Part I Overview and Current Trends

1 Introduction

<i>Bjørn Erik Munkvold</i>	3
----------------------------------	---

1.1 Background and Scope	3
--------------------------------	---

1.2 Structure of the Book	4
---------------------------------	---

2 Collaboration Technology: Overview and Current Trends

<i>Bjørn Erik Munkvold</i>	7
----------------------------------	---

2.1 Introduction	7
------------------------	---

2.2 Brief Historical Background	7
---------------------------------------	---

2.3 Classifying Technologies and Applications	8
---	---

2.4 Current Trends	25
--------------------------	----

3 Implementation of Collaboration Technologies:

A Review of the Literature

<i>Bjørn Erik Munkvold</i>	29
----------------------------------	----

3.1 Introduction	29
------------------------	----

3.2 Some Definitions Related to Implementation	30
--	----

3.3 Challenges in Development and Implementation of Collaboration Technologies	32
---	----

3.4 Empirical Findings from Previous Field Studies	34
--	----

3.5 Overall Summary and Conclusions	60
---	----

4 A Taxonomy of Implementation Factors for Collaboration Technologies

<i>Bjørn Erik Munkvold</i>	63
----------------------------------	----

4.1 Introduction	63
------------------------	----

4.2 Introducing the Taxonomy	64
------------------------------------	----

4.3 Organisational Context	65
----------------------------------	----

4.4 Implementation Project	67
----------------------------------	----

4.5 Technology-related Factors	69
--------------------------------------	----

4.6 Implementation Process	75
----------------------------------	----

4.7 Summary	76
-------------------	----

Part II Lessons from Industry

5	Implementing a Portfolio of Collaboration Technologies in Statoil	
	<i>Bjørn Erik Munkvold and Bjørn Tvedte</i>	81
5.1	Introduction	81
5.2	Presentation of Statoil	81
5.3	Implementation Trajectories for Collaboration Technologies in Statoil	83
5.4	Discussion of Experiences.	95
5.5	Current Initiatives	99
5.6	Towards an Integrated Collaborative Solution	102
5.7	Further Challenges.	104
5.8	Lessons Learned from the Statoil Case.	106
6	Implementation and Use of Collaboration Technologies in a Multinational Engineering Group: The Case of Kværner	
	<i>Bjørn Erik Munkvold</i>	109
6.1	Introduction	109
6.2	The Kværner Group	109
6.3	Establishing a Global Collaborative Infrastructure: The KINET Project.	110
6.4	Kværner's Use of Collaboration Technologies.	117
6.5	Future Challenges.	123
6.6	Lessons Learned from the Kværner Case.	125
7	Implementation of Data Conferencing in The Boeing Company	
	<i>Steven E. Poltrock and Gloria Mark</i>	129
7.1	Overview.	129
7.2	Data Conferencing	130
7.3	The Investigation Phase.	131
7.4	Technology Transition.	137
7.5	Organisational Issues.	143
7.6	Benefits and Shortcomings of Data Conferencing	147
7.7	Conclusion	156
8	Discretionary Adoption of Group Support Software: Lessons from Calendar Applications	
	<i>Leysia Palen and Jonathan Grudin</i>	159
8.1	Introduction	159
8.2	Early Computer-Supported Calendaring	163
8.3	Computer-Supported Calendaring in the Mid 1990s	166
8.4	Factors Contributing to Successful Adoption	171
8.5	Conclusion	178

9	Supporting the Assimilation of Sector-Specific Collaborative Solutions: Ten Commandments	
	<i>Bente Evjemo, Sigmund Akselsen and Jan Grav</i>	181
9.1	Introduction	181
9.2	Overview of Projects	184
9.3	Ten Commandments for the Assimilation of Collaborative Solutions	188
9.4	Reflections	204
9.5	Summary	209
10	Implementation and Use of Collaboration Technology in e-Learning: The Case of a Joint University-Corporate MBA	
	<i>Robert P. Bostrom, Chris Kadlec and Dominic Thomas</i>	211
10.1	Introduction	211
10.2	Background	212
10.3	e-Learning and Collaboration Technologies	213
10.4	Terry-PwC Consulting MBA programme	216
10.5	Implementation Process	224
10.6	Collaboration Technology Used in the Programme	229
10.7	Key Implementation Guidelines	239
10.8	Conclusion	244
	Part III Conclusions and Implications	
11	Integrating the Lessons Learned	
	<i>Bjørn Erik Munkvold</i>	249
11.1	Introduction	249
11.2	Organisational Context	249
11.3	Implementation Project	258
11.4	Technology-related Issues	265
11.5	Implementation Process	270
11.6	Summary and Conclusion	273
12	Implications for Practice and Research	
	<i>Bjørn Erik Munkvold</i>	275
12.1	Introduction	275
12.2	Use a Planned Approach – but Prepare for Improvisation	275
12.3	Get to Know the Setting	276
12.4	Adapt the Marketing of the Project to the Stakeholder Groups	277
12.5	Use Pilot Groups	278
12.6	Build a Supportive Infrastructure	278
12.7	Invest in Training – Including Collaborative Skills	279
12.8	Develop Guidelines and Routines for Use	280
12.9	Managers – Engage and Stimulate!	281
12.10	Establish a Formal Organisation for Maintenance and Further Development	281

12.11 Concluding Remarks 282

12.12 Implications for Research 282

Appendix A: Collaboration Technology Forums and Resources 285

Appendix B: Product Examples 287

**Appendix C: A Taxonomy of Implementation Factors for
Collaboration Technologies. 289**
