

# Contents

## Preface

<b>Plenary Talk and GOR-Awards</b>	<b>1</b>
<b>The Role of Operations Research in Public Policy</b> Jonathan P. Caulkins	<b>1</b>
<b>Risk-Return Optimization of the Bank Portfolio</b> Ursula Theiler	<b>14</b>
<b>Resource-orientated Purchase Planning and Supplier Selection - Models and Algorithms for Supply Chain Optimization and E-Commerce</b> Gabriele Reith-Ahlemeier	<b>20</b>
<b>A Combinatorial Approach to Orthogonal Placement Problems</b> Gunnar W. Klau	<b>26</b>
<b>Assigning Frequencies in GSM Networks</b> Andreas Eisenblätter	<b>33</b>
<b>Optimal Control of Methadone Treatment in Preventing Blood-Borne Disease</b> Julia Almeder	<b>41</b>
<b>Section 1: Production, Logistics and Supply Chain</b>	
<b>Production, Logistics and Supply Chain</b>	<b>47</b>
<b>Strategien zur Rüstzeitvermeidung in der Elektronikfertigung</b> Claus-Burkard Böhnlein	<b>47</b>
<b>Optimale Belegung von Stranggießanlagen mittels 2-dimensionalen Bin-Packing-Modelle</b> Thomas Spengler, Oliver Seefried	<b>53</b>
<b>Short-term Capacity Planning in Manufacturing Companies with a Decentralized Organization</b> Peter Letmathe	<b>59</b>
<b>Performance Analysis of Make to Stock Supply Chains using Discrete-Time Queueing Models</b> Sandeep Jain, N. R. Srinivasa Raghavan	<b>65</b>

<b>A New Optimal Demand Forecast Model</b>	<b>71</b>
Joachim Althaler, Herbert Jodlbauer	
<b>A Multi-Product Batch-Available-to-Promise Model for Make-to Stock Manufacturing</b>	<b>77</b>
Richard Pibernik	
<b>Scheduling of Rolling Ingots Production</b>	<b>83</b>
Christoph Schwindt, Norbert Trautmann	
<b>Determination of Economic Production Quantity for a Multi-Stage Production System with Limited Storage Capacity</b>	<b>89</b>
U. Buscher, G. Lindner	
<b>A Reverse Logistics Model with Integer Setup Numbers</b>	<b>95</b>
Knut Richter, Imre Dobos	
<b>Lotsizing in a Production System with Rework and Product Deterioration</b>	<b>102</b>
K. Inderfurth, G. Lindner, N.P. Rahaniotis	
<b>Mathematical Programming Models for Strategic Supply Chain Planning and Design</b>	<b>108</b>
J. Kalcsics, M.T. Melo, S. Nickel	
<b>Ein dynamisches Verhandlungsmodell des Supply Chain Management</b>	<b>114</b>
Eric Sucky	
<b>Modeling the Interaction between Operational and Financial Decisions in the Inventory Pooling of Repairable Spare Parts Problem</b>	<b>120</b>
Hartanto Wong, Dirk Cattrysse, Dirk Van Oudheusden	
<b>Section 2: Marketing and Data Analysis</b>	<b>127</b>
<b>Die Schätzung von Markentreue, Nichtkäuferanteil und Marktpotenzial aus Handelspaneldata</b>	<b>127</b>
Heribert Reisinger, Udo Wagner, Matthias Schuster	
<b>Section 3: Transportation and Traffic</b>	<b>133</b>
<b>A Conjugate Direction Frank-Wolfe Method with Applications to the Traffic Assignment Problem</b>	<b>133</b>
Maria Daneva, Per Olov Lindberg	

<b>Online-Algorithmus zur Steuerung von Verkehrslichtsignalanlagen</b>	<b>139</b>
Klaus Ladner	
<b>Optimal Sorting Machine Allocation in the Postal Distribution Network</b>	<b>144</b>
Jaroslav Janáček	
<b>A Combined Approach to Solve the Pickup and Delivery Selection Problem</b>	<b>150</b>
Jörn Schönberger, Herbert Kopfer, Dirk C. Mattfeld	
<b>VRP with interdependent Time Windows - A Case Study for the Austrian Red Cross Blood Program</b>	<b>156</b>
Karl Doerner, Manfred Gronalt, Richard F. Hartl, Marc Reimann, Kerstin Zisser	
<b>Incident Management based on Real Time Simulation</b>	<b>162</b>
Jürgen Zajicek, Martin Linauer, Katja Schechtner	
<b>Online-Dispatching of Automobile Service Units</b>	<b>168</b>
Martin Grötschel, Sven O. Krumke, Jörg Rambau, Luis M. Torres	
<b>Multi-Class User Equilibria under Social Marginal Cost Pricing</b>	<b>174</b>
Leonid Engelson, Per Olov Lindberg, Maria Daneva	
<b>School Bus Rooting and Scheduling Problem</b>	<b>180</b>
Michela Spada, Michel Bierlaire, Thomas M. Liebling	
<b>Covering Population Areas by Railway Stops</b>	<b>187</b>
Anita Schöbel, Michael Schröder	
<b>Innovative Lösungen im bimodalen Transport Straße / Binnenstraße</b>	<b>193</b>
Joachim R. Daduna, Johannes Schröter	
<b>Optimal Routing of Snowplows - A Column Generation Approach</b>	<b>199</b>
Nima Golbaharan, Per Olov Lindberg, Maud Göthe Lundgren	
<b>Savings based Ants for large-scale Vehicle Routing Problems</b>	<b>205</b>
Marc Reimann, Karl Doerner	

