1	The Arctic Ocean: Boundary Conditions and Background Information	1
1.1	Physiography and Bathymetry of the Arctic Ocean . . . (M. JAKOBSSON, A. GRANTZ, Y. KRISTOFFERSEN, R. MACNAB)	1
1.1.1	Introduction	1
1.1.2	Definition of the Arctic Ocean and its Constituent Seas	1
1.1.3	Bathymetry and Physiography	3
1.1.4	Volumes, Areas and Mean Depths of the Arctic Ocean and its Constituent Seas	5
1.2	The Arctic Ocean: Modern Status and Recent Climate Change (R. W. MACDONALD, E. SAKSHAUG, R. STEIN)	6
1.2.1	Modern hydrography and Sea-ice Cover of the Arctic Ocean	6
1.2.2	The Arctic Ocean and Global Change	11
1.2.2.1	The distant past	11
1.2.2.2	Recent change and the Arctic Oscillation	13
1.2.2.3	The Future	20
1.3	The Tectonic Evolution of the Arctic Ocean: Overview and Perspectives (W. JOKAT)	21
1.4	Geochemical Proxies Used for Organic Carbon Source Identification in Arctic Ocean Sediments (R. STEIN, R.W. MACDONALD)	24
1.4.1	Introduction	24
1.4.2	Organic geochemical bulk parameters	25
1.4.3	Maceral composition	28
1.4.4	Biomarker composition	29
1.4.5	The application of redox markers to organic carbon sediment geochemistry	30
2	Modern Terrigenous Organic Carbon Input to the Arctic Ocean	33
	(V. RACHOLD, H. EICKEN, V. V. GORDEEV, M. N. GRIGORIEV, H.-W. HUBBERTEN, A. P. LISITZIN, V. P. SHEVCHENKO, L. SCHIRMEISTER)	
2.1	General Introduction	33

2.2	River Input	33
	(V. V. GORDEEV, V. RACHOLD)	
2.2.1	Introduction	33
2.2.2	River water and suspended matter	33
2.2.3	Fluxes of organic carbon	37
2.3	Organic Carbon Input to the Arctic Seas Through Coastal Erosion	41
	(M. N. GRIGORIEV, V. RACHOLD, H.-W. HUBBERTEN, L. SCHIRMEISTER)	
2.3.1	Introduction	41
2.3.2	Methodology	42
2.3.3	Coastal organic carbon input	45
2.4	The Role of Arctic Sea Ice in Transporting and Cycling Terrestrial Organic Matter	45
	(H. EICKEN)	
2.4.1	Introduction	45
2.4.2	Methods	46
2.4.3	Sea ice transport in the Arctic Ocean and entrainment of particulate matter	46
2.4.4	Dissolved organic carbon in sea ice	47
2.4.5	Particulate organic carbon in sea ice	50
2.4.6	Conclusions	52
2.5	Aeolian Input	53
	(V. P. SHEVCHENKO, A. P. LISITZIN)	
2.6	Summary and Concluding Remarks	54
 3	 Primary and Secondary Production in the Arctic Seas	 57
	(E. SAKSHAUG)	
3.1	Introduction	57
3.2	Major Algal Groups and Their Distribution	57
3.2.1	Distribution of species	58
3.2.2	Nutritional and chemical properties	59
3.3	Limitation and Control of Primary Production	59
3.3.1	Light	60
3.3.2	Nutrients	63
3.4	Primary Production and Growth Rate	64
3.4.1	New vs. regenerative primary production	64
3.4.2	Chla: C ratio, light saturation index, photoacclimation	64
3.4.3	Growth rate	65
3.4.4	Growth strategies	66
3.5	Seasonality	66
3.5.1	Pre-bloom, winter and survival	67
3.5.2	Spring blooms, vertical mixing and ice-edge blooms	67
3.5.3	The post bloom	68
3.6	Distribution of Primary Production	69
3.6.1	The deep Arctic Ocean Basin	69
3.6.2	Polynyas	71

