

Preface

This volume contains the papers accepted for publication at IPCO X, the Tenth International Conference on Integer Programming and Combinatorial Optimization, held in New York City, New York, USA, June 7–11, 2004. The IPCO series of conferences presents recent results in theory, computation and applications of integer programming and combinatorial optimization.

These conferences are sponsored by the Mathematical Programming Society, and are held in those years in which no International Symposium on Mathematical Programming takes place. IPCO VIII was held in Utrecht (The Netherlands) and IPCO IX was held in Cambridge (USA).

A total of 109 abstracts, mostly of very high quality, were submitted. The Program Committee accepted 32, in order to meet the goal of having three days of talks with no parallel sessions. Thus, many excellent abstracts could not be accepted.

The papers in this volume have not been refereed. It is expected that revised versions of the accepted papers will be submitted to standard scientific journals for publication.

The Program Committee thanks all authors of submitted manuscripts for their support of IPCO.

March 2004

George Nemhauser
Daniel Bienstock

Organization

IPCO X was hosted by the Computational Optimization Research Center (CORC), Columbia University.

Program Committee

Egon Balas
Daniel Bienstock
Robert E. Bixby
William Cook
Gerard Cornuéjols
William Cunningham
Bert Gerards
Ravi Kannan
George Nemhauser, Chair
William Pulleyblank
Laurence A. Wolsey

Organizing Committee

Daniel Bienstock, Chair
Garud Iyengar
Jay Sethuraman
Cliff Stein

Sponsoring Institutions

Bob and Betty Bixby
IBM
ILOG
The Fu Foundation School of Engineering and Applied Science, Columbia University