## **Section 4: Scheduling and Project Management** 211

**Single Machine Scheduling Problems with Exponentially Start Time Dependent Job Processing Times** 211

Adam Janiak, Maciej Lichtenstein

**Scheduling Problems with Optimal Due Interval Assignment Subject to some Generalized Criteria** 217

Adam Janiak, Marcin Marek

**A New Exact Resource Allocation Model with Hard and Soft Resource Constraints** 223

Ferenc Kruzsliz

**Minimizing Total Weighted Tardiness on Parallel Batch Process Machines Using Genetic Algorithms** 229

Lars Mönch, Hari Balasubramanian, John W. Fowler, Michele E. Pfund

**Sorting with Line Storage Systems** 235

Thomas Epping, Winfried Hochstättler

**On Solvability of the Project Scheduling Problem with Accumulative Resources of an Arbitrary Sign** 241

Edward Gimadi, Sergey Sevastianov

## **Section 5: Telecommunication and Information Technology** 247

**Cost Optimized Layout of Fibre Optic Networks in the Access Net Domain** 247

Peter Bachhiesl, Gernot Paulus, Markus Prosegger  
Joachim Werner, Herbert Stögner

**Ein Algorithmus zur sicheren elektronischen Stimmabgabe über das Internet** 253

Alexander Prosser, Robert Müller-Török

## **Section 6: Energy and Environment** 259

**Accelerated MILP-Strategies for the Optimal Operation Planning of Energy Supply System** 259

Peter Hackländer, Johannes F. Verstege

**On On-line Systems for Short-term Forecasting for Energy systems** 265

Henrik Aalborg Nielsen, Torben Skov Nielsen, Henrik Madsen

<b>Combining Bottom-up and Finance Modelling for Electricity Markets</b>	<b>272</b>
Christoph Weber	
<b>Gestaltung von Stoffstrom-Netzwerken zum Produktrecycling</b>	<b>278</b>
Thomas Spengler, Grit Walther	
<b>Ein Ansatz zur Bewertung von Remanufacturingstrategien</b>	<b>284</b>
Axel Tuma, Baptiste Lebreton	
<b>Environmental Coordination of Supply Chain Networks Based on a Multi-Agent System</b>	<b>290</b>
Axel Tuma, Jürgen Friedl	
<b>Decision Support for the National Implementation of Emission Reduction Measures by the Dynamic Mass Flow Optimisation Model ARGUS</b>	<b>296</b>
Jutta Geldermann, Nurten Avci, Stefan Wenzel, Otto Rentz	
<b>Fuzzy Scheduling for the Dismantling of Complex Products</b>	<b>302</b>
Frank Schultmann, Otto Rentz	
<b>Section 7: Public Economy, Health, Agriculture, Education</b>	<b>309</b>
<b>Group Decision Making Versus Expert Opinion in the Multi-Objective Analysis of Ecosystem Management</b>	<b>309</b>
Lidija Zadnik Stirn	
<b>Section 8: Banking, Finance, Insurance, Risk Management</b>	<b>315</b>
<b>Capital Market Efficiency – An Empirical Analysis of the Dividend Announcement Effect for the Austrian Stock Market</b>	<b>315</b>
Roland Mestel, Henryk Gurgul, Christoph Schleicher	
<b>On Tail Index Estimation and Financial Risk Management Implications</b>	<b>321</b>
Niklas Wagner	
<b>Project Risk Management by a Probabilistic Expert System</b>	<b>329</b>
Andre Ahuja, Wilhelm Rödder	

<b>Regulatory Impacts on Credit Portfolio Management</b>	<b>335</b>
Ursula Theiler, Vladimir Bugera, Alla Revenko, Stanislav Uryasev	
<b>Verfahren zur Risikokapitalallokation im Eigenhandel von Banken</b>	<b>341</b>
Mario Straßberger	
<b>Section 9: Continuous Optimization</b>	<b>347</b>
<b>Process Optimization via Conventional Factorial Designs and Simulated Annealing on the Path of Steepest Ascent for a CSTR</b>	<b>347</b>
Pongchanun Luangpaiboon	
<b>Optimization on Directionally Convex Sets</b>	<b>353</b>
Vladimir Naidenko	
<b>Section 10: Discrete and Combinatorial Optimization</b>	<b>359</b>
<b>Meta-Heuristiken in Virtuellen Lernumgebungen</b>	<b>359</b>
Torsten Reiners, Imke Sassen, Stefan Voß	
<b>An evolutionary algorithm for Bayesian network triangulation</b>	<b>365</b>
Tomasz Łukaszewski	
<b>Approximation algorithms for the k-center problem: an experimental evaluation</b>	<b>371</b>
Jurij Mihelic, Borut Robic	
<b>MaxFlow-MinCut Duality for a Paint Shop Problem</b>	<b>377</b>
Thomas Epping, Winfried Hochstättler, Marco E. Lübbecke	
<b>From Edge Decomposition Formulae to Composition Algorithms</b>	<b>383</b>
André Pönitz	
<b>The Complexity of Some Problems on Maximal Independent Sets in Graphs</b>	<b>389</b>
Igor Zverovich, Yuri Orlovich	
<b>Section 11: Stochastic and Dynamic Programming</b>	<b>395</b>
<b>Testing Solution Quality in Stochastic Programs</b>	<b>395</b>
David P. Morton	

