

# Contents

## GOR Awards

<b>Assessing Capacity Improvements by Relaying in Cellular Networks</b> H.-F. Geerdes	<b>1</b>
<b>Performance Analysis of <i>M</i>-designed Inbound Call Centers</b> R. Stolletz	<b>9</b>

## Revenue Management

<b>Revenue Management in Manufacturing</b> F. Defregger, H. Kuhn	<b>17</b>
<b>Network Revenue Management: Some Issues on Upper and Lower Bounds</b> M. Müller-Bungart	<b>23</b>

## Telecommunication and Information Technology

<b>Optimisation Methods for UMTS Radio Network Planning</b> A. Eisenblätter, A. Fügenschuh, H.-F. Geerdes, D. Junglas, T. Koch, A. Martin	<b>31</b>
--	-----------

## Production, Logistics and Supply Chain Management

<b>Distribution Planning Problem: A Survey</b> B. Bilgen, I. Ozkarahan	<b>39</b>
<b>Artikelanordnungsmuster bei Mann-zur-Ware-Kommissionierung</b> K. Dörner, M. Reeh, C. Strauss, G. Wäscher	<b>47</b>
<b>The Impact of the Exchange of Market and Stock Information on the Bullwhip Effect in Supply Chains</b> B. Faißt, D. Arnold, K. Furmans	<b>55</b>

<b>Analyzing the Bullwhip Effect of Installation-Stock and Echelon-Stock Policies with Linear Control Theory</b>	<b>63</b>
K. Hoberg, U.W. Thonemann, J.R. Bradley	
<b>Policy Approximation for the Production Inventory Problem with Stochastic Demand, Stochastic Yield and Production Leadtime</b>	<b>71</b>
K. Inderfurth, C. Gotzel	
<b>A Dynamic Model for Choosing the Optimal Technology in the Context of Reverse Logistics</b>	<b>79</b>
R. Kleber	
<b>Deriving Inventory-Control Policies for Periodic Review with Genetic Programming</b>	<b>87</b>
P. Kleinau, U.W. Thonemann	
<b>Dynamic Multi-Commodity Facility Location: A Mathematical Modeling Framework for Strategic Supply Chain Planning</b>	<b>95</b>
M.T. Melo, S. Nickel, F. Saldanha da Gama	
<b>Leistungsabstimmung von Produktionslinien in der Elektronikmontage</b>	<b>103</b>
M. Schleusener, H.-O. Günther	
<b>A Priority-Rule Based Method for Batch Production Scheduling in the Process Industries</b>	<b>111</b>
C. Schwindt, N. Trautmann	
<b>Services, Transportation and Traffic</b>	
<b>A Metaheuristic Approach for Hazardous Materials Transportation</b>	<b>119</b>
P. Carotenuto, G. Galiano, S. Giordani	
<b>Personal- und Fahrzeugeinsatzplanung in der Müllentsorgung</b>	<b>127</b>
J.R. Daduna	
<b>Modelling of Complex Costs and Rules in a Crew Pairing Column Generator</b>	<b>133</b>
R. Galia, C. Hjørning	

<b>Convexification of the Traffic Equilibrium Problem with Social Marginal Cost Tolls</b>	<b>141</b>
P. O. Lindberg, L. Engelson	

<b>Vermittlung von Fahrgemeinschaften betrachtet als Vehicle Routing Problem</b>	<b>149</b>
G. Reents	

## **Scheduling and Project Management**

<b>Single Machine Scheduling with Precedence Constraints and SLK Due Date Assignment</b>	<b>157</b>
V. Gordon, J.-M. Proth, V. Strusevich	

<b>A Parallel Approach to the Pricing Step in Crew Scheduling Problems</b>	<b>165</b>
T.V. Hoai, G. Reinelt, H.G. Bock	

<b>Scheduling Regular and Temporary Employees with Qualifications in a Casino</b>	<b>173</b>
C. Stark, J. Zimmermann	

## **Marketing and Data Analysis**

<b>Web Robot Detection - the Influence of Robots on Web Mining</b>	<b>181</b>
C. Bomhardt, W. Gaul	

<b>Visualizing Recommender System Results via Multidimensional Scaling</b>	<b>189</b>
W. Gaul, P. Thoma, L. Schmidt-Thieme, S. van den Bergh	

<b>Die Modellierung von Präferenzveränderungen mittels Scanner Panel Daten</b>	<b>197</b>
L. Hildebrandt, L. Michaelis	

<b>Measurement of Online Visibility</b>	<b>205</b>
N. Schmidt-Mänz, W. Gaul	

<b>Determinants and Behavioral Consequences of Customer Loyalty and Dependence in Online Brokerage - Results from a Causal Analysis</b>	<b>213</b>
Y. Staack	

<b>Product Bundling as a Marketing Application</b>	<b>221</b>
B. Stauß, W. Gaul	

## **Energy, Environment and Health**

<b>Entwicklung und Anwendung einer mehrstufigen Methodik zur Analyse betriebsübergreifender Energieversorgungskonzepte</b>	<b>229</b>
W. Fichtner, O. Rentz	

<b>A System Dynamics Model of the Epidemiological Transition</b>	<b>237</b>
S. Fleßa	

