

Contents

Preface	v
Contributors	xiii
1 Using Chromatin Immunoprecipitation to Map Cotranscriptional mRNA Processing in <i>Saccharomyces cerevisiae</i> Michael-Christopher Keogh and Stephen Buratowski	1
2 Identifying PhosphoCTD-Associating Proteins Hemali P. Phatnani and Arno L. Greenleaf	17
3 Imaging Alternative Splicing in Living Cells Eric J. Wagner, Andrea Baines, Todd Albrecht, Robert M. Brazas, and Mariano A. Garcia-Blanco	29
4 Tobramycin Affinity Tag Purification of Spliceosomes Klaus Hartmuth, Hans-Peter Vornlocher, and Reinhard Lührmann	47
5 Using Single-Strand Conformational Polymorphism Gel Electrophoresis to Analyze Mutually Exclusive Alternative Splicing Alicia M. Celotto and Brenton R. Graveley	65
6 Methods for the Analysis of Adenosine-to-Inosine Editing in RNA Zuo Zhang and Gordon G. Carmichael	75
7 Assaying Nuclear Messenger RNA Export in Human Cells Bryan R. Cullen	85
8 RNA Unwinding Assay for DExD/H-Box RNA Helicases Stephanie S. Tseng-Rogenski and Tien-Hsien Chang	93
9 Approaches for Monitoring Nuclear Translation Francisco J. Iborra, Dean A. Jackson, and Peter R. Cook	103
10 Immunopurification and Analysis of Protein and RNA Components of mRNP in Mammalian Cells Fabrice Lejeune and Lynne E. Maquat	115
11 Gene Expression Analysis of Messenger RNP Complexes Luiz O. F. Penalva, Scott A. Tenenbaum, and Jack D. Keene	125
12 Using the λ N Peptide to Tether Proteins to RNAs Julie Baron-Benhamou, Niels H. Gehring, Andreas E. Kulozik, and Matthias W. Hentze	135

13	An Efficient System for Cap- and Poly(A)-Dependent Translation In Vitro Yuri V. Svitkin and Nahum Sonenberg	155
14	A Poly(A) Tail-Responsive In Vitro System for Cap- or IRES-Driven Translation From HeLa Cells Christian Thoma, Antje Ostareck-Lederer, and Matthias W. Hentze	171
15	Assessing Messenger RNA Decapping in Cellular Extracts Naomi Bergman, Joseph Milone, Elizabeth J. Bates, Mateusz Opyrchal, Vivian Bellofatto, and Jeffrey Wilusz	181
16	Analysis of RNA Exonucleolytic Activities in Cellular Extracts Devi Mukherjee, David T. Fritz, Walter J. Kilpatrick, Min Gao, and Jeffrey Wilusz	193
17	Application of Ligation-Mediated Reverse Transcription Polymerase Chain Reaction to the Identification of In Vivo Endonuclease-Generated Messenger RNA Decay Intermediates Mark N. Hanson and Daniel R. Schoenberg	213
18	Biochemical Dissection of RNA Silencing in Plants Guiliang Tang and Phillip D. Zamore	223
19	RNA Interference of mRNA Processing Factors in <i>Drosophila</i> S2 Cells Alicia M. Celotto and Brenton R. Graveley	245
20	RNA Interference by Short Hairpin RNAs Expressed in Vertebrate Cells Gregory J. Hannon and Douglas S. Conklin	255
	Index	267
