

Table of Contents

Recommender Systems

Using Attributes to Improve Prediction Quality in Collaborative Filtering	1
<i>Taek-Hun Kim and Sung-Bong Yang</i>	
Using Association Analysis of Web Data in Recommender Systems	11
<i>María N. Moreno, Francisco J. García, M. José Polo, and Vivian F. López</i>	
An Intelligent System for Personalized Advertising on the Internet	21
<i>Sung Ho Ha</i>	
Supporting User Query Relaxation in a Recommender System	31
<i>Nader Mirzadeh, Francesco Ricci, and Mukesh Bansal</i>	

Databases and EC Applications

Accelerating Database Processing at e-Commerce Sites	41
<i>Seunglak Choi, Jinwon Lee, Su Myeon Kim, Junehwa Song, and Yoon-Joon Lee</i>	
Optimized Query Delivery in Distributed Electronic Markets	51
<i>Stefan Böttcher and Dimiter Dimitriev</i>	
Uniform Access to Data in Workflows	66
<i>Johann Eder and Marek Lehmann</i>	

Service-Oriented e-Commerce Applications

Formal Verification of BPEL4WS Business Collaborations	76
<i>Jesús Arias Fisteus, Luis Sánchez Fernández, and Carlos Delgado Kloos</i>	
Seamless Federation of Heterogeneous Service Registries	86
<i>Thomi Pilioura, Georgios-Dimitrios Kapos, and Aphrodite Tsalgatidou</i>	
A Survey of Public Web Services	96
<i>Su Myeon Kim and Marcel-Catalin Rosu</i>	

Electronic Negotiation Systems

Protocols for Electronic Negotiation Systems: Theoretical Foundations and Design Issues	106
<i>Gregory E. Kersten, Stefan E. Strecker, and Ka Pong Law</i>	

Implementing Complex Market Structures with MetaMarkets	116
<i>Juho Mäkiö and Ilka Weber</i>	

Evaluation of an Online Multidimensional Auction System: A Computer Simulation Investigation	126
<i>Sungwon Cho, Kyoung Jun Lee, Martha E. Crosby, and David N. Chin</i>	

Electronic Negotiations – A Generic Approach with Action Systems	135
<i>Juho Mäkiö, Ilka Weber, and Christof Weinhardt</i>	

Security and Trust in e-Commerce

Interaction Trust Evaluation in Decentralized Environments	144
<i>Yan Wang and Vijay Varadharajan</i>	

Towards a Privacy Preserving e-Commerce Protocol	154
<i>Indrajit Ray and Mike Geisterfer</i>	

Using Recoverable Key Commitment to Defend Against Truncation Attacks in Mobile Agents	164
<i>Ming Yao, Kun Peng, Matt Henricksen, Ernest Foo, and Ed Dawson</i>	

Techniques for B2B e-Commerce

OCL-Constraints for UMM Business Collaborations	174
<i>Birgit Hofreiter, Christian Huemer, and Werner Winiwarter</i>	

Use and Extension of ebXML Business Profiles for Textile/Clothing Firms	186
<i>Nicola Gessa, Cristiano Novelli, Massimo Busuoli, and Fabio Vitali</i>	

A Framework for Multilingual Electronic Data Interchange	196
<i>Rouzbeh Maani and Saeed Parsa</i>	

Negotiation Strategies and Protocols

An Analysis of Bidding Activity in Online Auctions	206
<i>Vasudeva Akula and Daniel A. Menascé</i>	

Negotiating over Bundles and Prices Using Aggregate Knowledge	218
<i>D.J.A. Somefun, T.B. Klos, and J.A. La Poutré</i>	

A Model for Multi-party Negotiations with Majority Rule	228
<i>Sheng Zhang, Fillia Makedon, James Ford, and Lin Ai</i>	

Modeling of e-Commerce Applications

Analysis of Mobile Business Processes for the Design of Mobile Information Systems	238
<i>André Köhler and Volker Gruhn</i>	

Enriching Conceptual Modeling of XML-Aware Adaptive Web Systems with Object-Oriented Constructs and UML Diagrams	248
<i>Alfredo Cuzzocrea and Carlo Mastroianni</i>	

Modelling Content Aggregation for Developing e-Commerce Web Sites	259
<i>Pedro Valderas, Joan Fons, and Vicente Pelechano</i>	

e-Commerce Intelligence

On the Use of Bipolar Scales in Preference-Based Recommender Systems .	268
<i>Miguel-Ángel Sicilia and Elena García</i>	

Applying Text Mining on Electronic Messages for Competitive Intelligence	277
<i>José Palazzo M. de Oliveira, Stanley Loh, Leandro Krug Wives, Rui Gureghian Scarinci, Daniela Musa, Lydia Silva, and Christian Zambenedetti</i>	

Web Page Ranking Based on Events	287
<i>Ajay Gupta, Manish Bhide, and Mukesh Mohania</i>	

e-Retailing and Web Site Design

A Personalized Offer Presentation Scheme for Retail In-Store Applications	296
<i>Yew-Huey Liu, Jih-Shyr Yih, and Trieu C. Chieu</i>	

Combining Usage, Content, and Structure Data to Improve Web Site Recommendation	305
<i>Jia Li and Osmar R. Zaiane</i>	

Towards a Multidimensional Model for Web-Based Applications Quality Assessment	316
<i>Ghazwa Malak, Linda Badri, Mourad Badri, and Houari Sahraoui</i>	

Structuring Web Sites Using Linear Programming	328
<i>Wookey Lee, Seung Kim, and Sukho Kang</i>	

DRM and EC Strategies

Use of Semantic Tools for a Digital Rights Dictionary	338
<i>Jaime Delgado, Isabel Gallego, and Roberto García</i>	

The Role of Electronic Commerce in Determining Desirable Customer Relationship Outcomes	348
<i>Seongcheol Kim</i>	

Value Based Management and Strategic Planning in e-Business	357
<i>Chien-Chih Yu</i>	

Author Index	369
