

Table of Contents

Invited Paper

Formal Analysis of Processor Timing Models	1
<i>Reinhard Wilhelm</i>	

Heuristics and Probabilities

Typical Structural Properties of State Spaces	5
<i>Radek Pelánek</i>	

State Caching Reconsidered	23
<i>Jaco Geldenhuys</i>	

Directed Error Detection in C++ with the Assembly-Level Model Checker StEAM	39
<i>Peter Leven, Tilman Mehler, Stefan Edelkamp</i>	

Fast and Accurate Bitstate Verification for SPIN	57
<i>Peter C. Dillinger, Panagiotis Manolios</i>	

Improvements of SPIN

Model-Driven Software Verification	76
<i>Gerard J. Holzmann, Rajeev Joshi</i>	

Minimization of Counterexamples in SPIN	92
<i>Paul Gastin, Pierre Moro, Marc Zeitoun</i>	

Validation of Timed Systems

Black-Box Conformance Testing for Real-Time Systems	109
<i>Moez Krichen, Stavros Tripakis</i>	

Validation of UML Models via a Mapping to Communicating Extended Timed Automata	127
<i>Iulian Ober, Susanne Graf, Ileana Ober</i>	

Tool Papers

Explicit State Model Checking with Hopper	146
<i>Michael Jones, Eric Mercer</i>	

SEQ.OPEN: A Tool for Efficient Trace-Based Verification	151
<i>Hubert Garavel, Radu Mateescu</i>	

Model Checking Genetic Regulatory Networks Using GNA and CADP ..	158
<i>Grégory Batt, Damien Bergamini, Hidde de Jong, Hubert Garavel, Radu Mateescu</i>	

Abstraction and Symbolic Methods

Verification of Java Programs Using Symbolic Execution and Invariant Generation	164
<i>Corina S. Păsăreanu, Willem Visser</i>	
Polynomial Time Image Computation with Interval-Definable Counters Systems	182
<i>Alain Finkel, Jérôme Leroux</i>	
Using Fairness to Make Abstractions Work	198
<i>Dragan Bošnački, Natalia Ioustinova, Natalia Sidorova</i>	
A Scalable Incomplete Test for Message Buffer Overflow in Promela Models	216
<i>Stefan Leue, Richard Mayr, Wei Wei</i>	

Applications

Translation from Adapted UML to Promela for CORBA-Based Applications	234
<i>J. Chen, H. Cui</i>	
Verifying Commit-Atomicity Using Model-Checking	252
<i>Cormac Flanagan</i>	
Analysis of Distributed Spin Applied to Industrial-Scale Models	267
<i>Murali Rangarajan, Samar Dajani-Brown, Kirk Schloegel, Darren Cofer</i>	
Verification of MPI-Based Software for Scientific Computation	286
<i>Stephen F. Siegel, George S. Avrunin</i>	

Tutorials

Advanced SPIN Tutorial	304
<i>Theo C. Ruys, Gerard J. Holzmann</i>	
IF Validation Environment Tutorial	306
<i>Marius Bozga, Susanne Graf, Laurent Mounier, Iulian Ober</i>	

Author Index	309
