1. Overview – Thin Films on Glass: an Established Technology	1
<i>Burkhard Danielzik, Martin Heming, Dieter Krause, Alfred Thelen</i>	
1.1 Introduction: Why Surface Coating?	1
1.2 Coating Materials	2
1.3 Thin-Film Forming Processes	8
1.4 Fabrication Issues for Coatings	11
1.5 Product and Overall Process Design	13
1.6 Today's Situation and Trends	17
References	19
2. Design Strategies for Thin Film Optical Coatings	23
<i>Alfred Thelen</i>	
2.1 Optical Thin Film Theory	24
2.2 Exact Methods	25
2.2.1 Equivalent Layers	25
2.2.2 Simulation of a Single Layer by a Multilayer	29
2.2.3 Chebyshev Synthesis	30
2.2.4 Effective Interfaces	32
2.2.5 Buffer Layers	33
2.2.6 Absentee Layers	34
2.3 Approximate Methods Based on Starting Designs	35
2.4 Numerical Synthesis	37
2.5 Results of Recent Design Contests	40
2.5.1 Berlin Contest 1991	40
2.5.2 Tucson Contest 1995	41
2.6 Design Strategies for the Different Deposition Technologies	45
2.7 Conclusion	47
References	48

3. Coating Technologies	51
3.1 Physical Vapour Deposition	
<i>Ulrich Jeschkowski, Hansjörg Niederwald</i>	51
3.1.1 Non-Reactive Evaporation	51
3.1.2 Reactive Evaporation	53
3.1.3 Energy-Enhanced Evaporation	53
3.1.4 Sputtering	57
3.2 Chemical Vapour Deposition	
<i>Wolfgang Möhl</i>	59
3.2.1 Techniques of Chemical Vapour Deposition	59
3.2.2 Peculiarities of the Various Techniques	61
3.2.3 Variation of Processing Conditions and Properties	63
3.3 Sol-Gel Coating Processes	
<i>Wolfram Beier</i>	66
3.3.1 Sol-Gel Chemistry	66
3.3.2 Sol-Gel Fractals	73
3.3.3 Dip Coating	75
3.3.4 Spin Coating	77
3.3.5 Heat Treatment	80
3.4 Thermal Coating Processes	
<i>Joachim Disam, Dirk Gohlke, Katharina Lübbers</i>	83
3.4.1 Processes and Materials	83
3.4.2 Applications	89
References	92
4. Properties and Characterization of Dielectric Thin Films	99
4.1 Surfaces of Substrate Glasses	
<i>Klaus Bange</i>	101
4.2 Macroscopic Properties of Thin Films	
<i>Klaus Bange, Clemens Ottermann</i>	104
4.2.1 Density	104
4.2.2 Optical Properties of Coatings	106
4.2.3 Electrical Conductivity	113
4.2.4 Mechanical Properties	114
4.3 Microscopic Properties	
<i>Klaus Bange</i>	125
4.3.1 Composition	125
4.3.2 Oxidation State	128
4.3.3 Structure of Oxide Films	130

4.4	Examples of the Characterization of Thin Film Materials	135
4.4.1	Titanium Oxide <i>Olaf Anderson, Klaus Bange, Clemens Ottermann</i>	135
4.4.2	Silicon Oxides <i>Olaf Anderson, Clemens Ottermann</i>	159
4.4.3	Tantalum Oxide Layers <i>Klaus Bange</i>	171
4.4.4	Nickel Oxide and Hydrous Nickel Oxide <i>Klaus Bange</i>	175
4.4.5	Tungsten Oxide <i>Klaus Bange</i>	189
4.5	Properties of Multilayer Systems <i>Clemens Ottermann</i>	201
