

Table of contents

Foreword to the fifth edition <i>CR Blagg</i>	x
List of contributing authors	xii
Introduction to the fifth edition <i>WH Hörl, KM Koch, RM Lindsay, C Ronco and JF Winchester</i>	xx
 SECTION 1: Pathophysiology of the uremic syndrome SECTION EDITOR: WH Hörl	 1
1. Molecular genetic basis of uremia <i>M Födingner and G Sunder-Plassmann</i>	3
2. Uremic toxicity <i>RC Vanholder, R de Smet and NH Lameire</i>	15
3. The uremic syndrome and pathophysiology of chronic renal failure <i>WH Hörl</i>	57
4. Solute transport mechanisms in dialysis <i>T Depner and L Garred</i>	73
5. Optimization of high-flux, hollow-fiber artificial kidneys <i>JK Leyboldt and C Ronco</i>	95
6. Peritoneal anatomy and physiology during peritoneal dialysis <i>RT Krediet</i>	115
7. The biology of hemodialysis <i>S Schmaldienst and WH Hörl</i>	157
8. Pathophysiology of acute renal failure <i>M Bonello, R Ratanarat, G Salvatori, H Oudemans Van-Straaten, R Bellomo and C Ronco</i>	181
 SECTION 2: Technology of dialysis and associated methods SECTION EDITOR: Claudio Ronco	 201
9. Vascular access for hemodialysis <i>B Canaud and S Desmeules</i>	203
10. Peritoneal access and its complications <i>SR Ash</i>	231

11.	Thrombogenesis and anticoagulation in patients undergoing chronic hemodialysis <i>J Böhler and K-G Fischer</i>	259
12.	Hemodialyzers and related devices <i>NA Hoenich, PM Ghezzi and C Ronco</i>	273
13.	Membranes for hemodialysis <i>C Ronco, PM Ghezzi and SK Bowry</i>	301
14.	Hemodialysis machines and monitors <i>H-D Polaschegg and NW Levin</i>	325
15.	Machines for automated peritoneal dialysis <i>C Ronco, M Feriani and R Dell'Aquila</i>	451
16.	Machines for continuous renal replacement therapies <i>C Ronco, R Bellomo and A Brendolan</i>	469
17.	Water treatment for contemporary hemodialysis <i>G Cappelli and P Inguaggiato</i>	491
18.	Solutions for peritoneal dialysis <i>M Feriani, C Ronco and G La Greca</i>	505
19.	Computerized patient record in dialysis practice <i>JA Lorch and VE Pollak</i>	539
20.	Online monitoring and feedback-control <i>RM Lindsay and D Schneditz</i>	555
21.	Hemodialysis fluid composition <i>F Locatelli, S Di Filippo and C Manzoni</i>	585
22.	Adequacy of hemodialysis <i>R Suri and PG Blake</i>	597
23.	Adequate peritoneal dialysis <i>JM Burkart and TA Golper</i>	639
24A.	Dialysis techniques: peritoneal dialysis <i>R Gokal</i>	667
24B.	Dialysis techniques: hemodialysis <i>F Locatelli, C Manzoni and S Di Filippo</i>	679
24C.	Dialysis techniques: continuous renal replacement techniques <i>C Ronco, A Brendolan and R Bellomo</i>	699
24D.	Dialysis techniques: therapeutic plasma exchange and related techniques <i>W Samtleben and MJ Lysaght</i>	709
24E.	Dialysis techniques: hemoperfusion <i>JF Winchester</i>	725
SECTION 3: Clinical aspects of organ failure in dialysis patients SECTION EDITOR: James F. Winchester		737
25.	Blood pressure control in chronic hemodialysis patients <i>GM London, SJ Marchais, AP Guerin and F Metivier</i>	741

