Foreword .....	xiii
About the Author .....	xvi
About the Technical Reviewers .....	xvii
Acknowledgments .....	xix
Introduction .....	xxi
What's in This Book .....	xxi
Who Is the Audience for This Book? .....	xxvi
What You Need .....	xxvii
Equipment Used .....	xxvii
Conventions Used in This Book .....	xxx
Icons .....	xxxi
Part One     An Overview of Section 508 Accessibility.....	1
Chapter 1     What Is Section 508 Accessibility? .....	3
What Is Section 508? .....	4
What Is Accessibility for Everyone? .....	5
Ranges of Abilities .....	8
The Concept of "Universal Design" .....	9
Does Section 508 Apply to You? .....	10
An Overview of the Section 508 Standard .....	14
Understanding the Concept of Undue Burden .....	36
Section 508 Quick Reference for This Book .....	37
Summary .....	40

<b>Chapter 2</b>	<b>Understanding the Section 508 Requirements</b>	<b>41</b>
	Usability Requirements	42
	Performance Requirements	45
	Understanding User Needs	53
	Other User Needs to Consider	64
	Typical Developer Questions About Section 508	68
	Summary	74
<b>Chapter 3</b>	<b>Hardware, Resources, and Training</b>	<b>75</b>
	An Overview of Development Issues	76
	Alternative Input Devices	80
	Biometric Device Issues	83
	Locating Section 508 Information	87
	Obtaining Section 508 Developer Resources	91
	Locating Section 508-Specific Training	94
	Developing for the Human Input Device (HID) Example	95
	Summary	105
<b>Part Two</b>	<b>Writing Accessible Desktop Applications</b>	<b>145</b>
<b>Chapter 4</b>	<b>Developer Guidelines That Make Sense</b>	<b>107</b>
	Evaluating Your Audience	108
	Categorizing the Required Changes	111
	Application Features You Can't Implement	113
	Including Accessibility as a Design Issue	115
	Understanding the Reconfigured System	118
	An Overview of Usage Cue Options	126
	Application Help and Support Issues	128
	Building the Color Blindness Simulator Example	131
	Summary	143
<b>Chapter 5</b>	<b>Desktop Application Essentials</b>	<b>147</b>
	Using Automated Testing Techniques	149
	Understanding the Effects of File Format on Application Output	160
	Tracking the Screen Focus	167

<i>Using Consistent Controls, Status Indicators, and Other Elements</i> .....	171
<i>Obtaining and Using the Current Display Settings Example</i> .....	174
<i>Working with Colors and Fonts in Controls and UI Elements Example</i> .....	178
<i>Summary</i> .....	182

## **Chapter 6 Using Microsoft Active Accessibility** .....

<i>What Is Microsoft Active Accessibility (MSAA)?</i> .....	184
<i>An Overview of the Standard Accessibility Options</i> .....	192
<i>Using the Keyboard Features Example</i> .....	209
<i>Using the Sound Features Example</i> .....	223
<i>Using the Display Features Example</i> .....	232
<i>Using the Mouse Features Example</i> .....	233
<i>Summary</i> .....	236

## **Chapter 7 Adding Usage Cues to Desktop Applications** .....

<i>Exposing the Screen Focus</i> .....	238
<i>Implementing Consistent Controls, Status Indicators, and Other Elements</i> .....	254
<i>Adding Context Sensitive Help</i> .....	254
<i>Obtaining and Using Microsoft Active Accessibility</i> .....	258
<i>Using the .NET Accessibility Features</i> .....	269
<i>Summary</i> .....	270

## **Chapter 8 Developing Special Desktop Application Capabilities** .....

<i>An Overview of Special Desktop Application Capabilities</i> .....	274
<i>Using Microsoft Agent on the Desktop Example</i> .....	286
<i>Using Microsoft .NET Speech SDK on the Desktop</i> .....	294
<i>Using IBM ViaVoice Technology</i> .....	295
<i>Using Existing Technologies in Alternative Ways</i> .....	297
<i>Addressing Animation and Animation Alternatives</i> .....	300
<i>Creating an Accessible Desktop Application Checklist</i> .....	300
<i>Summary</i> .....	304

Part Three Writing Accessible Web Applications.....	307
<b>Chapter 9 Web Site Essentials .....</b>	<b>309</b>
<i>Considering the Effects of Download Time .....</i>	<i>310</i>
<i>Using an HTML Checker .....</i>	<i>311</i>
<i>Avoiding Web Site Problems .....</i>	<i>328</i>
<i>Creating an Accessible Web Application Checklist .....</i>	<i>339</i>
<i>Creating Accessibility Friendly Tables Example .....</i>	<i>342</i>
<i>Using Keyboard Shortcuts Example .....</i>	<i>344</i>
<i>Schema Additions for the Database Developer .....</i>	<i>347</i>
<i>Summary .....</i>	<i>348</i>
<b>Chapter 10 Designing Easily Maintained Web Sites .....</b>	<b>349</b>
<i>Avoiding the Text-Only Web Site .....</i>	<i>350</i>
<i>Knowing When an Easily Maintained Setup Is Required .....</i>	<i>353</i>
<i>Using Easily Maintained Design Effectively .....</i>	<i>353</i>
<i>Creating an Easily Maintained Web Site Example .....</i>	<i>357</i>
<i>Summary .....</i>	<i>378</i>
<b>Chapter 11 Adding Usage Cues to Web Applications .....</b>	<b>381</b>
<i>An Overview of the Accessible Tags .....</i>	<i>382</i>
<i>&lt;ALT&gt; and &lt;LONGDESC&gt; Tags: The Low-Tech Solution .....</i>	<i>388</i>
<i>Using CSS Example .....</i>	<i>392</i>
<i>Alternatives to Using Color for Information .....</i>	<i>400</i>
<i>Working with Image Maps Example .....</i>	<i>401</i>
<i>Captioning Movies and Other Video Presentations .....</i>	<i>404</i>
<i>Summary .....</i>	<i>406</i>
<b>Chapter 12 Developing Special Web Application Capabilities .....</b>	<b>407</b>
<i>An Overview of the Potential Web Solutions .....</i>	<i>408</i>
<i>Avoiding the Pitfalls of Speech-Only Input .....</i>	<i>420</i>
<i>Using Microsoft Agent on the Web Example .....</i>	<i>422</i>
<i>Using Microsoft Speech .NET SDK on the Web Example .....</i>	<i>429</i>
<i>Summary .....</i>	<i>440</i>

<i>Chapter 13 Accessible Scripting Solutions</i> .....	443
<i>Understanding When to Use Scripts</i> .....	444
<i>Creating Accessibility Friendly Scripts Example</i> .....	452
<i>Creating a Mouseover Example</i> .....	456
<i>Summary</i> .....	458
 <i>Part Four Glossary and Appendixes</i> .....	461
 <i>Glossary</i> .....	463
 <i>Appendix A 52 Tips for Creating Accessible Applications</i> .....	491
 <i>Appendix B Six Best Web Sites for Accessibility Ideas</i> .....	499
 <i>Ability</i> .....	499
<i>Electronic and Information Technology Accessibility Standards</i> .....	500
<i>World Wide Web Consortium (W3C)</i> .....	501
<i>Epilepsy Action</i> .....	502
<i>IBMLink</i> .....	503
<i>WebAIM</i> .....	504
 <i>Appendix C Helpful Organizations and Agencies</i> .....	507
 <i>Index</i> .....	513

Accessibility for Everybody  
Understanding the Section 508 Accessibility  
Requirements

Mueller, J.

2003, XXXII, 531 p., Hardcover

ISBN: 978-1-59059-086-7
