

CONTENTS

Preface	<i>vii</i>
Acknowledgments	<i>ix</i>
Companion CD-ROM	Inside Back Cover
1 Embryology, Anatomy, and Histology of the Vasculature of the Skin	1
1. Embryologic Aspects	1
2. Anatomic and Histologic Aspects of the Dermis and Blood Vessels	2
2 Special Techniques for the Study of Vessels and Vascular Proliferations	7
1. Immunohistochemical Stains	7
2. Molecular Techniques	10
3. Cytogenetic Studies	12
3 Classification of Cutaneous Vascular Proliferations	15
4 Cutaneous Vascular Hamartomas	19
1. Phakomatosis Pigmentovascularis	19
2. Eccrine Angiomatous Hamartoma	23
5 Cutaneous Vascular Malformations	27
1. Nevus Anemicus	29
2. Cutis Marmorata Telangiectatica Congenita	32
3. Nevus Flammeus	37
4. Hyperkeratotic Vascular Stains	47
5. Venous Malformations	51
6. Superficial Cutaneous Lymphatic Malformations	63
7. Cystic Lymphatic Malformations (Cystic Hygromas)	67
8. Lymphangiomatosis	70
6 Cutaneous Lesions Characterized by Dilation of Preexisting Vessels	73
1. Spider Angioma (Nevus Araneus)	73
2. Capillary Aneurysm-Venous Lake	76
3. Telangiectases	79
4. Angiokeratomas	86
5. Lymphangiectases	95

7	Cutaneous Vascular Hyperplasias	99
	1. Angiolymphoid Hyperplasia with Eosinophilia	99
	2. Pyogenic Granuloma	105
	3. Bacillary Angiomatosis	112
	4. Verruga Peruana	116
	5. Intravascular Papillary Endothelial Hyperplasia (Masson's Pseudo-Angiosarcoma)	119
	6. Pseudo-Kaposi's Sarcoma	123
	7. Reactive Angioendotheliomatosis	128
8	Benign Neoplasms	133
	1. Angioma Serpiginosum	133
	2. Infantile Hemangiomas	136
	3. Cherry Angiomas (Senile Angiomas)	151
	4. Arteriovenous Hemangioma	154
	5. Hobnail Hemangioma (Targetoid Hemosiderotic Hemangioma)	157
	6. Microvenular Hemangioma	161
	7. Tufted Angioma	164
	8. Glomeruloid Hemangioma	169
	9. Acquired Elastotic Hemangioma	174
	10. Kaposiform Hemangioendothelioma	177
	11. Sinusoidal Hemangioma	182
	12. Giant Cell Angioblastoma	184
	13. Spindle Cell Hemangioma (Formerly Spindle Cell Hemangioendothelioma)	186
	14. Benign Lymphangioendothelioma	191
	15. Benign Vascular Proliferations in Irradiated Skin	195
	16. Glomus Tumors	198
	17. Hemangiopericytoma	208
	18. Cutaneous Myofibroma	212
9	Malignant Neoplasms	217
	1. Kaposi's Sarcoma	217
	2. Epithelioid Hemangioendothelioma	236
	3. Endovascular Papillary Angioendothelioma (Dabska's Tumor or Papillary Intralymphatic Angioendothelioma)	241
	4. Retiform Hemangioendothelioma	245
	5. Composite Hemangioendothelioma	250
	6. Cutaneous Angiosarcoma of the Face and Scalp of Elderly Patients (Wilson Jones' Angiosarcoma)	251
	7. Cutaneous Angiosarcoma Associated with Lymphedema	258
	8. Radiation-Induced Cutaneous Angiosarcoma	262
	9. Epithelioid Angiosarcoma	268
	10. Malignant Glomus Tumor (Glomangiosarcoma)	271

10	Other Cutaneous Neoplasms With a Significant Vascular Component	275
	1. Multinucleate Cell Angiohistiocytoma	275
	2. Angiofibroma	279
	3. Angioleiomyoma	284
	4. Angiolipoma	287
	5. Cutaneous Angiolipoleiomyoma	290
	6. Cutaneous Angiomyxoma	293
	7. Aggressive Angiomyxoma	296
11	Disorders Erroneously Considered as Vascular Neoplasms	299
	1. Kimura's Disease	299
	2. "Malignant" Angioendotheliomatosis (Intravascular Lymphomatosis)	304
	3. Acral Pseudolymphomatous Angiokeratoma in Children (APACHE)	309
	Index	311
