Preface .....	v
Contributors .....	xi
Color Plates .....	xvii
1 Ribozyme- and siRNA-Mediated mRNA Degradation: <i>A General Introduction</i> <b>Mouldy Sioud</b> .....	1
2 Combination of Chemical and Enzymatic RNA Synthesis <b>Rajesh K. Gaur, Andreas Hanne, and Guido Krupp</b> .....	9
3 Determination of Kinetic Parameters for Hammerhead and Hairpin Ribozymes <b>Martha J. Fedor</b> .....	19
4 Real-Time Monitoring of RNA and DNA Reactions by Fluorescence Detection <b>Kumud K. Singh, Andreas Hanne, and Guido Krupp</b> .....	33
5 Quantification of Ribozyme Target RNA Using Real-Time PCR <b>Dagmar Klein, Camillo Ricordi, and Ricardo L. Pastori</b> .....	49
6 Analysis of Ribozyme Structure and Function by Nucleotide Analog Interference Mapping <b>Soumitra Basu, Catherine Pázsint, and Gopeshwar Chowdhury</b> .....	57
7 Analysis of Global Conformational Transitions in Ribozymes <b>David M. J. Lilley</b> .....	77
8 In Vivo Detection of Ribozyme Cleavage Products and RNA Structure by Use of Terminal Transferase-Dependent PCR <b>Hsiu-Hua Chen, Daniela Castanotto, Jeanne LeBon, John J. Rossi,</b> <b>and Arthur D. Riggs</b> .....	109
9 Identification of Efficient Cleavage Sites in Long-Target RNAs <b>Wei-Hua Pan and Gary A. Clawson</b> .....	125
10 Selection In Vitro of Allosteric Ribozymes <b>Adam Roth and Ronald R. Breaker</b> .....	145
11 Regulation of Ribozyme Cleavage Activity by Oligonucleotides <b>Yasuo Komatsu and Eiko Ohtsuka</b> .....	165
12 Tetracycline-Regulated Expression of Hammerhead Ribozymes In Vivo <b>Emma T. Bowden and Anna T. Riegel</b> .....	179

13	Ribozyme Expression Systems <b>Masayuki Sano and Kazunari Taira</b> .....	195
14	Design and Expression of Chimeric U1/Ribozyme Transgenes <b>Roger Abounader, Robert Montgomery, Harry Dietz, and John Laterra</b> .....	209
15	Design and Validation of Therapeutic Hammerhead Ribozymes for Autosomal Dominant Diseases <b>Jason J. Fritz, Marina Gorbatyuk, Alfred S. Lewin, and William W. Hauswirth</b> .....	221
16	Helicase-Attached Novel Hybrid Ribozymes <b>Hiroaki Kawasaki, Masaki Warashina, Tomoko Kuwabara, and Kazunari Taira</b> .....	237
17	Functional Gene Discovery Using Hybrid Ribozyme Libraries <b>Yoshio Kato, Masaru Tsunemi, Makoto Miyagishi, Hiroaki Kawasaki, and Kazunari Taira</b> .....	245
18	Maxizyme Technology <b>Mayu Iyo, Hiroaki Kawasaki, and Kazunari Taira</b> .....	257
19	Target-Site Selection for the 10–23 DNAzyme <b>Murray J. Cairns and Lun-Quan Sun</b> .....	267
20	In Vitro Selected RNA-Cleaving DNA Enzymes From Combinatorial Libraries <b>Samitabh Chakraborti, Bandi Sriram and Akhil C. Banerjee</b> .....	279
21	Nucleic Acid Sequence Analysis Using DNAzymes <b>Murray J. Cairns and Lun-Quan Sun</b> .....	291
22	Crystallization of the Hairpin Ribozyme: <i>Illustrative Protocols</i> <b>Peter B. Rupert and Adrian R. Ferré-D’Amaré</b> .....	303
23	An Experimental Method for Selecting Effective Target Sites and Designing Hairpin Ribozymes <b>Alicia Barroso-delJesus, Elena Puerta-Fernández, Cristina Romero-López, and Alfredo Berzal-Herranz</b> .....	313
24	Design and Optimization of Sequence-Specific Hairpin Ribozymes <b>Cristina Romero-López, Alicia Barroso-delJesus, Elena Puerta-Fernández, and Alfredo Berzal-Herranz</b> .....	327
25	Design, Targeting, and Initial Screening of sTRSV-Derived Hairpin Ribozymes for Optimum Helix 1 Length and Catalytic Efficiency In Vitro <b>Max W. Richardson, Linda Hostalek, Michelle Dobson, Jason Hu, Richard Shippy, Andrew Siwkowski, Jonathan D. Marmur, Kamel Khalili, Paul E. Klotman, Arnold Hampel, and Jay Rappaport</b> .....	339

