
Table of Contents

1	First Steps	1
1.1	Introduction	1
1.2	System Requirements.....	2
1.3	Installation.....	2
1.3.1	Read Book Online	3
1.3.2	Installing Caché.....	3
1.3.3	The Book Examples	3
1.4	Using Caché	4
1.4.1	The Caché Cube.....	4
1.4.2	The Caché Utilities.....	4
1.5	Step-by-Step Through the First Example.....	5
1.5.1	The Task	5
1.5.2	Caché Studio	5
1.5.3	Creating the Query.....	10
1.5.4	The Caché Web Form Wizard.....	12
1.6	Outlook.....	16
2	Introduction to Object Technology.....	17
2.1	Overview.....	17
2.2	Objects, Properties, Methods, and Messages	18
2.3	Object Classes and Instances	19
2.4	Class Hierarchies and Inheritance	20
2.5	Abstract and Final Classes.....	21
2.6	Polymorphism	21
2.7	Complex Objects	22
2.8	Persistence and Other Database Requirements of Object Technology	23
2.9	The Process of Object-Oriented Software Development ..	24

3	The Caché Object Model	25
3.1	Introduction.....	25
3.1.1	Characteristics of Caché Objects	26
3.1.2	Components of Caché Objects	27
3.2	Class Types.....	28
3.2.1	Data Type Classes	28
3.2.2	Object Classes	28
3.2.3	Non-Registered Object Classes	28
3.2.4	Registered Object Classes	29
3.2.5	Embeddable Object Classes.....	29
3.2.6	Persistent Object Classes	30
3.3	Elements of Classes.....	31
3.3.1	Keywords.....	32
3.3.2	Properties	32
3.3.3	Methods	42
3.3.4	Class Parameters	45
3.3.5	Queries.....	45
3.3.6	Indexes.....	45
3.4	Inheritance	46
3.4.1	Single Inheritance	46
3.4.2	Multiple Inheritance.....	47
3.5	Class Compiler.....	48
4	Defining Classes	49
4.1	Introduction.....	49
4.2	Caché Studio	49
4.2.1	Packages	50
4.2.2	Class Definition Language (CDL).....	52
4.2.3	Defining Classes	52
4.2.4	Properties	56
4.2.5	Methods	62
4.2.6	Class Parameters	67
4.2.7	Queries.....	69
4.2.8	Indexes.....	73
4.2.9	Triggers.....	78
4.2.10	The Complete Example	81
4.3	Managing Classes with Caché Explorer.....	82

4.4	Caché Objects Utilities at the Command Level.....	83
4.4.1	Caché Terminal and the Command Level.....	83
4.4.2	Loading and Compiling Class Definitions.....	84
4.4.3	Exporting Class Definitions	85
4.4.4	Deleting Classes.....	85
4.4.5	Indirectly Calling a Method	86
4.4.6	Determining the Version Number	86
4.4.7	Default Settings for Concurrency and Transaction Mode.....	86
4.4.8	Querying Error Messages	87
4.4.9	The <i>flag</i> and <i>errorlog</i> Arguments.....	87
5	Fundamentals of Caché ObjectScript.....	89
5.1	Basic Structures of Caché ObjectScript	89
5.1.1	Variables.....	89
5.1.2	Operators and Expressions	93
5.1.3	Commands	102
5.1.4	Intrinsic Functions	111
5.1.5	Lists	124
5.2	Routines in Caché	130
5.2.1	Types of Routines	130
5.2.2	Creating Routines with Caché Studio.....	130
5.2.3	Basic Structures of a Routine.....	131
5.2.4	Local Variables in Routines	134
5.2.5	Parameter Passing	136
5.2.6	Procedures	138
5.2.7	Extrinsic Functions.....	142
5.3	Procedural, Structured Programming.....	144
5.3.1	Command Constructs for Flow Control.....	144
5.3.2	General Rules for {Code} Blocks	149
5.3.3	Line-Oriented Flow Control	150
5.3.4	Alternatives with \$CASE.....	151
5.4	Error Processing.....	153
5.4.1	Introduction	153
5.4.2	Overview of Error Processing	153

6	Object Access and Persistence	159
6.1	Objects in Caché ObjectScript.....	159
6.1.1	Object Identity and Access to Objects	159
6.1.2	Naming, Conventions, and Restrictions	160
6.1.3	Dot Syntax.....	161
6.1.4	Using Object References	164
6.1.5	Features of Properties	164
6.1.6	Features of Methods	168
6.1.7	Declaration and Casting	170
6.2	Object Persistence.....	172
6.2.1	Overview.....	172
6.2.2	The Persistence Interface	173
6.2.3	The Storage Interface	181
6.3	Set Operations on Objects	185
6.3.1	Result Sets	186
6.4	Using Objects.....	188
6.4.1	Practical Use of Objects	188
6.4.2	Practical Use of Result Sets	190
7	Multidimensional Access and Globals.....	191
7.1	Multidimensional Variables.....	191
7.1.1	Arrays with String Subscripts	192
7.1.2	Global Multidimensional Arrays.....	194
7.1.3	File Organization of Globals	198
7.2	Navigating in Multidimensional Arrays	201
7.2.1	Existence of Data in the n-th Dimension.....	201
7.2.2	The Next Subscript with \$Order	203
7.2.3	Further Processing of n-Dimensional Structures.....	206
7.2.4	Copying n-Dimensional Arrays with Merge.....	209
7.3	Advanced Global Operations	211
7.3.1	Locking Globals.....	211
7.3.2	Transaction Processing (TP).....	215

