

Contents

- Kazuki, Y., Schulz, T. C., Shinohara, T., Kadota, M., Nishigaki, R., Inoue, T., Kimura, M., Kai, Y., Abe, S., Shirayoshi, Y., Oshimura, M.:** A new mouse model for Down syndrome
- Gardiner, K.:** Predicting pathway perturbations in Down syndrome
- Shim, K. S., Ferrando-Miguel, R., Lubec, G.:** Aberrant protein expression of transcription factors BACH1 and ERG, both encoded on chromosome 21, in brains of patients with Down syndrome and Alzheimer's disease
- Rosner, M., Kowalska, A., Freilinger, A., Prusa, A-R., Marton, E., Hengstschläger, M.:** Cell cycle and cell size regulation in Down Syndrome cells
- Sohn, S. Y., Weitzdoerfer, R., Mori, N., Lubec, G.:** Transcription factor REST dependent proteins are comparable between Down Syndrome and control brains: challenging a hypothesis
- de Haan, J. B., Susil, B., Pritchard, M., Kola, I.:** An altered antioxidant balance occurs in Down syndrome fetal organs: implications for the "gene dosage effect" hypothesis
- Fountoulakis, M., Gulesserian, T., Lubec, G.:** Overexpression of C1-tetrahydrofolate synthase in fetal Down Syndrome brain
- Lubec, G., Bajo, M., Cheon, M. S., Bajova, H., Matherly, L. H.:** Increased expression of human reduced folate carrier in fetal Down syndrome brain
- Thiery, E., Thomas, S., Vacher, S., Delezoide, A.-L., Delabar, J. M., Créau, N.:** Chromosome 21 KIR channels in brain development
- Shim, K. S., Bergelson, J. M., Furuse, M., Ovod, V., Krude, T., Lubec, G.:** Reduction of chromatin assembly factor 1 p60 and C21orf2 protein, encoded on chromosome 21, in Down Syndrome brain
- Hämmerle, B., Elizalde, C., Galceran, J., Becker, W., Tejedor, F. J.:** The MNB/DYRK1A protein kinase: neurobiological functions and Down syndrome implications
- Galceran, J., de Graaf, K., Tejedor, F. J., Becker, W.:** The MNB/DYRK1A protein kinase: genetic and biochemical properties
- Pollak, D., Cairns, N., Lubec, G.:** Cytoskeleton derangement in brain of patients with Down Syndrome, Alzheimer's disease and Pick's disease
- Unterberger, U., Lubec, G., Dierssen, M., Stoltenburg-Diding, G., Farreras, J. C., Budka, H.:** The cerebral cortex in Fetal Down Syndrome
- Colas, D., London, J., Cespuglio, R., Sarda, N.:** Polysomnography in transgenic hSOD1 mice as Down syndrome model
- Nicham, R., Weitzdörfer, R., Hauser, E., Freidl, M., Schubert, M., Wurst, E., Lubec, G., Seidl, R.:** Spectrum of cognitive, behavioural and emotional problems in children and young adults with Down syndrome
- Ferrando-Miguel, R., Cheon, M. S., Yang, J.-W., Lubec, G.:** Overexpression of transcription factor BACH1 in fetal Down Syndrome brain
- Shapiro, B. L.:** Down syndrome and associated congenital malformations
- Lubec, G., Sohn, S. Y.:** RNA Microarray analysis of channels and transporters in normal and fetal Down Syndrome (trisomy 21) brain
- Cheon, M. S., Kim, S. H., Fountoulakis, M., Lubec, G.:** Heart type fatty acid binding protein (H-FABP) is decreased in brains of patients with Down syndrome and Alzheimer's disease
- Prusa, A-R., Marton, E., Rosner, M., Freilinger, A., Bernaschek, G., Hengstschläger, M.:** Stem cell marker expression in human trisomy 21 amniotic fluid cells and trophoblasts