**Scenario Updating Method for Stochastic  
Mixed-integer Programming Problems** 401  
Guglielmo Lulli, Suvrajeet Sen

**Pricing of Multidimensional Resources in Revenue  
Management** 407  
Jens Feller

**A Note on Quantitative Stability and Empirical  
Estimates in Stochastic Programming** 413  
Vlasta Kanková, Michal Houda

**Splitting and Localization of the Epi-Topology  
Combined with Randomness** 419  
Petr Lachout

## **Section 12: Simulation** 425

**Standards für Modellierung und Simulation** 425  
Claus-Burkard Böhnlein

## **Section 13: Control Theory, System Dynamics, Dynamic Games** 431

**System Dynamics(SD) - An Approach within  
Corporate Planning** 431  
Peter Bradl

**Optimal Decision Rules in a Monetary Union** 437  
Doris A. Behrens, Reinhard Neck

**Impact of Feedback Loop on Group Decision Process  
when Applying System Dynamic Simulators** 446  
Andrej Skraba, Mirosljub Kljajic

## **Section 14: Game Theory, Auctioning and Bidding, Experimental Economics** 453

**The Management Game SINTO-Market -  
Report on some recent Experiments** 453  
Otwin Becker, Tanja Feit, Ulrike Leopold-Wildburger,  
Susanne Lind-Braucher, Jörg Schütze, Reinhard Selten

**Bounds & Likelihood Procedure Revisited** 459  
Otwin Becker, Johannes Leitner, Ulrike Leopold-Wildburger,  
Jörg Schütze

<b>On the Allocation of Excess of Resources in Linear Production Problems</b>	<b>465</b>
F. R. Fernandez, G. Fiestras, I. Garcia-Jurado, J. Puerto	
<b>Section 15: Econometrics, Statistics and Mathematical Economics</b>	<b>471</b>
<b>Simulation eines CO<sub>2</sub>-Zertifikatenhandels und algorithmische Optimierung von Investitionen</b>	<b>471</b>
Silja Meyer-Nieberg, Stefan Pickl	
<b>Indirect Expenditure Functions and Shephard's Lemma</b>	<b>474</b>
S. Fuchs-Seliger	
<b>Bayesian Estimation of the Heston Stochastic Volatility Model</b>	<b>480</b>
Sylvia Frühwirt-Schnatter, Leopold Sögner	
<b>Forecasting with Leading Economic Indicators - A Neural Network Approach</b>	<b>486</b>
Timotej Jagric	
<b>Estimating Multivariate Conditional Distributions - An Application to the Truck Sales Forecast</b>	<b>492</b>
Eric A. Stütze, Tomas Hrycej	
<b>Application of Techniques of Functional Data Analysis to Spectroscopic Data</b>	<b>498</b>
Vera Hofer	
<b>Integrating Exchange Rate Theory in Data Mining</b>	<b>504</b>
Bernd Brandl	
<b>The Ability of Artificial Neural Networks to Exploit Non-Linearities by Data Mining Models Compared to Statistical Methods</b>	<b>510</b>
Lutz Beinsen, Bernd Brandl	
<b>Section 16: Fuzzy Logic, Multicriteria Decision Making, Decision Theory</b>	<b>517</b>
<b>Preference Measurement with Conjoint Analysis and AHP: An Empirical Comparison</b>	<b>517</b>
Roland Helm, Laura Manthey, Armin Scholl, Michael Steiner	
<b>Further Development of MADM-Approaches in China and in Germany</b>	<b>525</b>
Jutta Geldermann, Kejing Zhang, Otto Rentz	

**Wissensrevision in einer MaxEnt/MinREnt-Umgebung 533**

Elmar Reucher, Wilhelm Rödder

**Innovation, Operations Research & Decision  
Support in the Military 539**

Heiner Micko

**Von der Prädikatenlogik zur unternehmerischen  
Entscheidungsunterstützung 545**

Friedhelm Kulmann, Wilhelm Rödder

Operations Research Proceedings 2002  
Selected Papers of the International Conference on  
Operations Research (SOR 2002), Klagenfurt,  
September 2-5, 2002  
Leopold-Wildburger, U.; Rendl, F.; Wascher, G. (Eds.)  
2003, XVIII, 550 p. 103 illus., Softcover  
ISBN: 978-3-540-00387-8