<i>Table of contents</i>	vii
26. Cardiac disease in chronic uremia <i>PS Parfrey</i>	765
27. Lipids and atherosclerosis <i>C Wanner</i>	791
27A. Homocysteine and atherosclerosis in dialysis patients <i>G Sunder-Plassmann and M Föding</i>	809
28. Acid–base in dialysis <i>M Feriani, A Fabris and G La Greca</i>	829
29. Pulmonary aspects of dialysis patients <i>ME De Broe, RL Lins and WA De Backer</i>	849
30. Gastrointestinal complications in dialysis patients <i>J Gonin, C Kitiyakara and A Santos</i>	865
31. Neurological and neuromuscular disorders in dialysis patients <i>A Davenport</i>	883
32. Trace elements in dialysis patients <i>PC D’Haese and ME De Broe</i>	903
33. Bleeding disorders in renal failure <i>JF Winchester and RM Lindsay</i>	919
34. Management of anemia in patients with chronic kidney disease <i>WH Hörl</i>	931
35. Impaired cellular host defense and chronic inflammatory abnormalities in end-stage renal disease <i>WH Hörl</i>	965
36. Diseases of the native kidneys in dialysis and transplanted patients <i>N Lameire, R Vanholder, A Dhondt and W Van Biesen</i>	979
37. Endocrine function in uremia <i>MJ Flanagan and V Sy Lim</i>	999
38. Malnutrition and dialysis <i>D Fouque and JD Kopple</i>	1013
39. Beta-2-microglobulin amyloidosis <i>M Jadoul and C van Ypersele de Strihou</i>	1041
40. Renal osteodystrophy <i>F Llach and F Velasquez-Forero</i>	1057
41. Intradialytic complications: pathophysiology, prevention and treatment <i>FM van der Sande, NW Levin, JP Kooman, NA Hoenich and KML Leunissen</i>	1105
42. Peritoneal infections, hernias and related complications <i>R Gokal</i>	1129
SECTION 4: Special clinical situations SECTION EDITOR: Karl M. Koch	1159
43. Preservation of native renal function at different stages of renal impairment <i>N Lameire, W Van Biesen, R Vanholder and D Churchill</i>	1161

44.	Considerations in the management of patients with acute renal failure <i>BA Mueller, MA Kraus, C Ronco and WR Clark</i>	1181
45.	Renal replacement therapy in children <i>BA Warady and TE Bunchman</i>	1203
46.	Dialysis in the elderly <i>I Grapsa and DG Oreopoulos</i>	1227
47.	Pregnancy and dialysis <i>AJ Goody and JG Umans</i>	1249
48.	Renal replacement therapy for diabetic patients <i>Y Woredek and EA Friedman</i>	1259
49.	Social, ethical and legal issues in chronic hemodialysis and transplantation <i>SS Patel and PL Kimmel</i>	1273
50.	Psychiatric aspects of the dialysis patient <i>PG Wilson</i>	1299
51.	Quality of life of the dialysis patient <i>J Ahlmén</i>	1315
52.	Sexual dysfunction in the dialysis patient <i>BF Palmer</i>	1333
53.	Transplantation: integration, patient selection, use of dialysis in transplant patients <i>N Lameire, W van Biesen, R Vanholder, U Frei</i>	1343
54.	Human immunodeficiency virus infection in patients with end-stage renal disease <i>TK Sreepada Rao</i>	1363
55.	Viral hepatitis in dialysis patients <i>M Girndt and H Köhler</i>	1379
SECTION 5: Organization and results of chronic dialysis SECTION EDITOR: R.M. Lindsay		1409
56.	Outcomes in dialysis: a global assessment <i>D Bottalico, FK Port and FP Schena</i>	1411
57.	Economics in dialysis <i>PG Blake and PM Just</i>	1455
58.	Dialysis in the developing world <i>RS Barsoum</i>	1487
59.	Exercise for dialysis patients <i>PL Painter</i>	1497
60.	Assessing the progression of renal disease <i>S Klahr</i>	1505
61.	The design of randomized clinical trials in dialysis patients <i>T Greene, AK Cheung and R Krediet</i>	1521
62.	Management of center hemodialysis programs <i>A Klinger</i>	1543

Table of contents

ix

63. Home hemodialysis <i>RM Lindsay and R Leitch</i>	1553
64. Peritoneal dialysis program management <i>JF Winchester</i>	1567
65A. Telemedicine and dialysis: the desk-top model <i>JW Moncrief</i>	1573
65B. General telemedicine systems <i>JF Winchester</i>	1575
Index	1579

Replacement of Renal Function by Dialysis

Hörl, W.H.; Koch, K.-M.; Lindsay, R.M.; Ronco, C.;
Winchester, J.F. (Eds.)

2004, LXIII, 1604 p., Hardcover

ISBN: 978-1-4020-0083-6
