Contents

1 Introduction 1
1.1 Policy Background 1
1.1.1 The Common Implementation Strategy of the Water Framework Directive 1
1.1.2 CIS Working Group on Heavily Modified Water Bodies 4
1.2 Objectives 8
1.3 Methodology 8
1.4 Scope and Structure 9

2 Guidance on Heavily Modified and Artificial Water Bodies 11

3 Selection of Case Studies 17
3.1 Overview of the Case Studies 17

4 Identification of Water Bodies 27
4.1 Introduction 27
4.2 Criteria for the Identification of Water Bodies 28
4.2.1 Overall application of Identification Criteria 28
4.2.2 Identification Criteria for Different Water Categories 31
4.3 Results 34
4.3.1 Overview of Water Body Identification Results in the HMWB Case Studies 34
4.3.2 Scale of Water Body Identification 35
4.4 Differentiation of Artificial Water Bodies 40
4.5 Conclusions and Discussion 42

5 Uses, Physical Alterations and Impacts to Hydromorphology 45
5.1 Introduction 45
5.2 Methods for the Description of Specified Uses 46
5.3 Methods for the Description of Physical Alterations 46
5.4 Methods for the Evaluation of Impacts upon Hydromorphology 53
5.5 Results on Specified Uses and Physical Alterations 56
5.6 Results on Hydromorphological Impacts 62
5.7 Conclusions and Discussion 64

6 Ecological Status ... 69
6.1 Introduction ... 69
6.2 Biological Quality Elements ... 69
6.2.1 Quality Elements and Assessment Methods ... 69
6.2.2 Impacts of Specified Uses and Physical Alterations ... 75
6.2.3 Other Impacts ... 80
6.3 Physicochemical Quality Elements ... 81
6.3.1 Quality Elements and Assessment Methods ... 81
6.3.2 Impacts of Specified Uses and Physical Alterations ... 81
6.3.3 Other Impacts ... 83
6.4 Hydromorphological Quality Elements ... 83
6.5 Assessment of Current Ecological Status ... 84
6.5.1 Overview of Methods ... 84
6.5.2 Selection of Reference Conditions ... 87
6.5.3 Results on the Definition of Current Ecological Status ... 91
6.6 Conclusions and Discussion ... 92

7 Provisional Identification of Water Bodies as Heavily Modified ... 97
7.1 Introduction ... 97
7.2 Results ... 97
7.3 Criteria and Methods ... 97
7.4 Scope and Extent of Provisional Identification ... 103
7.5 Conclusions and Discussion ... 104

8 Designation of Heavily Modified Water Bodies ... 107
8.1 Introduction ... 107
8.2 Designation Test 4(3)(a): Assessment of Necessary Restoration Measures to Achieve GES ... 108
8.2.1 Identification of the Necessary Restoration Measures ... 109
8.2.2 Assessment of Significant Adverse Effects on the Specified Use or the Wider Environment ... 112
8.3 Designation Test 4(3)(b): Assessment of Other Environmental Options ... 116
8.3.1 Identifying "Other Means" ... 116
8.3.2 Assessment of "Technical Feasibility" ... 118
8.3.3 Assessment of "Significantly Better Environmental Option" ... 120
8.3.4 Assessment of "Disproportionate Costs" ... 122
8.4 Examples of Different Designation Approaches ... 127
8.5 Overview of Results on HMWB Designation ... 132
8.6 Conclusions and Discussion ... 133

9 Definition of Maximum Ecological Potential ... 137
9.1 Introduction ... 137
9.2 Methods for the Definition of MEP ... 138
9.2.1 Mitigation Measures for Achieving MEP ... 141
9.2.2 Quality Elements and their Values at MEP ... 145
9.3 Conclusions and Discussion ... 151

10 Definition of Good Ecological Potential 153
10.1 Introduction 153
10.2 Methods for the Definition of GEP 153
10.3 Results 157
10.4 Programme of Measures for Protecting and Enhancing Ecological Quality 157
10.5 Conclusions and Discussion 159

11 Conclusions and Outlook 165

12 Bibliography 171
12.1 Case Studies 171
12.2 WFD-CIS Documents 174
12.3 General Literature 174

13 Annex I: Contributing Authors 177

14 Annex II: Case Study Evaluation Tables and Methods 183

Heavily Modified Water Bodies
Synthesis of 34 Case Studies in Europe
Kampa, E.; Hansen, W.
2004, XVIII, 321 p., Hardcover
ISBN: 978-3-540-21085-6
