

Table of Contents

Software Engineering Foundations

Taming Agents and Objects in Software Engineering	1
<i>Viviane Silva, Alessandro Garcia, Anarosa Brandão, Christina Chavez, Carlos Lucena, Paulo S.C. Alencar</i>	
The Role of Roles in Designing Effective Agent Organizations	27
<i>James J. Odell, H. Van Dyke Parunak, Mitchell Fleischer</i>	

Requirements Engineering and Software Architecture

Requirements Engineering for Large-Scale Multi-agent Systems	39
<i>Luiz Marcio Cysneiros, Eric Yu</i>	
Requirements Traceability in Agent Oriented Development	57
<i>Jaelson Castro, Rosa Pinto, Andréa Castor, John Mylopoulos</i>	
The Reflective Blackboard Pattern: Architecting Large Multi-agent Systems.....	73
<i>Otávio Silva, Alessandro Garcia, Carlos Lucena</i>	

Coordination and Mobility

A Declarative Approach to Agent-Centered Context-Aware Computing in Ad Hoc Wireless Environments	94
<i>Gruia-Catalin Roman, Christine Julien, Amy L. Murphy</i>	
Engineering Mobility in Large Multi Agent Systems: A Case Study in Urban Traffic Management	110
<i>Marco Mamei, Michael Mahan</i>	
Sustainable Information Ecosystems	123
<i>Rune Gustavsson, Martin Fredriksson</i>	

Reuse

Achieving the Promise of Reuse with Agent Components.....	139
<i>Martin L. Griss, Robert R. Kessler</i>	
Application-Specific Reuse of Agent Roles	148
<i>Tom Holvoet, Elke Steegmans</i>	

Assisting the Development of Aspect-Based Multi-agent Systems
Using the Smartweaver Approach 165
J. Andrés Díaz Pace, Federico U. Trilnik, Marcelo R. Campo

Dependability

Dynamic and Adaptive Replication for Large-Scale Reliable
Multi-agent Systems..... 182
*Zahia Guessoum, Jean-Pierre Briot, Olivier Marin, Athmane Hamel,
Pierre Sens*

Achieving Software Robustness via Large-Scale Multiagent Systems 199
*Michael N. Huhns, Vance T. Holderfield,
Rosa Laura Zavala Gutierrez*

Empirical Studies and Applications

What Can Cellular Automata Tell Us about the Behavior of Large
Multi-agent Systems?..... 216
Franco Zambonelli, Marco Mamei, Andrea Roli

The RETSINA MAS, a Case Study 232
Katia Sycara, Joseph A. Giampapa, Brent Langley, Massimo Paolucci

Secure Multi-agent Coordination in a Network Monitoring System 251
*Anand R. Tripathi, Muralidhar Koka, Sandeep Karanth,
Abhijit Pathak, Tanvir Ahmed*

Towards Monitored Data Consistency and Business Processing Based
on Declarative Software Agents 267
Paulo S.C. Alencar, D.D. Cowan, D. Mulholland, T. Oliveira

Author Index 285

Software Engineering for Large-Scale Multi-Agent
Systems

Research Issues and Practical Applications

Garcia, A.; Lucena, C.; Zambonelli, F.; Omicini, A.;
Castro, J. (Eds.)

2003, XIII, 287 p., Softcover

ISBN: 978-3-540-08772-4
