

Contents

1 Basic Principles and Physics of Duplex and Color Doppler Imaging CHRISTIAN KOLLMANN	1
2 Venous Duplex Doppler and Color Doppler Imaging Techniques JASMIN LISKUTIN, ROLAND DORFFNER and GERHARD H. MOSTBECK	19
3 Venous Hemodynamics and Normal Doppler Findings in the Venous System GERHARD H. MOSTBECK, GERTRAUD STRASSER and JASMIN LISKUTIN	35
4 Doppler Imaging of Jugular Vein and Thoracic Inlet Venous Obstruction NORBERT GRITZMANN, THOMAS RETTENBACHER, ALOIS HOLLERWEGER and PETER MACHEINER	47
5 Doppler Imaging of Liver Veins HANS PETER WESKOTT	55
6 Doppler Imaging of Abdominal Veins REINHARD KUBALE and HANS PETER WESKOTT	69
7 Quantitative Assessment of Splanchnic Venous Hemodynamics by Doppler Techniques K.-H. SEITZ and M. MERZ	91
8 Doppler Imaging of TIPS GÜNTHER NICS and FRANZ KARNEL	105
9 Doppler Imaging of Lower Extremity Deep Venous Thrombosis MANFRED BALDT, THOMAS ZONTSICH and GERHARD H. MOSTBECK	115
10 Preoperative Assessment of Varicosis of the Lower Extremity by Doppler Techniques THOMAS ZONTSICH and MANFRED BALDT	127
11 Venous Color Duplex Sonography of the Scrotum FRANZ FOBBE	135
12 Influences of Cardiac Pathology on Doppler Findings in the Venous System CHRISTINE B. HENK, STEPHAN GRAMPP and GERHARD H. MOSTBECK	141
13 Pediatric Aspects of Doppler Imaging of the Venous System KLARA VERGESSLICH	153
Abbreviations	161
Subject Index	163
List of Contributors	167

Duplex and Color Doppler Imaging of the Venous
System

Mostbeck, G.H. (Ed.)

2004, IX, 170 p. 264 illus., 135 illus. in color., Hardcover

ISBN: 978-3-540-64168-1
