CHAPTER I

Origin and Formative Years

1.1	From Chios to Livorno and Marseille	1
1.2	The Carathéodorys in the Ottoman Empire	3
1.3	Stephanos Carathéodory, the Father	5
1.4	Early Years in Belgium	7
1.5	The Graeco-Turkish War of 1897	11
1.6	With the British Colonial Service in Egypt	14
1.7	Studies in Berlin	19
1.8	The German University	23
1.9	Friends in Göttingen	23
1.10	Connections with Klein and Hilbert	26
1.11	Doctorate: Discontinuous Solutions in the Calculus of Variations	31
1.12	The Third International Congress of Mathematicians	36
1.13	A Visit to Edinburgh	38
1.14	Habilitation in Göttingen	39
1.15	Lecturer in Göttingen	40

CHAPTER 2

Academic Career in Germany

2.1	Habilitation (again) in Bonn	45
2.2	Axiomatic Foundation of Thermodynamics	47
2.3	Marriage, a Family Affair	51
2.4	First Professorship in Hannover	57
2.5	Professor at the Royal Technical University of Breslau	61
2.6	Theory of Functions	63
2.6.1	The Picard Theorem	63
2.6.2	Coefficient Problems	66
2.6.3	The Schwarz Lemma	68
2.6.4	Conformal Mapping	72
2.6.4.1	Existence Theorems	72
2.6.4.2	Variable Domains	74
2.6.4.3	Mapping of the Boundary	77

2.6.5	Normal Families	80
2.6.6	Functions of Several Variables	82
2.7	Elementary Radiation Theory	84
2.8	Venizelos Calls Carathéodory to Greece	87
2.9	Carathéodory Succeeds Klein in Göttingen	90
2.10	On the Editorial Board of the <i>Mathematische Annalen</i>	93
2.11	War	96
2.12	Famine	100
2.13	Inspired Mathematics	100
2.14	“German Science and its Importance”	101
2.15	Einstein Contacts Carathéodory	102
2.16	The Theory of Relativity in its Historical Context	104
2.17	Functions of Real Variables	107
2.17.1	Theory of Measure	107
2.17.2	One-to-One Mapping	108
2.17.3	Carathéodory’s Books on Real Functions	109
2.17.4	The Book on Algebraic Theory of Measure and Integration	112
2.17.5	Correspondence with Radó on Area Theory	113
2.18	Doctoral Students in Göttingen	116
2.19	Succeeded by Erich Hecke in Göttingen	116
2.20	Professor in Berlin	117
2.21	Geometry	120
2.22	Supervision of Students	123
2.23	Applied Mathematics as a Consequence of War	124
2.24	Collapse of Former Politics	125
2.25	Member of the Prussian Academy of Sciences	127
2.26	Supporting Brouwer’s Candidacy	128
2.27	Carathéodory’s Successor in Berlin	129
2.28	The “Nelson Affair”	131

CHAPTER 3

The Asia-Minor Project

3.1	Preliminaries to the Greek National Adventure	137
3.2	The Greek Landing in Smyrna and the Peace Treaty of Sèvres	140
3.3	Smyrna, a Cosmopolitan City	143
3.4	“Projet d’une nouvelle Université en Grèce”	146
3.5	Founding the Ionian University	150
3.6	The High Commissioner’s Decree	153
3.7	The Development of the Ionian University	154
3.8	“A Castle in the Air”	164
3.9	The Asia-Minor Disaster and the End of the Ionian University	165
3.10	Fleeing from Smyrna to Athens	168
3.11	Professor in Athens	170
3.12	The Lausanne Treaty: Defeat of the Great Idea	174

