

Table of Contents

Section I: Fundamentals of Agent Communication

Conventional Signalling Acts and Conversation	1
<i>Andrew J.I. Jones and Xavier Parent</i>	
An Empirical Model of Communication in Multiagent Systems.....	18
<i>Michael Rovatsos, Matthias Nickles, and Gerhard Weiss</i>	
An Exploration in Using Cognitive Coherence Theory to Automate BDI Agents' Communicational Behavior	37
<i>Philippe Pasquier, Nicolas Andrillon, Marc-André Labrie, and Brahim Chaib-draa</i>	
A Performative Type Hierarchy and Other Interesting Considerations in the Design of the CASA Agent Architecture	59
<i>Rob Kremer, Roberto Flores, and Chad La Fournie</i>	
Model Checking for ACL Compliance Verification	75
<i>Marc-Philippe Huget and Michael Wooldridge</i>	
Logic-Based Agent Communication Protocols	91
<i>Ulle Endriss, Nicolas Maudet, Fariba Sadri, and Francesca Toni</i>	

Section II: Agent Communication and Commitments

Protocol Specification Using a Commitment Based ACL	108
<i>Nicoletta Fornara and Marco Colombetti</i>	
A Logical Model of Social Commitment for Agent Communication	128
<i>Mario Verdicchio and Marco Colombetti</i>	
Commitment and Argument Network: A New Formalism for Agent Communication	146
<i>Jamal Bentahar, Bernard Moulin, and Brahim Chaib-draa</i>	
Resolving Commitments among Autonomous Agents	166
<i>Ashok U. Mallya, Pinar Yolum, and Munindar P. Singh</i>	
Nonmonotonic Commitment Machines	183
<i>Amit Chopra and Munindar P. Singh</i>	

Section III: Communication within Groups of Agents

Issues in Multiparty Dialogues	201
<i>David Traum</i>	
Towards a Testbed for Multi-party Dialogues	212
<i>Frank P.M. Dignum and Gerard A.W. Vreeswijk</i>	
Intra-role Coordination Using Group Communication: A Preliminary Report	231
<i>Paolo Busetta, Mattia Merzi, Silvia Rossi, and François Legras</i>	
LOTTO: Group Formation by Overhearing in Large Teams	254
<i>François Legras and Catherine Tessier</i>	
Proactive Communications in Agent Teamwork	271
<i>John Yen, Xiaocong Fan, and Richard A. Volz</i>	

Section IV: Dialogues

Modularity in Interaction Protocols	291
<i>Benjamin Vitteau and Marc-Philippe Huget</i>	
Concepts of Optimal Utterance in Dialogue: Selection and Complexity . . .	310
<i>Paul E. Dunne and Peter McBurney</i>	
The Mechanics of Some Formal Inter-agent Dialogues	329
<i>Simon Parsons, Peter McBurney, and Michael Wooldridge</i>	
A Cooperative Dialogue Game for Resolving Ontological Discrepancies . . .	349
<i>Robbert-Jan Beun and Rogier M. van Eijk</i>	
The Posit Spaces Protocol for Multi-agent Negotiation	364
<i>Peter McBurney and Simon Parsons</i>	
On Interest-Based Negotiation	383
<i>Iyad Rahwan, Liz Sonenberg, and Frank P.M. Dignum</i>	
Author Index	403
