

Table of Contents

Specification and Synthesis

Specifying Compositional Units for Correct Program Development in Computational Logic	1
<i>Kung-Kiu Lau and Mario Ornaghi</i>	

Synthesis of Programs in Computational Logic	30
<i>David Basin, Yves Deville, Pierre Flener, Andreas Hamfelt, and Jørgen Fischer Nilsson</i>	

Developing Logic Programs from Specifications Using Stepwise Refinement	66
<i>Robert Colvin, Lindsay Groves, Ian J. Hayes, David Hemer, Ray Nickson, and Paul Strooper</i>	

Semantics

Declarative Semantics of Input Consuming Logic Programs	90
<i>Annalisa Bossi, Nicoletta Cocco, Sandro Etalle, and Sabina Rossi</i>	

On the Semantics of Logic Program Composition	115
<i>Antonio Brogi</i>	

Analysis

Analysing Logic Programs by Reasoning Backwards	152
<i>Jacob M. Howe, Andy King, and Lunjin Lu</i>	

Binding Time Analysis for Mercury	189
<i>Wim Vanhoof, Maurice Bruynooghe, and Michael Leuschel</i>	

A Generic Framework for Context-Sensitive Analysis of Modular Programs	233
<i>Germán Puebla, Jesús Correias, Manuel V. Hermenegildo, Francisco Bueno, María García de la Banda, Kim Marriott, and Peter J. Stuckey</i>	

Transformation and Specialisation

Unfold/Fold Transformations for Automated Verification of Parameterized Concurrent Systems	261
<i>Abhik Roychoudhury and C.R. Ramakrishnan</i>	

VIII Table of Contents

Transformation Rules for Locally Stratified Constraint Logic Programs . .	291
<i>Fabio Fioravanti, Alberto Pettorossi, and Maurizio Proietti</i>	

Specialising Interpreters Using Offline Partial Deduction	340
<i>Michael Leuschel, Stephen J. Craig, Maurice Bruynooghe, and Wim Vanhoof</i>	

Termination

Characterisations of Termination in Logic Programming	376
<i>Dino Pedreschi, Salvatore Ruggieri, and Jan-Georg Smaus</i>	

On the Inference of Natural Level Mappings	432
<i>Jonathan C. Martin and Andy King</i>	

Proving Termination for Logic Programs by the Query-Mapping Pairs Approach	453
<i>Naomi Lindenstrauss, Yehoshua Sagiv, and Alexander Serebrenik</i>	

Systems

Herbrand Constraint Solving in HAL	499
<i>Bart Demoen, María García de la Banda, Warwick Harvey, Kim Marriott, David Overton, and Peter J. Stuckey</i>	

Author Index	539
