Preface v
Contributors ix

Part I. Basic Research

1 Introduction to Hematopoietic Growth Factors: *A General Overview* 3
George Morstyn and MaryAnn Foote

2 Animal Models of Hematopoietic Growth Factor Perturbations in Physiology and Pathology 11
Graham J. Lieschke

3 The Jak/Stat Pathway of Cytokine Signaling 45
Ben A. Croker and Nicos A. Nicola

4 Small-Molecule and Peptide Agonists: *A Literature Review* 65
Ellen G. Laber and C. Glenn Begley

Part II. Hematopoietic Growth Factors

5 Granulocyte Colony-Stimulating Factor 83
Graham Molineux

6 Erythropoietic Factors: *Clinical Pharmacology and Pharmacokinetics* 97
Steven Elliott, Anne C. Heatherington, and MaryAnn Foote

7 Thrombopoietin Factors 125
David J. Kuter

8 Stem Cell Factor and Its Receptor, c-Kit 153
Keith E. Langley

9 Hematopoietic Growth Factors: *Preclinical Studies of Myeloid and Immune Reconstitution* 185
Ann M. Farese and Thomas J. MacVittie

Part III. Use of Hematopoietic Growth Factors in Oncology

10 Commentary on the ASCO and ESMO Evidence-Based Clinical Practice Guidelines for the Use of Hematopoietic Colony-Stimulating Factors 211
Richard M. Fox

11 Neutropenia and the Problem of Fever and Infection in Patients With Cancer 219
David C. Dale

12 Thrombocytopenia and Platelet Transfusions in Patients With Cancer 235
Lawrence T. Goodnough

13 Hematopoietic Growth Factors in Lung Cancer 249
Johan F. Vansteenkiste and Christophe A. Dooms

14 Role of Hematopoietic Growth Factors As Adjuncts to the Treatment of Hodgkin's and Non-Hodgkin's Lymphomas 275
Marcie R. Tomblyn and Jane N. Winter

15 Use of Granulocyte Growth Factors in Breast Cancer 285
Eric D. Mininberg and Frankie Ann Holmes

16 Role of Cytokines in the Management of Chronic Lymphocytic Leukemia 311
Carol Ann Long

17 Hematopoietic Growth Factor Therapy for Myelodysplastic Syndromes and Aplastic Anemia 333
Jason Gotlib and Peter L. Greenberg

18 Use of Hematopoietic Growth Factors in AIDS-Related Malignancies 357
MaryAnn Foote

Part IV. Safety and Economic Implications

19 The Safety of Hematopoietic Growth Factors 375
Roy E. Smith and Barbara C. Good

20 Long-Term Safety of Filgrastim in Chronic Neutropenias 395
Karl Welte

21 Economics of Hematopoietic Growth Factors 409
Gary H. Lyman and Nicole M. Kuderer

Part V. Future Directions

22 Potential for Hematopoietic Growth Factor Antagonists in Oncology 447
Hayley S. Ramshaw, Timothy R. Hercus, Ian N. Olver, and Angel F. Lopez
