

Contents

1	Introduction	1
2	Partition of Unity Method	13
2.1	Construction of a Partition of Unity Space	13
2.2	Properties	18
2.3	Basic Convergence Theory	20
3	Treatment of Elliptic Equations	23
3.1	Galerkin Discretization	23
3.2	Boundary Conditions	31
3.3	Numerical Results	37
4	Multilevel Solution of the Resulting Linear System	51
4.1	Multilevel Iterative Solvers	52
4.2	Multilevel Partition of Unity Method	56
4.3	Numerical Results	73
5	Tree Partition of Unity Method	97
5.1	Single Level Cover Construction	98
5.2	Construction of a Sequence of PUM Spaces	111
5.3	Numerical Results	117
6	Parallelization and Implementational Details	127
6.1	Parallel Data Structures	128
6.2	Parallel Tree Partition of Unity Method	131
6.3	Numerical Results	140
7	Concluding Remarks	155
	Treatment of other Types of Equations	161
A.1	Parabolic Equations	162
A.2	Hyperbolic Equations	163
	Transformation of Keys	167
	Color Plates	173
	References	183
	Index	193

A Parallel Multilevel Partition of Unity Method for Elliptic
Partial Differential Equations

Schweitzer, M.A.

2003, VI, 200 p. 15 illus., Softcover

ISBN: 978-3-540-00351-9
