- Ebb velocities, 212
- Ebb tidal currents, 215
- El Niño, 44
- Embayments, 145, 148, 227
- Emerging shorelines, 151
- Englacial channels, 19
- Ephemeral, 40, 164, 184
- Epigenetic gorges, 83
- Equilibrium, 9, 46, 99, 127, 135, 186, 187, 200
- Erratics, 89, 170
- Eskers, 6

- Eu-littoral, 187, 202
- Europe, 43, 142, 156, 207
- Eustatic sea level rise, 189, 207
- Fan terrace, 79, 82
- Fetch length, 219
- Filter feeders, 231
- Fines flat, 227
- Fining shoreward sequences, 207
- Floating ice, 5, 152, 156, 160, 170
- Fluted terrain, 35
- Foliation-parallel ridges, 12, 27, 30-32, 35, 36, 40
- Fort Vermillion, 135
- Fort Reliance, 132
- Fort McMurray, 135
- Frobisher Bay, 158, 207, 208, 215, 222, 227, 229, 231, 233, 234
