

Table of Contents

Introduction

<i>Kurt W. Weiler</i>	1
-----------------------------	---

Part I Supernovae

Historical Supernovae

<i>David A. Green, F. Richard Stephenson</i>	7
--	---

Classification of Supernovae

<i>Massimo Turatto</i>	21
------------------------------	----

Supernova Rates

<i>Enrico Cappellaro</i>	37
--------------------------------	----

Optical Spectra of Supernovae

<i>David Branch, Edward A. Baron, David J. Jeffery</i>	47
--	----

Optical Light Curves of Supernovae

<i>Bruno Leibundgut, Nicholas B. Suntzeff</i>	77
---	----

X-Ray Supernovae

<i>Stefan Immler, Walter H.G. Lewin</i>	91
---	----

Ultraviolet Supernovae

<i>Nino Panagia</i>	113
---------------------------	-----

Radio Supernovae

<i>Richard A. Sramek, Kurt W. Weiler</i>	145
--	-----

Supernova Interaction with a Circumstellar Medium

<i>Roger A. Chevalier, Claes Fransson</i>	171
---	-----

Measuring Cosmology with Supernovae

<i>Saul Perlmutter, Brian P. Schmidt</i>	195
--	-----

Supernova 1987A

<i>Richard McCray</i>	219
-----------------------------	-----

Part II Supernovae to γ -Ray Bursters

SN1998bw and Hypernovae

Koichi Iwamoto, Ken'ichi Nomoto, Paolo A. Mazzali, Takayoshi Nakamura, Keiichi Maeda 243

Supernovae and γ -Ray Bursters

Titus J. Galama 283

Part III γ -Ray Bursters**Observational Properties
of Cosmic γ -Ray Bursts**

Kevin Hurley 301

X-Ray Observations of γ -Ray Burst Afterglows

Filippo Frontera 317

Optical Observations of γ -Ray Burst Afterglows

Elena Pian 343

Radio Observations of γ -Ray Burst Afterglows

Kurt W. Weiler, Nino Panagia, Marcos J. Montes 367

Gamma-Ray Bursts: The Underlying Model

Eli Waxman 393

**Ambient Interaction Models
for γ -Ray Burst Afterglows**

Zhi-Yun Li, Roger A. Chevalier 419

Cosmological Studies with γ -Ray Bursts

Abraham Loeb 445

Subject Index 457
