# Contents

<b>Overview of Organolithium-Ligand Combinations and Lithium Amides for Enantioselective Processes</b> David M. Hodgson, Matthew A. H. Stent . . . . .	1
<b>Enantioselective Addition of Organolithiums to C=O Groups and Ethers</b> Bernd Goldfuss . . . . .	21
<b>Enantioselective Conjugate Addition and 1,2-Addition to C=N of Organolithium Reagents</b> Mayu Iguchi, Ken-ichi Yamada, Kiyoshi Tomioka . . . . .	37
<b>Enantioselective Synthesis by Lithiation Adjacent to Oxygen and Electrophile Incorporation</b> Dieter Hoppe, Felix Marr, Markus Brüggemann . . . . .	61
<b>Enantioselective Synthesis by Lithiation Adjacent to Nitrogen and Electrophile Incorporation</b> Peter Beak, Timothy A. Johnson, Dwight D. Kim, Sung H. Lim . . . . .	139
<b>Enantioselective Synthesis by Lithiation Adjacent to Sulfur, Selenium or Phosphorus, or without an Adjacent Activating Heteroatom</b> Takeshi Toru, Shuichi Nakamura . . . . .	177
<b>Enantioselective Synthesis by Lithiation Adjacent to Oxygen and Subsequent Rearrangement</b> David M. Hodgson, Katsuhiko Tomooka, Emmanuel Gras . . . . .	217
<b>Enantioselective Synthesis by Lithiation to Generate Planar or Axial Chirality</b> Jonathan Clayden . . . . .	251
<b>Enantioselective Carbolithiations</b> Jean F. Normant . . . . .	287
<b>Author Index</b> . . . . .	311
<b>Subject Index</b> . . . . .	315

Organolithiums in Enantioselective Synthesis

Hodgson, D.M. (Ed.)

2003, IX, 320 p., Hardcover

ISBN: 978-3-540-00104-1