3.13	The Refugees	176
3.14	Carathéodory's Report to Henry Morgenthau	178
3.15	In the Hope of Venizelos's Return	180

CHAPTER 4

A Scholar of World Reputation

4.1	Appointment to Munich University	183
4.2	Life in Munich	187
4.3	Planning an Institute of Physics at Athens University with Millikan	191
4.4	Reichenbach and the Berlin Circle	196
4.5	Suggestions to Hilbert on Quantum Mechanics	200
4.6	Calculus of Variations	202
4.6.1	General Theory	202
4.6.2	Multiple Integrals	207
4.6.3	Carathéodory's Book on the Calculus of Variations and Partial Differential Equations	212
4.6.4	Control Theory, Dynamic Programming and Pontryagin's Principle	215
4.6.5	Viscosity Solutions to Hamilton–Jacobi PDEs	216
4.7	Member of the Academy of Athens	217
4.8	Caring for Munich's Scientific Life	219
4.9	First Visiting Lecturer of the American Mathematical Society	220
4.10	Hindered by the Bavarian Ministry of Finances	220
4.11	At the University of Pennsylvania	222
4.12	At Harvard	222
4.13	At Princeton	223
4.14	An “Excellent Man” but not to be Appointed	224
4.15	The “Bochner Case”	226
4.16	At Austin and San Antonio	228
4.17	Impressions of America	228
4.18	“A Great Catch”: Appointment to a Full Professorship of Mathematics at Stanford University	229
4.19	Carathéodory Negotiates to Remain in Munich	231
4.20	Carathéodory and Radó	233
4.21	A “Pack of Wolves”	235
4.22	Carathéodory's View of Rosenthal	242
4.23	Works of Art for Delta	243
4.24	Honour to Schmidt-Ott	244
4.25	Expecting a New Mission in Greece	245
4.26	Venizelos Calls Carathéodory to Rescue the Greek Universities	249
4.27	Carathéodory's Report	253
4.28	In Thessaloniki	255
4.29	“The Crown of Thorns”	257
4.30	Commissioner of the Greek Government	259

4.31	Undesirable Reform	262
4.32	Academic Contacts in Greece	263
4.33	Goethe: A Graeco-German Bridge	266
4.34	A Timely Overview of Mathematics	267
4.35	Neugebauer, Courant, Springer	268
4.36	At the International Congress of Mathematicians in Zurich	269
4.37	Mechanics	273

CHAPTER 5

National Socialism and War

5.1	“Gleichschaltung”	275
5.2	Carathéodory’s Friends: Victims of the 1933 Racial Laws	278
5.3	Member of the “Reform Committee”	288
5.4	Three “Incorrigible” Opponents	290
5.5	Recommending Ernst Mohr	292
5.6	The Reich Ministry of Education and the Lecturers’ Corporation	293
5.7	Persecutions and Resignations in 1934	294
5.8	Under Observation and Judgement	296
5.9	A Catholic or an Orthodox?	296
5.10	In Pisa	297
5.11	Honorary President of the Inter-Balkan Congress of Mathematicians ...	297
5.12	Nuremberg Laws and New Measures	299
5.13	In Bern and Brussels	301
5.14	Member of the International Commission of Mathematicians	302
5.15	Protest	304
5.16	Carathéodory’s View of Damköhler	305
5.17	Despina Leaves Munich for Athens	305
5.18	“On the Present State of the German Universities”	309
5.19	Carathéodory Meets Tsaldaris at Tegernsee	310
5.20	Corresponding Member of the Austrian Academy of Sciences	313
5.21	Expecting the War – On the Political Situation in Europe and Greece ...	313
5.22	4 August 1936: Dictatorship in Greece	314
5.23	The Oslo Congress: awarding the First Fields Medals	317
5.24	Against an International Congress of Mathematicians in Athens	323
5.25	Invitation to the University of Wisconsin	323
5.26	Carl Schurz Professor at the University of Wisconsin	327
5.27	Support for Blumenthal	328
5.28	Pontifical Academician	329
5.29	Geometric Optics	334
5.29.1	The Book	334
5.29.2	The Schmidt Mirror Telescope	335
5.29.3	Correspondence with the Imperial Chemical Industries on the Schmidt Mirror Systems	338
5.30	Nazi Measures and Laws in 1937	341

