Introduction	XIII
42V-PowerNet:	
Status of Development, Requirements and Perspective	1
Peter Gresch	
1 Introduction	1
2 Reasons	3
3 Benefits	3
4 Challenges	7
5 Introduction Scenario	10
6 Conclusions	12
7 References	14
Cable Fire in Automobiles: Causes, Effects and Prevention	15
Klaus Dieter Pohl	
1 Introduction	15
2 Fire in Automobiles	18
3 Cable Fire as a Source of Fires in Automobiles	21
4 Summary	38
Circuit protection components	
for future vehicle electrical systems	41
Jo Jaspar, Neil McLoughlin, Patrick Bellew	
1 Introduction: Higher System Voltage, why and when?	41
2 System Definition	43
3 Most realistic Assumptions	55
4 Conclusions	71
5 References	72
Use of PolySwitch PPTC Protection in Automotive Applications	75
Werner Gretzke	
1 PPTC Principle of Operation	76
2 Design Considerations for PPTC Devices	78
3 Applications for Resettable Circuit Protection in Automotive Electronics	81
4 Compliance with Industry Standards	86
5 Summary	87
New Fusing Concept	
under Consideration of Wire Characteristics	89
Werner Hinrichs, Jürgen Scheele, Ronald Zörn	

1 Introduction.....	89
2 Fuse Protection in Automotive Applications.....	90
3 Definitions, Acronyms, Abbreviations.....	98
4 References.....	99
Overvoltage Protection Devices	
for the Automotive Power Network.....	101
Paddy O'Shea, Erich Niebler	
1 Introduction.....	101
2 What is the Threat on 14 V/42 V Systems.....	103
3 Load Dump Solutions.....	103
4 Module Level Protection 12 V/14 V/42 V.....	107
5 Electrostatic Discharge.....	110
6 Summary.....	112
Power Switches for the 42V-PowerNet.....	113
Solution for Power Net Protection and Applications	
Matthias Kroeker	
1 Introduction.....	113
2 Switching 42 V Loads.....	115
3 References.....	133
Detection and Characterization of Short Circuits	
in 42V-PowerNets.....	135
Reinhard Seyer, Roland Fischer, Rainer Mäckel Horst Brinkmeyer, Fritz Schmidt, Thomas Schulz	
1 Introduction.....	135
2 Short Circuits in 42V-PowerNets.....	136
3 Experimental Approach.....	139
4 Characterization of the Criticality.....	141
5 Thermal Mode.....	143
6 Detection of Short Circuits and Protection Concepts.....	144
7 References.....	145
Investigations of Electrical Failures in the Dual Voltage PowerNet..	147
Ronald Große, Christian Amsel	
1 Introduction.....	147
2 Concepts of Investigations of electrical Faults in Vehicle Electrical Systems..	148
3 Summary.....	157
4 References.....	159
Protection Strategies for Future Electrical Vehicle Architectures:	
Towards Fuseless Strategies.....	159
Joan Fontanilles, Carles Borrego, Gabriel Figuerola, Jordi Mestre	

1 Introduction.....	159
2 Electrical Architectures.....	160
3 Short-Circuits.....	163
4 Arcing	168
5 Conclusions.....	174
6 Definitions, Acronyms, Abbreviations.....	175
7 References.....	175
42V-PowerNet System Protection Concepts.....	177
Edmund Erich	
1 Introduction.....	177
2 42V-PowerNet: System Protection Concepts.....	178
3 General Questions: What Degree of SystemProtection is required? What is the Cost Margin?.....	180
4 Effects in 42V-PowerNet/Corrosion.....	181
5 System Protection @ 42 V: Relevant Effects in Comparison to 14 V Electrical System.....	182
6 Effects in 42V-PowerNet/Arcing.....	183
7 Connection System related Solutions.....	183
8 System Protection @ 42 V.....	184
9 Arcs @42 V/Hot Plugging.....	186
10 Effects in 42V-PowerNet/Short Circuit.....	187
11 Short Circuit Protection Methods.....	189
12 Power Switching & Protection.....	189
13 How can the Cost Impact of System Protection be limited?.....	190
14 Working Party Short Circuit.....	191
15 System Protection Summary.....	191
Requirements for Introduction of the 42V-PowerNet.....	193
Volker Graf	
1 Introduction.....	193
2 Optimizing Wire Fusing.....	194
3 Fusing Circuits in a Dual Voltage PowerNet.....	198
4 Arcs in 42V-PowerNets.....	201
5 Forecast.....	204
6 References.....	204
Test Methods for Fusing Devices.....	205
Ronald Zörn, Jürgen Scheele, Werner Hinrichs	
1 Introduction.....	205
2 Principle for the Release of a Fuse.....	206
3 Summary.....	209

42 V-PowerNets

Wallentowitz, H.; Amsel, C. (Eds.)

2003, XIX, 209 p. 609 illus., 2 illus. in color., Hardcover

ISBN: 978-3-540-44346-9