3.6.3	Arctic Shelf Seas	73
3.6.4	The Atlantic sector: The Nordic Seas, Baffin Bay, Hudson Bay and Labrador Sea	74
3.6.5	Bering Shelf	75
3.6.6	Oceanic Bering Sea	76
3.6.7	Sea of Okhotsk	76
3.7	Mesozooplankton	76
3.7.1	Mesozooplankton biomass	77
3.7.2	Grazing and mesozooplankton production	78
3.7.3	Match-mismatch	79
3.8	Primary Production – Impact of Climate Change	79
3.9	Summary and Concluding Remarks	81
4	The Role of Dissolved Organic Matter for the Organic Carbon Cycle in the Arctic Ocean . .	83
	(R. M. W. AMON)	
4.1	Introduction	83
4.2	Riverine DOM on Arctic Shelves and Beyond	83
4.2.1	Estuarine Mixing	84
4.2.2	Chemical characteristics and origin of DOM on the Eurasian shelf	85
4.2.3	The role of bacteria and photochemical processes on the Eurasian shelf	87
4.2.4	The role of sea ice formation on DOM on the Eurasian shelf	88
4.2.5	The distribution of terrestrial DOM in the central Arctic Ocean and the GIN Sea	90
4.3	Distribution, Chemical Composition, and Fluxes of Marine DOM in the Central Arctic Ocean	92
4.3.1	Primary production and bacterial utilization of DOM . .	92
4.3.2	DOM distribution and chemical composition	94
4.3.3	DOC exchanges between the Arctic Ocean and adjacent Ocean basins	96
4.3.4	Vertical export of DOC in the Arctic Ocean	97
4.4	Summary and Concluding Remarks	99
5	Particulate Organic Carbon Flux to the Arctic Ocean Sea Floor	101
	(P. WASSMANN, E. BAUERFEIND, M. FORTIER, M. FUKUCHI, B. HARGRAVE, B. MORAN, T. NOJI, E.-M. NÖTHIG, K. OLLI, R. PEINERT, H. SASAKI, V. P. SHEVCHENKO)	
5.1	Introduction	101
5.2	What do we Know About Vertical Carbon Flux from the Arctic Ocean?	102
5.3	Case Studies	103
5.3.1	North Water Polynya (B. Hargrave)	103

5.3.2	North East Water Polynya (E. Bauerfeind)	106
5.3.3	Greenland Sea (R. Peinert, T. Noji)	109
5.3.4	Central Barents Sea and Northern Spitsbergen (P. WASSMANN, K. OLLI)	112
5.3.5	Eastern Barents Sea and Kara Sea (V. Shevchenko) . . .	114
5.3.6	Laptev Sea and Lomonosov Ridge (E.-M. Nöthig, V. Shevchenko)	117
5.3.7	Northern Bering Sea (H. Sasaki, M. Fukuchi)	118
5.3.8	Canadian Ice Island (B. Hargrave)	120
5.3.9	Canadian Archipelago: Barrow Strait (M. Fortier)	122
5.4	Regional Variability in POC Export Flux in the Arctic Ocean Determined Using ^{234}Th as a Tracer (B. MORAN)	126
5.4.1	Introduction and Background	126
5.4.2	Uncertainties in ^{234}Th -derived POC Export Fluxes . . .	127
5.4.3	Regional Variability in Arctic POC Export Fluxes	127
5.4.4	Conclusions	130
5.5	Particulate Organic Carbon Flux to the Seafloor of the Arctic Ocean: Quantity, Seasonality and Processes . . . (P. WASSMANN)	131
5.5.1	Seasonal and Annual Estimates of Vertical Carbon Export	131
5.5.2	Ice, Light, Stratification, and Vertical Carbon Export . .	133
5.5.3	River Run-off, Resuspension, and Vertical Carbon Export	133
5.5.4	High Retention of Vertical Carbon Export in the Twilight Zone of the Arctic Ocean	134
5.5.5	Global Warming and Vertical Carbon Export	135
5.6	Summary and Concluding Remarks	138
6	The Benthos of Arctic Seas and its Role for the Organic Carbon Cycle at the Seafloor (M. KLAGES, A. BOETIUS, J. P. CHRISTENSEN, H. DEUBEL, D. PIEPENBURG, I. SCHEWE, T. SOLTWEDEL)	139
6.1	Introduction	139
6.2	Origin and Evolution of Arctic Habitats and Species . .	141
6.3	Food Supply of the Arctic Benthos: Sources and Pathways	141
6.4	Benthic Communities of the Arctic Seas	146
6.4.1	Arctic Shelves and Margins	146
6.4.2	Central Arctic	157
6.5	Organic Carbon Utilization by the Arctic Benthos . . .	159
6.5.1	Arctic Continental Shelves	160
6.5.2	Central Arctic Ocean	162
6.6	Summary and Concluding Remarks	167

