

Contents

Part 1: Cell Biology and Biochemistry

Chantal BILLARD and Isao INOUE

What is new in coccolithophore biology? 1

Colin BROWNLEE and Alison TAYLOR

Calcification in coccolithophores: A cellular perspective 31

Kees VAN LENNING, Ian PROBERT, Mikel LATASA, Marta ESTRADA,
and Jeremy R. YOUNG

Pigment diversity of coccolithophores in relation to taxonomy,
phylogeny and ecological preferences 51

Part 2: Physiology and bloom studies

Toby TYRELL and Agostino MERICO

Emiliania huxleyi: bloom observations and the conditions that
induce them..... 75

Björn ROST and Ulf RIEBESELL

Coccolithophore calcification and the biological pump: response
to environmental changes..... 99

Gill MALIN and Michael STEINKE

Dimethyl sulfide production: what is the contribution of the
coccolithophores? 127

William M. BALCH

Re-evaluation of the physiological ecology of coccolithophores
..... 165

Jeremy R. YOUNG, Karen HENRIKSEN and Ian PROBERT

Structure and morphogenesis of the coccoliths of the
CODENET species..... 191

Ian PROBERT and Aude HOUDAN	
The laboratory culture of coccolithophores	217

Part 3: Molecular phylogeny and evolutionary biodiversity

Alberto G. SÁEZ, Ian PROBERT, Jeremy R. YOUNG, Bente EDVARSEN, Wenche EIKREM, and Linda K. MEDLIN	
A review of the phylogeny of the Haptophyta.....	251
Colomban DE VARGAS, Alberto G. SÁEZ, Linda K. MEDLIN, and Hans R. THIERSTEIN	
Super-Species in the calcareous plankton.....	271
Patrick S. QUINN, Alberto G. SÁEZ, Karl-Heinz BAUMANN, Blair A. STEEL, Claudia SPRENGEL, and Linda K. MEDLIN	
Coccolithophorid biodiversity: evidence from the cosmopolitan species <i>Calcidiscus leptoporus</i>	299
Markus GEISEN, Jeremy R. YOUNG, Ian PROBERT, Alberto G. SÁEZ, Karl-Heinz BAUMANN, Jörg BOLLMANN, Lluís CROS, Colomban DE VARGAS, Linda K. MEDLIN, and Claudia SPRENGEL	
Species level variation in coccolithophores	327
Karl-Heinz BAUMANN, Babette BÖCKEL, and Michael FRENZ	
Coccolith contribution to South Atlantic carbonate sedimentation.....	367
Patrizia ZIVERI, Karl-Heinz BAUMANN, Babette BÖCKEL, Jörg BOLLMANN, and Jeremy R. YOUNG	
Biogeography of selected Holocene coccoliths in the Atlantic Ocean	403

Part 4: Evolutionary development, fluxes and paleoproxies

Paul FALKOWSKI, Oscar SCHOFIELD, Miriam E. KATZ, Bas VAN DE SCHOOTBRUGGE, and Andrew H. KNOLL	
Why is the land green and the ocean red?	429

Hans R. THIERSTEIN, Mara Y. CORTÉS, and Ali T. HAIDAR	
Plankton community behavior on ecological and evolutionary timescales: when models confront evidence	455
Paul BOWN, Jackie A. LEES, and Jeremy R. YOUNG	
Calcareous nannoplankton evolution and diversity through time	481
William W. HAY	
Carbonate fluxes and calcareous nannoplankton	509
Heather STOLL and Patrizia ZIVERI	
Coccolithophorid-based geochemical paleoproxies	529
Part 5: Index	
Index	563

Coccolithophores

From Molecular Processes to Global Impact

Thierstein, H.R.; Young, J.R. (Eds.)

2004, XIII, 565 p., Hardcover

ISBN: 978-3-540-21928-6