26	Optimization and Application of the Group I Ribozyme Trans-Splicing Reaction <b>Christer Einvik, Tonje Fiskaa, Eirik W. Lundblad, and Steinar Johansen</b> .....	359
27	Repair of Myotonic Dystrophy Protein Kinase (DMPK) Transcripts by Trans-Splicing Ribozymes <b>Leonidas A. Phylactou</b> .....	373
28	General Design and Construction of RNase P Ribozymes for Gene-Targeting Application <b>Hua Zou, Karen Chan, Phong Trang, and Fenyong Liu</b> .....	385
29	In Vitro Selection of RNase P Ribozymes That Efficiently Cleave a Target mRNA <b>Kihoon Kim and Fenyong Liu</b> .....	399
30	In Vitro Selection of External Guide Sequences for Directing Human RNase P to Cleave a Target mRNA <b>Stephen Raj and Fenyong Liu</b> .....	413
31	RNase P-Mediated Inhibition of Viral Growth by Exogenous Administration of Short Oligonucleotide External Guide Sequence <b>Walter Dunn and Fenyong Liu</b> .....	425
32	RNase P Ribozyme As an Antiviral Agent Against Human Cytomegalovirus <b>Phong Trang and Fenyong Liu</b> .....	437
33	Inhibition of Gene Expression by Nucleic Acid Enzymes in Rodent Models of Human Disease <b>Per Ole Iversen and Mouldy Sioud</b> .....	451
34	Potential Design Rules and Enzymatic Synthesis of siRNAs <b>Mouldy Sioud and Marianne Leirdal</b> .....	457
35	RNA Interference (RNAi) With RNase III-Prepared siRNAs <b>Dun Yang, Andrei Goga, and J. Michael Bishop</b> .....	471
36	RNAi Expression Vectors in Mammalian Cells <b>Makoto Miyagishi and Kazunari Taira</b> .....	483
37	Gene-Array Analysis of Glioma Cells After Treatment With Anti-PKC- $\alpha$ siRNA <b>Marianne Leirdal and Mouldy Sioud</b> .....	493
38	RNAi in Living Mice <b>Hidetoshi Hasuwa and Masaru Okabe</b> .....	501
39	Construction and Transfection of PCR Products Expressing siRNAs or shRNAs in Mammalian Cells <b>Daniela Castanotto and John J. Rossi</b> .....	509

40	Systemic Delivery of siRNAs <b>Mouldy Sioud and Dag R. Sørensen</b> .....	515
41	Adenovirus-Delivered siRNA <b>Changxian Shen and Sven N. Reske</b> .....	523
42	RNAi Expression Vectors in Plant Cells <b>Hideo Akashi, Makoto Miyagishi, and Kazunari Taira</b> .....	533
43	Delivery Agents for Oligonucleotides <b>Olivier Seksek and Jacques Bolard</b> .....	545
44	Selection of Peptides for Specific Delivery of Oligonucleotides Into Cancer Cells <b>Mohsen Shadidi and Mouldy Sioud</b> .....	569
45	Clinical Gene Therapy Research Utilizing Ribozymes: <i>Application to the Treatment of HIV/AIDS</i> <b>Frances K. Ngok, Ronald T. Mitsuyasu, Janet L. Macpherson, Maureen P. Boyd, Geoff P. Symonds, and Rafael G. Amado</b> .....	581
46	Critical Steps in the Implementation of Hematopoietic Progenitor-Cell Gene Therapy Using Ribozyme Vectors: <i>A Laboratory Protocol</i> <b>Maureen P. Boyd, Frances K. Ngok, Alison V. Todd, Geoff P. Symonds, Janet L. Macpherson, and Rafael G. Amado</b> .....	599
Index	.....	617