5.31	“The Wandering Jew”	343
5.32	Graeco-German Relations Before the War	343
5.33	Archaeological Interest	344
5.34	A “Symbol” of German-Greek Contact	348
5.35	Release from Civil Service – Flexible in Surviving	349
5.36	Honorary Professor of the University of Athens	352
5.37	The Fate of the Last Remaining Friends	352
5.38	Dispute about Carathéodory’s Successor	354
5.38.1	The Persons Involved	354
5.38.2	The Lists Submitted	356
5.38.3	The Successful Candidate	362
5.39	Despina’s Wedding	363
5.40	Two Trips Cancelled Because of the War	366
5.41	Decline in Quality	367
5.42	Carathéodory and the Cartan Family – Germany Occupies France	368
5.43	Favouring Weizsäcker’s Appointment in Munich	369
5.44	Sommerfeld’s Successor	371
5.45	Greece under German Occupation (1941–1944)	374
5.46	International Science Restructuring	377
5.47	Mediating for Saltykow’s Release	379
5.48	Unable to Rescue Schauder	380
5.49	Papal Audience in Rome	383
5.50	Why Should Every Philistine Know who Hilbert was?	385
5.51	Summer Vacations in the Black Forest	388
5.52	An Unrealised Plan to Visit Finland and the Rosenberg Report on Carathéodory	389
5.53	Munich in Wartime – Contact with Leipzig and Freiburg	395
5.54	Endeavours to Save “German Science”	396
5.54.1	In Favour of van der Waerden’s Stay in Germany	396
5.54.2	Von Laue’s Acknowledgement	397
5.54.3	Steck’s Exclusion from Lambert’s Edition	397
5.54.4	In the Jury for a Prize in Geometry	399
5.55	Bombardments of Munich	399
5.56	Denunciations	400
5.56.1	Mohr	400
5.56.2	The Hopf Family	401
5.57	A Reich Institute for Mathematics	402
5.58	Munich in the Autumn of 1944	403
5.59	“In the Interest of the Union”	404
5.60	An Unlikely Captive	405
5.61	Euphrosyne’s Illness and Air Raids	407
5.62	Collected Mathematical Writings	407
5.63	Denazification	412
5.64	A “Reasonable” Compromise	418

CHAPTER 6

The Final Years

6.1	Consequences of War	421
6.2	Carathéodory and the Mathematical Institute in Oberwolfach: Reconstruction	423
6.3	In Zurich: Family and Friends	428
6.4	Attempts to Leave Germany for Greece	429
6.5	Contacts with Americans	432
6.6	Widowed and Fatally Diseased	435
6.7	Theory of Functions and Carathéodory's Last Doctoral Student	438
6.8	Born's Natural Philosophy of Cause and Chance	439
6.9	The First Post-War International Congress of Mathematicians	439
6.10	Death	441
6.11	Carathéodory's Library	444
Epilogue		449
Appendix I	Some Explanations concerning the Text	457
Appendix II	A Short Biographical Sketch of the Carathéodory Family	461
Appendix III	Chronology	465
Appendix IV	Carathéodory's Fields of Study and Contributions bearing his Name	473
Appendix V	A List of Carathéodory's Students	477
Notes		483
Bibliography		601
A. Carathéodory's Works		601
B. Selected Bibliography		602
Name Index		609
Geographic Index		625
Subject Index		631
Index of Mathematical and Physical Subjects		637
Index of Academic Organisations and Institutions		641
Some Views of Munich and Ludwig-Maximilian University		647

Constantin Carathéodory

Mathematics and Politics in Turbulent Times

Georgiadou, M.

2004, XXVIII, 651 p., Hardcover

ISBN: 978-3-540-44258-5
