

Contents

Introduction to Workflow Management.....	1
1.1 Concepts.....	1
1.1.1 Process, Business Process	1
1.1.2 Workflow Management, Workflow Management System.....	2
1.1.3 Types of Workflow	3
1.2 The History of Workflow Management.....	4
1.3 Integrated vs. Inherent Workflow Management Systems	5
1.4 Application Areas and Objectives in Practice.....	9
1.5 Standardising the Workflow Environment.....	11
1.5.1 Workflow Management Coalition.....	11
1.5.2 Business Process Management Initiative	13
1.6 Other Relevant Aspects.....	13
1.6.1 Business Process Reengineering and the Workflow Life Cycle	13
1.6.2 Document Management/Archiving.....	15
 2 A Process Model in the Context of SAP WebFlow.....	 17
2.1 Technical vs. Organisational Workflow Projects.....	17
2.2 The Process Model for an Organisational Workflow Project	19
2.2.1 Requirements Analysis / Strategy Phase.....	20
2.2.2 Process Analysis and Optimisation Phase.....	21
2.2.3 Technical Implementation, Implementation and Test Phases	22
2.2.4 Production Phase.....	23
2.2.5 Typical Mistakes.....	23
2.3 Software Development Tools.....	24
 3 SAP WebFlow: A Technical Introduction	 27
3.1 Introduction.....	27
3.2 Business Workplace.....	29
3.2.1 Workflow Settings	31
3.2.2 Remote Worklist	32
3.3 Workflow Definitions in SAP.....	32
3.4 Workflow Builder.....	33
3.5 Step Types in a Workflow Definition	37
3.5.1 Activity/Web activity	39
3.5.2 Document from template	42
3.5.3 Event Creator	43
3.5.4 Wait for event	45
3.5.5 Process control.....	46
3.5.6 Container operation.....	48
3.5.7 User decision.....	49

3.5.8 Condition	50
3.5.9 Multiple condition.....	52
3.5.10 UNTIL loop	54
3.5.11 WHILE loop.....	56
3.5.12 Fork.....	58
3.6 Business Objects	59
3.6.1 Business Object Repository	60
3.6.2 Object Type Structure	62
3.6.2.1 Interfaces.....	63
3.6.2.2 Key fields.....	63
3.6.2.3 Attributes.....	63
3.6.2.4 Methods.....	65
3.6.2.5 Events.....	67
3.6.3 Event Receiver Linkage	67
3.6.4 Event Creation	69
3.6.5 Run Time Tools	71
3.7 Containers	72
3.8 Organisational Plan.....	75
3.8.1 Organisational Units	75
3.8.2 Staff Assignments	76
3.9 Roles	77
3.9.1 Defining Roles	78
3.9.2 Role Resolution.....	78
3.10 Workflow.....	79
3.10.1 Starting Workflows.....	79
3.10.2 The Workflow Runtime System.....	82
3.10.3 Workflow Wizards.....	83
3.10.4 Workflow Information System	86
3.11 Administration and Reporting.....	87
3.12 Customising	89
4 Workflow Implementation: An Example.....	93
4.1 General Representation of the Business Process.....	94
4.2 Implementing Transactions for the Example Scenario	96
4.3 Organisational Plan.....	99
4.4 Implementation of the Business Object ZSI	100
4.5 Implementation of the Suggested Improvement Workflow	103
4.6 Real Life Example of the Suggested Improvement Process	108
5 Interfaces for SAP WebFlow	113
5.1 Initial Remarks.....	113
5.2 Interfaces to Mail Systems.....	113
5.2.1 Problem Definition.....	113
5.2.2 Internet Mail Enabling of the SAP System	114
5.2.3 Connecting MAPI Enabled Applications.....	116
5.2.4 Connecting with Lotus Notes.....	118

5.3 Connecting Forms to SAP WebFlow	119
5.3.1 Introduction.....	119
5.3.2 Electronic Forms	121
5.3.3 Web Forms.....	122
6 Common Technical Problem Areas.....	125
6.1 Transports to the Production System	125
6.2 Error Analysis	126
6.3 Archiving in the Workflow Context	127
7 Real Life Examples / Best Practice.....	131
7.1 Maintaining Master Data	131
7.1.1 Problem Definition.....	131
7.1.2 Critical Success Factors for the Workflow Implementation	134
7.1.3 Technical Approach	135
7.1.4 Cost/Benefit	136
7.1.5 Flexible Workflow Design.....	137
7.1.6 Hints for Workflow Development	139
7.2 Invoice Verification: Three Approaches	140
7.2.1 Problem Definition.....	140
7.2.2 Initial Concepts in Invoice Verification	142
7.2.3 Critical Success Factors for the Workflow Implementation	143
7.2.4 Technical Approach: Using the Standard System	145
7.2.5 Technical Approach: A Customised Solution.....	148
7.2.6 Technical Approach: A Middle Way	148
7.2.7 Cost/Benefit	149
7.2.8 Hints for Workflow Development	152
7.2.9 Archiving System Hints	153
7.3 Procurement Workflows	154
7.3.1 Problem Definition.....	154
7.3.2 Critical Success Factors for the Implementation.....	156
7.3.3 Technical Approach	157
7.3.4 Cost/Benefit	161
7.3.5 Hints for Workflow Development	162
7.4 Information Workflows: Little Effort, High Benefit.....	163
7.4.1 Problem Definition.....	163
7.4.2 Critical Success Factors for the Workflow Implementation	164
7.4.3 Technical Approach	164
7.4.4 Cost/Benefit	165
7.4.5 Hints for Workflow Development	167
7.5 Workflows for Background Automation	169
7.5.1 Problem Definition.....	169
7.5.2 Critical Success Factors for the Workflow Implementation	169
7.5.3 Technical Approach	169
7.5.4 Cost/Benefit	170
7.5.5 Flexible Workflow Design.....	171

7.5.6 Hints for Workflow Development	171
8 An Overview of Workflow Examples.....	173
8.1 Examples of Workflow in Industry Solutions.....	173
8.1.1 Preliminary Remarks.....	173
8.1.2 Workflows in IS-RE.....	173
8.2 Workflows in BBP/EBP	175
8.2.1 Introduction.....	175
8.2.2 Workflow Elements in EBP.....	177
8.2.3 Critical Success Factors for the Workflow Implementation	178
8.2.4 Technical Characteristics	179
8.2.5 Cost/Benefit	181
8.2.6 Hints for Workflow Development	181
8.3 Workflows in ESS.....	182
8.3.1 Introduction.....	182
8.3.2 Workflow Elements in ESS	183
8.3.3 Cost/Benefit	183
8.3.4 Hints for Workflow Development	183
8.4 Workflows for IDoc Error Processing	184
9 Conclusion	187
10 Appendix: SAP WebFlow - Toolkit.....	189
10.1 Process Analysis Results.....	189
10.2 Checklist for the Project Start/Project Kick Off.....	195
10.3 Workflow Design Guidelines.....	200
10.4 Quality Assurance Checklist.....	202
10.5 Workflow Administration Checklist	203
10.6 Naming Conventions.....	206
10.7 Important Release Developments	210
10.8 The Most Important Workflow Transaction Codes	213
10.9 Technical Documentation of Workflow Implementations	215
10.10 Help and Sources of Information for SAP WebFlow.....	217
Glossary	219
Abbreviations	249
About the authors	251
References.....	253
Index	255