8	SQL Access and Tables	221
8.1	Unified Data Architecture	221
8.1.1	Representation of Classes as Objects and Tables	222
8.1.2	The Relational Model	222
8.1.3	The Projection of Classes to Tables	224
8.2	Structured Query Language (SQL)	229
8.2.1	ANSI Standard SQL	229
8.2.2	Extensions in Caché SQL	233
8.3	Embedded SQL	237
8.3.1	Use of Embedded SQL in Method Definitions	237
8.3.2	Use of Macros in Embedded SQL	239
8.3.3	Cursor and Non-Cursor-Based SQL	239
8.3.4	Evaluating Query Results	241
8.3.5	Inserting and Updating Values	242
8.3.6	Return Values and Error Messages	243
8.4	Caché SQL Manager	244
8.5	Caché SQL Server—Access Using ODBC	245
9	Programming with ActiveX	249
9.1	Overview	249
9.2	ActiveX Connections with Caché	249
9.2.1	Caché Object Server for ActiveX	250
9.3	Caché Objects and Visual Basic	253
9.3.1	Installing a Visual Basic Project	254
9.3.2	Working with Caché Objects in Visual Basic	255
9.3.3	Graphic User Interfaces with Visual Caché	260
9.3.4	Reference of the Caché ActiveX Classes	264
9.3.5	Caché ActiveX Controls Reference	273
9.4	Accessing ActiveX Server with Caché Activate	281
9.4.1	Creating the ActiveX Classes	281
9.4.2	Programming with ActiveX Components	282

10	Object Interaction with Java.....	283
10.1	Overview.....	283
10.2	Creating Java Classes.....	285
10.2.1	Structure of the Generated Java Classes.....	285
10.2.2	Rules for the Caché Java Projection.....	286
10.2.3	Caché Java Classes	288
10.3	Using Caché Objects and Java.....	288
10.3.1	Setting Up a Java Project	288
10.3.2	The Caché Object Server for Java	289
10.3.3	Connecting to a Server	289
10.3.4	Creating Object Instances in Java	289
10.3.5	Using Caché Objects within Java.....	290
10.3.6	Multi-value Properties	291
10.3.7	Accessing Streams from Java	291
10.4	Queries and ResultSets.....	292
10.4.1	Using Queries	292
10.4.2	Relational Access using JDBC	292
10.5	Caché Object as Enterprise JavaBeans.....	293
10.5.1	Concept.....	293
10.5.2	Projection	294
11	Web Programming with Caché Server Pages	297
11.1	Introduction.....	297
11.2	CSP Basics	298
11.3	Setting Up CSP.....	299
11.3.1	Configuring CSP Web Gateway.....	299
11.3.2	Configuring CSP	299
11.3.3	CSP File Names, URLs and Classes	301
11.4	Developing in CSP.....	302
11.4.1	The CSP Object Model.....	302
11.4.2	Syntax Elements in CSP Pages	302
11.4.3	Application State Modes.....	303
11.4.4	A First Example	303

11.5	Creating Dynamic Content.....	305
11.5.1	Value Substitution	305
11.5.2	Executing Scripts	307
11.5.3	Calling Server Methods	308
11.5.4	Predefined Database Queries	309
11.5.5	Dynamic Database Queries	310
11.5.6	Loop Constructs	310
11.5.7	Branching Code	311
11.6	Interaction with CSP.....	312
11.6.1	Using Forms.....	313
11.6.2	Binding Forms to Objects.....	317
11.6.3	Session Management.....	318
11.6.4	Concepts for User Management	322
11.7	A Sample Application.....	324
11.7.1	Creating CSP Pages	326
11.7.2	Connecting to the Database	328
12	XML and Web Services.....	331
12.1	Introduction	331
12.1.1	Well-formed XML Documents.....	331
12.1.2	Correctness of XML Documents.....	332
12.2	Caché and XML	333
12.2.1	Creating XML.....	334
12.2.2	Adapting the XML Projection	335
12.2.3	Importing XML.....	336
12.3	Caché Web Services with SOAP	337
12.3.1	Introduction	337
12.3.2	Using Web Services	338
13	Device Management	343
13.1	Input/Output	343
13.1.1	Basic Characteristics of I/O Programming	343
13.1.2	Input/Output-specific Special Variables.....	344
13.2	The Open, Use, and Close Commands	345
13.2.1	Formal Definition	345
13.2.2	Device Designations	346
13.3	Practical Use of Input/Output in Caché	347
13.3.1	Sequential Files	347
13.3.2	Printers and Terminals	347
13.3.3	Input/Output at Terminals.....	348

Table of Contents

Appendix A. Caché ObjectScript Reference	351
Commands	351
Functions	353
Special Variables	356
Structured System Variables	357
Operators	358
Pattern Match Characters	359
Appendix B. CDL Reference.....	361
Keywords for Classes	361
Keywords for Properties	362
Keywords for Methods	362
Keywords for Class Parameters	363
Keywords for Queries	363
Keywords for Indexes	363
Appendix C. SQL Reference	365
Data Query Language (DQL)	365
Data Manipulation Language (DML)	366
Transaction Control Language (TCL).....	367
Data Definition Language (DDL).....	367
Reserved Words in Caché SQL.....	368
Glossary.....	371
Bibliography	377
Index.....	379

Object-Oriented Application Development Using the
Cache Postrelational Database

Kirsten, W.; Ihringer, M.; Kühn, M.; Röhrig, B.

2003, XIV, 390 p., Hardcover

ISBN: 978-3-540-00960-3