7	Organic Carbon in Arctic Ocean Sediments: Sources, Variability, Burial, and Paleoenvironmental Significance	169
7.1	Organic Carbon in Arctic Ocean Sediments: A General Introduction (R. STEIN, R. W. MACDONALD)	169
7.1.1	Pre-Quaternary (Jurassic-Cretaceous) Organic Carbon Records	169
7.1.2	Modern and Late Quaternary Organic Carbon Records	172
7.2	The Beaufort Sea: Distribution, Sources, Fluxes, and Burial Rates of Organic Carbon (R. W. MACDONALD, A. S. NAIDU, M. B. YUNKER, C. GOBEIL)	177
7.2.1	Introduction	177
7.2.2	Data Base	178
7.2.3	Distribution and Sources of Organic Carbon in Surface Sediments	178
7.2.4	The Effect of Sea-level Rise During the Holocene	186
7.2.5	Burial Rates of Organic Carbon and Budget	186
7.2.6	Summary and Concluding Remarks	192
7.3	The Continental Margin of the North Bering-Chukchi Sea: Distribution, Sources, Fluxes, and Burial Rates of Organic Carbon (A. S. NAIDU, L. W. COOPER, J. M. GREBMEIER, T. E. WHITLEDGE, M. J. HAMEEDI)	193
7.3.1	Introduction	193
7.3.2	Data Base, Material and Methods	195
7.3.3	Distribution and Sources of Organic Carbon in Surface Sediments	196
7.3.4	Fluxes, Accumulation, Burial Rates, and Remineralization of OC, and Benthic Oxygen Uptake Rates	201
7.3.5	Summary and Concluding Remarks	203
7.4	The East Siberian Sea: Distribution, Sources, and Burial of Organic Carbon (V. I. PETROVA, G. I. BATOVA, A. G. ZINCHENKO, A. V. KURSHEVA, E. V. NARKEVSKIY)	204
7.4.1	Introduction	204
7.4.2	Data base, Material and Methods	206
7.4.3	Distribution and Sources of Organic Carbon in Surface Sediments	206
7.4.4	Burial Rates of Organic Carbon	212
7.4.5	Summary and Concluding Remarks	212
7.5	The Laptev Sea: Distribution, Sources, Variability and Burial of Organic Carbon (R. STEIN, K. FAHL)	213
7.5.1	Introduction	213
7.5.2	Data base, Material and Methods	214
7.5.3	Distribution and Sources of Organic Carbon in Surface Sediments	215

7.5.4	Late Quaternary Organic Carbon Records and Paleoenvironment	221
7.5.5	Accumulation Rates and Budget of Total Sediment and Organic Carbon	228
7.5.6	Summary and Concluding Remarks	236
7.6	The Kara Sea: Distribution, Sources, Variability and Burial of Organic Carbon (R. Stein, K. Fahl)	237
7.6.1	Introduction	237
7.6.2	Data base, Material and Methods	240
7.6.3	Distribution and Sources of Organic Carbon in Surface Sediments	240
7.6.4	Late Quaternary Organic Carbon Records and Paleoenvironment	248
7.6.5	Budget of Total Sediment and Organic Carbon	257
7.6.6	Summary and Concluding Remarks	266
7.7	The Barents Sea: Distribution, Sources, Variability and Burial of Organic Carbon (A. VETROV, E. A. ROMANKEVICH)	266
7.7.1	Introduction	266
7.7.2	Data base, Material and Methods	267
7.7.3	Distribution and Sources of Organic Carbon in Surface Sediments	267
7.7.4	Late Quaternary Organic Carbon Records and Paleoenvironment	270
7.7.5	Burial Rates and Organic Carbon Budget	273
7.7.6	Summary and Concluding Remarks	278
7.8	Northern Fram Strait und Yermak Plateau: Distribution, Variability and Burial of Organic Carbon and Paleoenvironmental Implications (D. BIRGEL, R. STEIN)	279
7.8.1	Introduction	279
7.8.2	Data base, Material and Methods	280
7.8.3	Distribution and Sources of Organic Carbon in Surface Sediments	280
7.8.4	Late Quaternary Organic Carbon Records and Paleoenvironment	285
7.8.5	Accumulation Rates and Organic Carbon Budget	289
7.8.6	Summary and Concluding Remarks	294
7.9	The Central Arctic Ocean: Distribution, Sources, Variability and Burial of Organic Carbon (R. STEIN, C. SCHUBERT, R.W. MACDONALD, K. FAHL, H. R. HARVEY, D. WEIEL)	295
7.9.1	Introduction	295
7.9.2	Data base, Material and Methods	297
7.9.3	Distribution and Sources of Organic Carbon in Surface Sediments	297
7.9.4	Late Quaternary Organic Carbon Records and Paleoenvironment	303

7.9.5	Accumulation Rates and Budget of Total Sediment and Organic Carbon	311
7.9.6	Summary and Concluding Remarks	314
8	Organic Carbon Budget: Arctic Ocean vs. Global Ocean	315
	(R. STEIN, R. W. MACDONALD)	
8.1	Introduction	315
8.2	Global Organic Carbon Fluxes: Sources and Sinks . . .	315
8.3	Arctic Ocean Organic Carbon Fluxes: Sources and Sinks	317
8.4	Summary and Concluding Remarks	322
9	References	323

The Organic Carbon Cycle in the Arctic Ocean

Stein, R.; Macdonald, R.W. (Eds.)

2004, XIX, 363 p., Hardcover

ISBN: 978-3-540-01153-8
