

# Table of Contents

<b>1</b>	<b>Introduction</b>	1
1.1	Scattered Data Modelling	1
1.2	Multiresolution Methods	3
1.3	Multilevel Methods	5
1.4	Adaptive Irregular Sampling	6
<b>2</b>	<b>Algorithms and Data Structures</b>	7
2.1	Triangulation Methods	7
2.2	Delaunay Triangulations	9
2.3	Voronoi Diagrams	13
2.4	Data-Dependent Triangulations	15
2.5	Heaps and Priority Queues	20
2.6	Quadtrees	26
<b>3</b>	<b>Radial Basis Functions</b>	31
3.1	Interpolation	32
3.2	Conditionally Positive Definite Functions	37
3.3	Optimal Recovery	40
3.4	Pointwise Optimality	42
3.5	Error Estimates	46
3.6	Numerical Stability	47
3.7	Uncertainty Principle	48
3.8	Polyharmonic Splines	49
3.9	Optimal Point Sampling	59
3.10	Least Squares Approximation	61
<b>4</b>	<b>Thinning Algorithms</b>	67
4.1	Preliminary Remarks	68
4.2	Generic Formulation	69
4.3	Non-Adaptive Thinning	70
4.4	Scattered Data Filtering	78
4.5	Adaptive Thinning	90
4.6	Adaptive Thinning in Digital Image Compression	103

<b>5</b>	<b>Multilevel Approximation Schemes</b> .....	127
5.1	Generic Formulation .....	128
5.2	Multilevel Interpolation .....	129
5.3	Adaptive Multilevel Approximation .....	132
5.4	Hierarchical Surface Visualization .....	136
<b>6</b>	<b>Meshfree Methods for Transport Equations</b> .....	143
6.1	Transport Equations .....	144
6.2	Meshfree Method of Characteristics .....	146
6.3	Adaption Rules .....	150
6.4	Multiscale Flow Simulation .....	152
	<b>Bibliography</b> .....	171
	<b>Index</b> .....	181

Multiresolution Methods in Scattered Data Modelling

Iske, A.

2004, XII, 188 p. 21 illus., 2 illus. in color., Softcover

ISBN: 978-3-540-20479-4
