
Contents

Preface	v
Contributors	xi
1 Technical Considerations in Quantitating Gene Expression <i>Richard A. Shimkets</i>	1
2 Gene Expression Quantitation Technology Summary <i>Richard A. Shimkets</i>	7
3 Standardized RT-PCR and the Standardized Expression Measurement Center <i>James C. Willey, Erin L. Crawford, Charles R. Knight, K. A. Warner, Cheryl A. Motten, Elizabeth A. Herness, Robert J. Zahorchak, and Timothy G. Graves</i>	13
4 GeneCalling: Transcript Profiling Coupled to a Gene Database Query <i>Richard A. Shimkets</i>	43
5 Invader Assay for RNA Quantitation <i>Marilyn C. Olson, Tsetska Takova, LuAnne Chehak, Michelle L. Curtis, Sarah M. Olson, and Robert W. Kwiatkowski</i>	53
6 Monitoring Eukaryotic Gene Expression Using Oligonucleotide Microarrays <i>Jennifer Lescallett, Marina E. Chicurel, Robert Lipshutz, and Dennise D. Dalma-Weiszhausz</i>	71
7 Amplified Differential Gene Expression Microarray <i>Zhijian J. Chen and Kenneth D. Tew</i>	95
8 Suppression Subtractive Hybridization <i>Denis V. Rebrikov, Sejal M. Desai, Paul D. Siebart, and Sergey A. Lukyanov</i>	107
9 Small Amplified RNA-SAGE <i>Catheline Vilain and Gilbert Vassart</i>	135
10 Gene Expression Informatics <i>Martin D. Leach</i>	153
Index	167