## **Finance, Banking and Insurances**

<b>Implementing a Reference Portfolio Strategy in Bond Portfolio Management</b>	<b>245</b>
U. Derigs, N.-H. Nickel	

<b>Evolutionary Algorithms and the Cardinality Constrained Portfolio Optimization Problem</b>	<b>253</b>
F. Streichert, H. Ulmer, A. Zell	

<b>Calculating Concentration-Sensitive Capital Charges with Conditional Value-at-Risk</b>	<b>261</b>
D. Tasche, U. Theiler	

## **Simulation**

<b>Integration der Simulation in die Programmplanung einer globalen Supply Chain</b>	<b>269</b>
L. Dohse, T. Hanschke, I. Meents, H. Zisgen	

<b>Objektorientierte Simulation von Anlagen der Elektronikmontage</b>	<b>276</b>
M. Grunow, H.-O. Günther	

## **Continuous Optimization**

<b>A Mixed-Discrete Bilevel Programming Problem</b>	<b>284</b>
S. Dempe, V. Kalashnikov	

**Detecting Superfluous Constraints in Quadratic Programming by Varying the Optimal Point of the Unrestricted Problem** **292**

P. Recht

**Fast Optimal Control Algorithms with Application to Chemical Engineering** **300**

A. Schäfer, U. Brandt-Pollmann, M. Diehl, H.G. Bock, J.P. Schlöder

**Discrete and Combinatorial Optimization**

**Proofs of Unsatisfiability Via Semidefinite Programming** **308**

M. Anjos

**Algorithms with Performance Guarantees for a Metric Problem of Finding Two Edge-Disjoint Hamiltonian Circuits of Minimum Total Weight** **316**

A.E. Baburin, E.K. Gimadi, N.M. Korkishko

**A Quadratic Optimization Model for the Consolidation of Farmland by Means of Lend-Lease Agreements** **324**

A. Brieden, P. Gritzmann

**A Bipartite Graph Simplex Method** **332**

R. Euler

**Regions of Stability for Nonlinear Discrete Optimization Problems** **340**

D. Fanghänel

**Optimization Models for the Containership Stowage Problem** **347**

P. Giemisch, A. Jellinghaus

**Solving the Sequential Ordering Problem with Automatically Generated Lower Bounds** **355**

I.T. Hernádvölgyi

**Scheduling Jobs with a Stepwise Function of Change of Their Values** **363**

A. Janiak, A. Kasperski, T. Krysiak

**Small Instance Relaxations for the Traveling Salesman Problem** **371**

G. Reinelt, K.M. Wenger

## Applied Probability

<b>A Remark on Multiobjective Stochastic Optimization Problems: Stability and Empirical Estimates</b>	<b>379</b>
V. Kaňková	

<b>Portfolio Optimization under Partial Information: Stochastic Volatility in a Hidden Markov Model</b>	<b>387</b>
J. Sass, U.G. Haussmann	

<b>On the Set of Optimal Policies in Variance Penalized Markov Decision Chains</b>	<b>395</b>
K. Sladký, M. Sitař	

<b>On Random Sums and Compound Process Models in Financial Mathematics</b>	<b>403</b>
P. Volf	

## Artificial Intelligence, Fuzzy Logic and Neural Networks

<b>Structural Optimization in Aircraft Engineering using Support Vector Machines</b>	<b>411</b>
P. Kaletta, K. Wolf, A. Fischer	

<b>Zeitformen in einer probabilistischen Konditionallogik</b>	<b>419</b>
E. Reucher, W. Rödder	

<b>Dienstplanbewertung mit unscharfen Regeln</b>	<b>427</b>
A. Schroll, T. Spengler	

<b>Optimization by Gaussian Processes assisted Evolution Strategies</b>	<b>435</b>
H. Ulmer, F. Streichert, A. Zell	

## Econometrics, Statistics, Mathematical Economics and Decision Theory

<b>Stochastic Programming and Statistical Estimates</b>	<b>443</b>
S. Vogel	

<b>Time Lags in Capital Accumulation</b>	<b>451</b>
R. Winkler, U. Brandt-Pollmann, U. Moslener, J.P. Schlöder	

## **Experimental Economics, Game Theory and Auctioning**

**First-Price Bidding and Entry Behavior in a  
Sequential Procurement Auction Model** **459**

J. P. Reiß, J. R. Schöndube

## **Web Technology, Knowledge Management and Decision Support Systems**

**Financial Market Web Mining with the Software Agent  
PISA** **467**

P. Bartels, M.H. Breitner

**Non-Linear Programming Solvers for Decision Analysis** **475**

X. Ding, M. Danielson, L. Ekenberg

**knowCube - A Spreadsheet Method for Interactive  
Multicriteria Decision Making** **483**

H.L. Trinkaus

Operations Research Proceedings 2003  
Selected Papers of the International Conference on  
Operations Research (OR 2003) Heidelberg, September  
3-5, 2003  
Ahr, D.; Fahrion, R.; Oswald, M.; Reinelt, G. (Eds.)  
2004, XVI, 490 p. 19 illus., Softcover  
ISBN: 978-3-540-21445-8
