

# Table of Contents

## Keynote Papers

From Information Retrieval to Information Interaction . . . . .	1
<i>Gary Marchionini</i>	
IR and AI: Traditions of Representation and Anti-representation in Information Processing . . . . .	12
<i>Yorick Wilks</i>	

## User Studies

A User-Centered Approach to Evaluating Topic Models . . . . .	27
<i>Diane Kelly, Fernando Diaz, Nicholas J. Belkin, James Allan</i>	
A Study of User Interaction with a Concept-Based Interactive Query Expansion Support Tool . . . . .	42
<i>Hideo Joho, Mark Sanderson, Micheline Beaulieu</i>	
Searcher's Assessments of Task Complexity for Web Searching . . . . .	57
<i>David J. Bell, Ian Ruthven</i>	

## Question Answering

Evaluating Passage Retrieval Approaches for Question Answering . . . . .	72
<i>Ian Roberts, Robert Gaizauskas</i>	
Identification of Relevant and Novel Sentences Using Reference Corpus . . . . .	85
<i>Hsin-Hsi Chen, Ming-Feng Tsai, Ming-Hung Hsu</i>	
Answer Selection in a Multi-stream Open Domain Question Answering System . . . . .	99
<i>Valentin Jijkoun, Maarten de Rijke</i>	

## Information Models

A Bidimensional View of Documents for Text Categorisation . . . . .	112
<i>Giorgio Maria Di Nunzio</i>	
Query Difficulty, Robustness, and Selective Application of Query Expansion . . . . .	127
<i>Giambattista Amati, Claudio Carpineto, Giovanni Romano</i>	

Combining CORI and the Decision-Theoretic Approach for Advanced Resource Selection .....	138
<i>Henrik Nottelmann, Norbert Fuhr</i>	

Predictive Top-Down Knowledge Improves Neural Exploratory Bottom-Up Clustering .....	154
<i>Chihli Hung, Stefan Wermter, Peter Smith</i>	

## Classification

Contextual Document Clustering.....	167
<i>Vladimir Dobrynin, David Patterson, Niall Rooney</i>	

Complex Linguistic Features for Text Classification: A Comprehensive Study .....	181
<i>Alessandro Moschitti, Roberto Basili</i>	

Eliminating High-Degree Biased Character Bigrams for Dimensionality Reduction in Chinese Text Categorization .....	197
<i>Dejun Xue, Maosong Sun</i>	

## Summarization

Broadcast News Gisting Using Lexical Cohesion Analysis .....	209
<i>Nicola Stokes, Eamonn Newman, Joe Carthy, Alan F. Smeaton</i>	

From Text Summarisation to Style-Specific Summarisation for Broadcast News .....	223
<i>Heidi Christensen, BalaKrishna Kolluru, Yoshihiko Gotoh, Steve Renals</i>	

## Image Retrieval

Relevance Feedback for Cross Language Image Retrieval .....	238
<i>Paul Clough, Mark Sanderson</i>	

NN <sup>k</sup> Networks for Content-Based Image Retrieval .....	253
<i>Daniel Heesch, Stefan Rüger</i>	

Integrating Perceptual Signal Features within a Multi-faceted Conceptual Model for Automatic Image Retrieval .....	267
<i>Mohammed Belkhatir, Philippe Mulhem, Yves Chiaramella</i>	

## Evaluation Issues

Improving Retrieval Effectiveness by Reranking Documents Based on Controlled Vocabulary .....	283
<i>Jaap Kamps</i>	

A Study of the Assessment of Relevance for the INEX'02 Test Collection .....	296
<i>Gabriella Kazai, Shereezad Masood, Mounia Lalmas</i>	
A Simulated Study of Implicit Feedback Models .....	311
<i>Ryen W. White, Joemon M. Jose, C.J. van Rijsbergen, Ian Ruthven</i>	
<b>Cross Language IR</b>	
Cross-Language Information Retrieval Using EuroWordNet and Word Sense Disambiguation .....	327
<i>Paul Clough, Mark Stevenson</i>	
Fault-Tolerant Fulltext Information Retrieval in Digital Multilingual Encyclopedias with Weighted Pattern Morphing .....	338
<i>Wolfram M. Esser</i>	
Measuring a Cross Language Image Retrieval System .....	353
<i>Mark Sanderson, Paul Clough, Catherine Paterson, Wai Tung Lo</i>	
<b>Web-Based and XML IR</b>	
An Optimistic Model for Searching Web Directories .....	364
<i>Fidel Cacheda, Ricardo Baeza-Yates</i>	
Content-Aware DataGuides: Interleaving IR and DB Indexing Techniques for Efficient Retrieval of Textual XML Data .....	378
<i>Felix Weigel, Holger Meuss, François Bry, Klaus U. Schulz</i>	
Performance Analysis of Distributed Architectures to Index One Terabyte of Text .....	394
<i>Fidel Cacheda, Vassilis Plachouras, Iadh Ounis</i>	
Applying the Divergence from Randomness Approach for Content-Only Search in XML Documents .....	409
<i>Mohammad Abolhassani, Norbert Fuhr</i>	
<b>Author Index</b> .....	421

Advances in Information Retrieval

26th European Conference on IR Research, ECIR 2004,

Sunderland, UK, April 5-7, 2004, Proceedings

McDonald, S.; Tait, J. (Eds.)

2004, XIV, 426 p., Softcover

ISBN: 978-3-540-21382-6
