

# Preface

This volume contains the contributed papers and invited talks presented at the 1st International Workshop on Algorithmic Aspects of Wireless Sensor Networks (ALGOSENSORS 2004), which was held July 16, 2004, in Turku, Finland, co-located with the 31st International Colloquium on Automata, Languages, and Programming (ICALP 2004).

Wireless ad hoc sensor networks have become a very important research subject due to their potential to provide diverse services in numerous applications. The realization of sensor networks requires intensive technical research and development efforts, especially in power-aware scalable wireless ad hoc communications protocols, due to their unusual application requirements and severe constraints.

On the other hand, a solid theoretical background seems necessary for sensor networks to achieve their full potential. It is an algorithmic challenge to achieve efficient and robust realizations of such large, highly dynamic, complex, non-conventional networking environments. Features, including the huge number of sensor devices involved, the severe power, computational and memory limitations, their dense deployment and frequent failures, pose new design, analysis and implementation challenges.

This event is intended to provide a forum for researchers and practitioners to present their contributions related to all aspects of wireless sensor networks.

Topics of interest for ALGOSENSORS 2004 were:

- Modeling of specific sensor networks.
- Methods for ad hoc deployment.
- Algorithms for sensor localization and tracking of mobile users.
- Dynamic sensor networks.
- Hierarchical clustering architectures.
- Attribute-based named networks.
- Routing: implosion issues and resource management.
- Communication protocols.
- Media access control in sensor networks.
- Simulators for sensor networks.
- Sensor architecture.
- Energy issues.

This volume contains 2 invited papers related to corresponding keynote talks, one by Viktor Prasanna (University of Southern California, USA) and one by Paul Spirakis (University of Patras and Computer Technology Institute, Greece) and 15 contributed papers that were selected by the Program Committee (PC) from 40 submitted papers. Each paper was reviewed by at least 2 PC members, while a total of 99 reviews were solicited.

We would like to thank all the authors who submitted papers to ALGOSENSORS 2004, the members of the Program Committee, as well as the

external referees. Also we thank the members of the Organizing Committee. We especially wish to thank Prof. Dr. Jan van Leeuwen for valuable comments.

We gratefully acknowledge the support from the Research Academic Computer Technology Institute (RACTI, Greece, <http://www.cti.gr>), and the Athens Information Technology (AIT, Greece, <http://www.ait.gr>) Center of Excellence for Research and Graduate Education. Also, we thank the European Union (EU) IST/FET (“Future and Emerging Technologies”) R&D Projects of the Global Computing (GC) Proactive Initiative FLAGS (IST-2001-33116, “Foundational Aspects of Global Computing Systems”) and CRESCCO (IST-2001-33135, “Critical Resource Sharing for Cooperation in Complex Systems”) for supporting ALGOSENSORS 2004. Finally, we wish to thank Springer-Verlag, Lecture Notes in Computer Science (LNCS), and in particular Alfred Hofmann, as well as Anna Kramer and Ingrid Beyer, for a very nice and efficient cooperation.

July 16, 2004

Sotiris Nikolettseas and Jose Rolim

# Organization

## Program and General Committee Co-chairs

Sotiris Nikolettseas	Patras University and Computer Technology Institute, Greece
Jose Rolim	Geneva University, Switzerland

## Program Committee

Ian Akyildiz	Georgia Institute of Technology, USA
Azzedine Boukerche	University of Ottawa, Canada
Deborah Estrin	University of California Los Angeles, USA
Afonso Ferreira	CNRS, I3S Inria Sophia Antipolis, France
Alfredo Ferro	University of Catania, Italy
Wendi Heinzelman	University of Rochester, USA
Chalermek Intanagonwiwat	Chulalongkorn University, Thailand
Elias Koutsoupias	University of Athens, Greece
Bhaskar Krishnamachari	University of Southern California, USA
Stefano Leonardi	University of Rome “La Sapienza”, Italy
Sotiris Nikolettseas	University of Patras and CTI, Greece
Viktor Prasanna	University of Southern California, USA
Jose Rolim	University of Geneva, Switzerland
Peter Sanders	Max Planck Institute for CS, Germany
Maria Serna	Polytechnic University of Catalunya, Spain
Christian Schindelhauer	University of Paderborn, Germany
Paul Spirakis	University of Patras and CTI, Greece
Peter Triantafilloy	University of Patras and CTI, Greece
Eli Upfal	Brown University, USA
Jennifer Welch	Texas A&M University, USA
Peter Widmayer	ETH Zurich, Switzerland

## Organizing Committee

Ioannis Chatzigiannakis	Patras University and CTI, Greece, Chair
Charilaos Eftymiou	Patras University and CTI, Greece
Athanasios Kinalis	Patras University and CTI, Greece

## Referees

Ioannis Aekaterinidis	Suhas Diggavi	Stefan Ruehrup
Amol Bakshi	Rosalba Giugno	Mirela Sechi Moretti
Luca Becchetti	Bo Hong	Annoni Notare
Domenico Cantone	Michelle Liu Jing	Stanislava Soro
Guangtong Cao	Nicholas Neumann	Bulent Tavli
Ioannis Chatzigiannakis	Nikos Ntarmos	Andrea Vitaletti
Lei Chen	Tolga Numanoglu	Klaus Volbert
Yu Chen	Paolo Penna	Owen Zacharias
Zhao Cheng	Mark Perillo	Yan Yu
Gianluca Cincotti	Alfredo Pulvirenti	Yang Yu

## Sponsoring Institutions

- Research Academic Computer Technology Institute (RACTI), Greece
- Athens Information Technology (AIT), Athens, Greece
- EU-FET R&D Project “Foundational Aspects of Global Computing Systems”, (FLAGS)
- EU-FET R&D Project “Critical Resource Sharing for Cooperation in Complex Systems”, (CRESCCO)
